000-002: IBM Tivoli Storage Productivity Center V4.1 Implementation

Practice Exam: 000-002 Exams

Exam Number/Code: 000-002

Exam Name: IBM Tivoli Storage Productivity Center V4.1 Implementation

Questions and Answers: 80 Q&As

([Tivoli Software](#))

"IBM Tivoli Storage Productivity Center V4.1 Implementation", also known as 000-002 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 80 Q&As to your 000-002 exam preparation. In the 000-002 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : **000-002**

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM Tivoli Software 000-002 (IBM Tivoli Storage Productivity Center V4.1 Implementation) examination of original title complete coverage. 000-002 exam questions help you pass the exam.

Just4Study 000-002 Feature:

* High quality - High quality and valued for the 000-002 Exam: 100% Guarantee to Pass Your 000-002 exam and get your Tivoli Software certification.

* Authoritative - Authoritative braindumps with complete details about 000-002 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Tivoli Software resources, you will minimize your **IBM Tivoli Software** cost and be ready to pass your 000-002 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Tivoli Software demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-002 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-002 Demo Download

Just4Study offers free demo for Tivoli Software 000-002 exam (IBM Tivoli Storage Productivity Center V4.1 Implementation). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM Tivoli Software 000-002** examination of original title complete coverage.000-002 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 000-002

Exam Name: IBM Tivoli Storage Productivity Center V4.1 Implementation(Tivoli Software)

Questions and Answers: 80 Q&A

IBM 000-002 Test belongs to one of the Tivoli Software certified test, if needs to obtain the Tivoli Software certificate, you also need to participate in other related test, the details you may visit the [Tivoli Software](#) certified topic, in there, you will see all related Tivoli Software certified subject of examination.

Just4Study professional provide Tivoli Software 000-002 the newest Q&A, completely covers 000-002 test original topic. With our complete Tivoli Software resources, you will minimize your Tivoli Software cost and be ready to pass your 000-002 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-002

Title : IBM Tivoli Storage Productivity Center V4.1 Implementation

1. Which three functions are listed under IBM Tivoli Storage Productivity Center -> Analytics tree? (Choose three.)

- A. Alerting
- B. Topology
- C. SAN Planner
- D. Storage Optimizer
- E. Storage Resource Group Management
- F. Configuration Analysis/ Configuration History

Answer: CDF

2. Which component is required if a customer wants to deploy IBM Tivoli Storage Productivity Center Data and Fabric agents within their environment?

- A. IBM Tivoli Agent Manager
- B. IBM Tivoli Storage Manager
- C. IBM Tivoli Enterprise Console
- D. IBM Tivoli Storage Productivity Center for Replication

Answer: A

3. Given the customer requirement to report on database utilization, which installation best meets that requirement?

- A. Install the Storage Resource agents (SRAs) on all hosts where database reporting is required.
- B. Install the Agent Manager and the SRAs on all hosts where database reporting is required and no other configuration is needed.
- C. Install the Agent Manager and the Data agents on all hosts where database reporting is required, and configure the connection parameters in the IBM Tivoli Storage Productivity Center GUI for each database instance.
- D. Install the Agent Manager and the SRAs on all hosts where database reporting is required, and configure the connection parameters in the IBM Tivoli Storage Productivity Center GUI for each database instance.

Answer: C

4. The customer is requesting performance monitoring of fiber channel switches. Which minimum IBM Tivoli Storage Productivity Center V4.1 (Tivoli Storage Productivity Center) license is required?

- A. Tivoli Storage Productivity Center for Fabric
- B. Tivoli Storage Productivity Center Basic Edition
- C. Tivoli Storage Productivity Center Standard Edition
- D. Tivoli Storage Productivity Center does not provide performance monitoring capabilities for fiber channel switches.

Answer: C

5. For best results, what is the job sequence to check quotas for monitored database?

- A. Run probe, scan, and then the quota checker.
- B. Run quota checker, scan, and then the probe.
- C. Run probe, quota checker, and then the scan.
- D. Run probe, and then scan, and no specific quota checker is needed.

Answer: A

6. How many zone set(s) can be active at the same time?

- A. 1
- B. 3
- C. 10
- D. unlimited

Answer: A

7. During the planning session, the customer stated that they did not require the integration of IBM Tivoli Storage Productivity Center (Tivoli Storage Productivity Center) with a directory service. Can the authentication method be changed after the installation of Tivoli Storage Productivity Center V4.1, and if so, where are those settings changed?

- A. No, this can only be configured during the installation.
- B. Yes, the authentication settings can be changed, but should be done in Tivoli Integrated Portal.
- C. Yes, but Tivoli Storage Productivity Center needs to be uninstalled (without dropping the database), and then re-installed, because it can only be configured at installation time.
- D. Yes, in the Tivoli Storage Productivity Center GUI under Administrative Service -> Configuration, there is an LDAP panel to change the authentication method, but Tivoli Storage Productivity Center needs to be restarted.

Answer: B

8. Which protocol is used to discover a CIMOM?

- A. SLP
- B. UDP
- C. TPC
- D. SNMP

Answer: A

9. Which IBM Tivoli Storage Productivity Center GUI tree is the file system scan job creator from?

- A. Disk Manager
- B. Data Manager
- C. Fabric Manager
- D. Data Manager for Chargeback

Answer: B

10. What is the best solution to ensure correlation when using master and subordinate server relationships to generate rollup reports?

- A. If an agent machine is using storage from a subsystem, both the agent and subsystem should be monitored by the same subordinate server.
- B. If an agent machine is using storage from a subsystem, both the agent and subsystem should be monitored by separate subordinate servers.
- C. Each subordinate server should monitor no more than 120 unique data sources. This number includes Data agents, Fabric agents (Inband and Out of Band), CIMOM agents, and VM servers (VMWare).
- D. The master server should monitor no more than 50 unique data sources. This number includes subordinate servers, Data agents, Fabric agents (Inband and Out of Band), CIMOM agents, and VM servers (VMWare).

Answer: A
