

## 000-113 braindumps

### IBM IBM certifications I

**000-113: IBM Storage Solution Design Entry/Midrange DS Series V1**

**Practice Exam:** 000-113 Exams

**Exam Number/Code:** 000-113

**Exam Name:** IBM Storage Solution Design Entry/Midrange DS Series V1

**Questions and Answers:** 172 Q&As

( [IBM certifications I](#) )

"IBM Storage Solution Design Entry/Midrange DS Series V1", also known as 000-113 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 172 Q&As to your 000-113 exam preparation. In the 000-113 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-113](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications I 000-113 (IBM Storage Solution Design Entry/Midrange DS Series V1) examination of original title complete coverage. 000-113 exam questions help you pass the exam.

#### **Just4Study 000-113 Feature:**

\* High quality - High quality and valued for the 000-113 Exam: 100% Guarantee to Pass Your 000-113 exam and get your IBM certifications I certification.

\* Authoritative - Authoritative braindumps with complete details about 000-113 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications I resources, you will minimize your **IBM IBM certifications I** cost and be ready to pass your 000-113 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free IBM certifications I demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-113 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 000-113 Demo Download**

Just4Study offers free demo for IBM certifications I 000-113 exam (IBM Storage Solution Design Entry/Midrange DS Series V1). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications I 000-113** examination of original title complete coverage.000-113 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: 000-113**

Exam Name: IBM Storage Solution Design Entry/Midrange DS Series V1( IBM certifications I )

Questions and Answers: 172 Q&A

[IBM 000-113](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

Just4Study professional provide IBM certifications I 000-113 the newest Q&A, completely covers 000-113 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-113 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-113

Title : IBM Storage Solution Design Entry/Midrange DS Series V1

1. Before recommending an IBM storage array to meet a customer business requirement, you should consider which of the following?

- A. Understand the customers budget
- B. Identify customers IT hardware and application requirements
- C. Identify the customers services requirements
- D. All of the above

Answer: D

2. A customer has ordered a DS4800 with four EXP810s. They will use 48 FC drives and 16 SATA drives. Which configuration allows the DS4800 to optimize its bandwidth?

- A. All SATA drives are placed in one EXP810 as they will run slower.
- B. Each EXP810 is connected to its own redundant drive port pair.
- C. Each EXP810 contains 12 FC drives and 4 SATA drives and connected to different channels.
- D. All FC drives are connected to the first channel on each controller to obtain the lowest drive channel IDs.

Answer: C

3. How many power sources are recommended for proper installation of a DS5000?

- A. One
- B. Two
- C. Three
- D. Four

Answer: B

4. What is one difference between the DS4700 mod 70 and the DS4700 Mod 72?

- A. the mod 72 supports more drives
- B. the mod 72 has more drive ports
- C. the mod 72 has more host ports
- D. the mod 72 can support more partitions

Answer: C

5. A customer has a 42-unit cabinet with two DS5000 dual controller enclosures. What is the maximum number of EXP5000 expansion enclosures that can be hosted in the cabinet?

- A. 10
- B. 11
- C. 12
- D. 13

Answer: B

6. Which is a capability of Enhanced Remote Mirroring (ERM)?

- A. One-to-many copy replication
- B. Replication to a DS3000 storage system
- C. One-to-One copy replication
- D. Multiple consistency groups

Answer: C

7. What type of storage host interface would you recommend for a 4 server, IP video surveillance system.

- A. iSCSI interface with SATA disk
- B. Fibre Channel (FC) interface with Fibre Channel (FC) drives
- C. SAS interface with SAS drives
- D. Fibre Channel (FC) interface with SAS drives

Answer: A

8. Your customer is designing a data warehousing application. They require the highest performance with the highest possible reliability. Cost is not a concern. This customer should use

- A. JBOD
- B. RAID 5
- C. RAID 6
- D. RAID 10

Answer: D

9. One of the benefits of SAS over SCSI drive technology is that\_\_\_\_\_.

- A. SAS uses Loop Topology.
- B. SAS uses Point to Point Topology.
- C. SAS uses single-porting.
- D. SAS can connect up 48 drives.

Answer: B

10. A customer is establishing an exchange configuration. Which is the least important storage metric needed to complete a preliminary storage assessment?

- A. Size of user messaging store
- B. Drive type
- C. Array configuration
- D. Throughput (MB/s) requirements

Answer: D

11. Which is not a reference source for IBM solutions?

- A. Server Proven
- B. RedBooks
- C. Interoperability guides
- D. TCONow

Answer: D

12. A customer has a number of fibre attached DS3000, DS4000, and DS5000 storage arrays that they want to centrally manage, use and share these storage arrays with five clustered POWER 595 servers. What IBM product would provide a fully supported configuration for this functionality?

- A. IBM System Storage SAN18B-R multiprotocol router
- B. IBM System Storage SAN Volume Controller
- C. IBM Remote Support Manager (RSM)
- D. IBM Storage Manager Version 10.10

Answer: B

13. A customer has just purchased a new DS5000 and 16 EXP5000 expansion units. They would like to use the IBM 2101 rack and are concerned with space and power requirements.

What is the minimum number of 2101-200 racks the customer needs, and how many PDU's are required per rack to provide full power redundancy?

- A. 4 2101-200 each containing 2 9188 PDU's and 2 7188 PDU's
- B. 4 2101-200 each containing 2 9188 PDU's
- C. 2 2101-200 each containing 2 9188 PDU's
- D. 2 2101-200 each containing 2 9188 PDU's and 2 7188 PDU's

Answer: C

14. To plan a customer's storage on RAID 5 configurations, which of the following tools would be most appropriate to determine the number of disk drives needed to accommodate the parity and hot spares needed for their storage requirements?

- A. DSA (Dynamic System Analysis) tool
- B. Partition Magic
- C. e-Config tool
- D. Disk Magic

Answer: D

15. Which of the following components of the DS5000 may require firmware updates?

- A. Power supply, interconnect module, and controller
- B. Controller, ESM, and disk drive
- C. ESM, disk drive, and interconnect module
- D. Power supply, disk drive, and ESM

Answer: B

16. A customer has a database application that needs 4TB of table space. The CIO is concerned about performance and reliability for this application. The finance officer says they can only afford a maximum of twenty disk drives to support this application and meet the fiscal budget. The workload will be 4KB random, at a mix of 80/20/50 for read/write/miss ratios, running on their pSeries AIX host. Which offering would be the best fit and meet the customer's budget constraints?

- A. One 8+P RAID 5 array of 750 GB SATA disks
- B. One 10+10 RAID 10 of 500GB SATA disks
- C. Two 8+P RAID 5 arrays of 300GB fibre channel disks
- D. One 18+P RAID 5 array of 300GB fibre channel disks

Answer: C

17. A customer wants to add a backup storage pool with a low duty cycle requirement to their current DS5000 storage. What type of drives are the best choice for price performance?

- A. SATA
- B. SAS
- C. Fibre Channel
- D. SCSI

Answer: A

18. A customer will only lease their storage with 4-year lease agreements, to assure their storage stays current. With a continuous turnover of storage, it is critical to have an easy migration plan. Which of the following configurations would allow for the easiest migrations?

- A. Utilize DS4000 storage and migrate data by moving the EXP boxes to new controllers.
- B. Utilize SVC and disk migration functions to move data.
- C. Use the new disk migration function on DS5000 to move data to a new DS5000

D. Use DS4000 storage and ERM to move data to the new boxes as they come in.

Answer: B

19. What is one difference between the DS3200 and the DS3400?

- A. The DS3400 holds more drives than the DS3200
- B. The DS3200 has a SAS interface and the DS3400 has a fibre channel interface
- C. The DS3200 can be direct attached while the DS3400 cannot
- D. The DS3200 supports SAS drives and the DS3400 supports FC drives

Answer: B

20. A local company has a high performance computing (HPC) application. What storage technology provides the lowest cost per gigabyte?

- A. Fibre Channel
- B. SATA II
- C. SAS
- D. JBOD

Answer: B
