000-019: IBM Tivoli Network Manager IP Edition V3.8 Implementation

Practice Exam: 000-019 Exams

Exam Number/Code: 000-019

Exam Name: IBM Tivoli Network Manager IP Edition V3.8 Implementation

Questions and Answers: 137 Q&As

([IBM certifications III](#))

"IBM Tivoli Network Manager IP Edition V3.8 Implementation", also known as 000-019 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 137 Q&As to your 000-019 exam preparation. In the 000-019 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-019](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications III 000-019 (IBM Tivoli Network Manager IP Edition V3.8 Implementation) examination of original title complete coverage. 000-019 exam questions help you pass the exam.

Just4Study 000-019 Feature:

* High quality - High quality and valued for the 000-019 Exam: 100% Guarantee to Pass Your 000-019 exam and get your IBM certifications III certification.

* Authoritative - Authoritative braindumps with complete details about 000-019 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications III resources, you will minimize your **IBM IBM certifications III** cost and be ready to pass your 000-019 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications III demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-019 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-019 Demo Download

Just4Study offers free demo for IBM certifications III 000-019 exam (IBM Tivoli Network Manager IP Edition V3.8 Implementation). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications III 000-019** examination of original title complete coverage. 000-019 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

Exam Name: IBM Tivoli Network Manager IP Edition V3.8 Implementation(IBM certifications III)

Questions and Answers: 137 Q&A

[IBM 000-019](#) Test belongs to one of the IBM certifications III certified test, if needs to obtain the IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications III](#) certified topic, in there, you will see all related IBM certifications III certified subject of examination.

Just4Study professional provide IBM certifications III 000-019 the newest Q&A, completely covers 000-019 test original topic. With our complete IBM certifications III resources, you will minimize your IBM certifications III cost and be ready to pass your 000-019 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-019

Title : IBM Tivoli Network Manager IP Edition V3.8 Implementation

1. Which file needs to be configured to set the precedence of the events sent for Root Cause Analysis?

- A. AmosSchema.cfg
- B. NcoGateInserts.cfg
- C. EntityEventToAlert.rule
- D. SuppressContainedAlerts.rule

Answer: B

2. Click the Exhibit button.

A Network Administrator has configured the Scope.

Which two IP addresses will be deemed in-scope during a discovery of the network? (Choose two.)

- A. 20.20.5.1
- B. 20.20.5.63
- C. 10.10.0.68
- D. 172.168.0.5
- E. 192.168.25.15

Answer: BD

3. Which three items affect the number of IBM Tivoli Network Manager IP Edition domains? (Choose three.)

- A. discovery scheduling
- B. installation username
- C. administrative boundaries
- D. IP address space structure
- E. seeding method for the discovery
- F. estimated number of network entities

Answer: CDF

4. Which browser version is supported when a client operating system is AIX 6.1 and using Web applications of IBM Tivoli Network Manager IP Edition?

- A. Mozilla Firefox 1.5
- B. Mozilla Firefox 2.0
- C. Mozilla Firefox 3.0
- D. Netscape Navigator 8

Answer: A

5. Which Domain name is valid during an installation process?

- A. itnmdomain

- B. itnm-domain
- C. ITNMDOMAIN
- D. ITNM-DOMAIN

Answer: C

6. Which three items add to the normal expected deployment time? (Choose three.)

- A. seeding from a file and ping sweeping
- B. multiple global SNMP community strings
- C. non-contiguous or unmanageable networks
- D. devices outside of the standard device support list
- E. collector-based discovery from external data source
- F. Federal Information Processing Standard compliance

Answer: CDE

7. Which field is required to be set in an event so that the Event Gateway passes it through to IBM Tivoli Network Manager IP Edition for further processing on a default installation?

- A. Node
- B. Severity
- C. AlertKey
- D. LocalNodeAlias

Answer: D

8. In a customer network with the NOC network, three private address spaces behind static Network Address Translation gateways, and four overlapping VPN address spaces, how many installations are required?

- A. 1
- B. 2
- C. 5
- D. 8

Answer: C

9. When defining a new chassis with interfaces and connecting this to an existing entity using the PresetLayer functionality, which three items need to be provided? (Choose three.)

- A. neighbor information
- B. containment information
- C. the ClassName for the new entity
- D. define the agents to run against the device
- E. the SNMP/telnet credentials for the new entity
- F. entity definitions for the chassis and interfaces

Answer: ABF

10. When planning for an IBM Tivoli Network Manager IP Edition deployment, which three factors require a custom installation rather than a default? (Choose three.)

- A. there is a Failover requirement
- B. the requirement to install as a non-root user
- C. firewall ACLs in operation within the managed network
- D. system restrictions preventing the launching of X-windows
- E. the Netcool Common Information Model database type is Oracle
- F. Federal Information Processing Standard compliance is required

Answer: AEF

11. When planning for an IBM Tivoli Network Manager IP Edition deployment, which network consideration requires the segmentation of the network into more than one domain?

- A. overlapping 1-1 NAT address spaces

- B. Multiprotocol Label Switching VPN network operation
- C. overlapping non Network Address Translation (NAT) address spaces
- D. Regional Network Operations Centers performing follow the Sun support in Houston, Paris, and Tokyo

Answer: C

12. Given a customer network with five static Network Address Translation private address space areas of which two overlap, what is the minimum number of IBM Tivoli Network Manager IP Edition installations required?

- A. 1
- B. 2
- C. 3
- D. 5

Answer: A

13. Which two tasks need to be performed to prepare the Collector Framework for discovery? (Choose two.)

- A. start the collector
- B. configure the collector
- C. enable the Collector Stitches
- D. initialize the database connections for seeding
- E. ensure that the ping discovery process is running

Answer: AB

14. Which two generic types of data sources can be used to provide input to the discovery system using the Collector Framework? (Choose two.)

- A. XML
- B. CSV
- C. Java
- D. SNMP
- E. Database

Answer: AB

15. Which script must be run on the Tivoli Integrated Portal server to extract the events from OMNIBus so that data in reports can be viewed?

- A. <Tivoli_Integrated_Portal_install_dir>/products/tcr/bin/configClient.sh
- B. <Tivoli_Integrated_Portal_install_dir>/products/tcr/bin/startTCRserver.sh
- C. <Tivoli_Integrated_Portal_install_dir>/products/tnm/bin/itnm_currentStatus
- D. <Tivoli_Integrated_Portal_install_dir>/products/tnm/bin/itnm_polldata_pruning

Answer: C

16. When planning distributed IBM Tivoli Network Manager IP Edition(Tivoli Network Manager) deployment on a small network, what is the minimum memory requirement for the server where Tivoli Network Manager core components are installed?

- A. 1 GB
- B. 2 GB
- C. 4 GB
- D. 8 GB

Answer: B

17. What is the minimum memory requirement for a server when planning a single server IBM Tivoli Network Manager IP Edition deployment on a small network where all the required components are on the same server?

- A. 1 GB
- B. 2 GB
- C. 4 GB
- D. 8 GB

Answer: C

18. Which IP address must be specified as Network Address Translation (NAT) Gateway when adding a new NAT Gateway in IBM Tivoli Network Manager IP Edition (Tivoli Network Manager)?

- A. Public IP address of NAT Gateway
- B. Private IP address of NAT Gateway
- C. IP address of Tivoli Network Manager Server
- D. Default Gateway IP address of Tivoli Network Manager Server

Answer: A

19. Which three databases are supported by IBM Tivoli Network Manager IP Edition? (Choose three.)

- A. DB2 7.2
- B. DB2 9.1
- C. Oracle 10g
- D. Oracle 11g
- E. MSSQL 2005
- F. Postgres SQL

Answer: BCD

20. A customer has a network with 3,000 devices, and each device has around 100 interfaces spread across the world. The expected growth of the network is 10% every year, that is 300 devices with 100 interfaces.

What is the best type of installation of IBM Tivoli Network Manager IP Edition (Tivoli Network Manager) based on current scenario?

- A. one Tivoli Network Manager server with multiple pollers
- B. two Tivoli Network Manager servers with multiple pollers
- C. one Tivoli Network Manager server without multiple pollers
- D. two Tivoli Network Manager servers without multiple pollers

Answer: A
