IBM IBM certifications I

000-324: ibm eserver zseries technical.version 1

Practice Exam: 000-324 Exams

Exam Number/Code: 000-324

Exam Name: ibm eserver zseries technical.version 1

Questions and Answers: 174 Q&As

([IBM certifications I](#))

"ibm eserver zseries technical.version 1", also known as 000-324 exam, is a IBM certification. With the complete collection of exam questions,

Exam : [000-324](#)

Just4Study has assembled to take you through 174 Q&As to your 000-324 exam preparation. In the 000-324 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications I 000-324 (ibm eserver zseries technical.version 1) examination of original title complete coverage. 000-324 exam questions help you pass the exam.

Just4Study 000-324 Feature:

* High quality - High quality and valued for the 000-324 Exam: 100% Guarantee to Pass Your 000-324 exam and get your IBM certifications I certification.

* Authoritative - Authoritative braindumps with complete details about 000-324 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications I resources, you will minimize your **IBM IBM certifications I** cost and be ready to pass your 000-324 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-324 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-324 Demo Download

Just4Study offers free demo for IBM certifications I 000-324 exam (ibm eserver zseries technical.version 1). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications I 000-324** examination of original title complete coverage.000-324 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 000-324

Exam Name: ibm eserver zseries technical.version 1(IBM certifications I)

Questions and Answers: 174 Q&A

[IBM 000-324](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

Just4Study professional provide IBM certifications I 000-324 the newest Q&A, completely covers 000-324 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-324 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-324

Title : IBM eserver zseries technical.version 1

1. All of the following apply to z/OS WLM EXCEPT:

- A. It provides programming interfaces that can allow customers to set goals for their transactions.
- B. It provides goal oriented, dynamic resource management and goals are based on business importance.
- C. It simplifies definition, control, and reporting of the performance requirements for z/OS workloads.
- D. It coordinates z/OS images across a sysplex to process work towards multiple goals and shares goals with other products.

Answer: D

2. What is considered to be a traditional mainframe workload?

- A. Servlets, JSPs
- B. Linux workload
- C. CPU intense
- D. Batch and OLTP

Answer: D

3. Which of the following middleware is an important part of the IBM's on demand strategy for the zSeries platform?

- A. Debug tool
- B. WebSphere Application Server (WAS)
- C. Resource Management Facility (RMF)
- D. SA/390

Answer: B

4. The Hardware Configuration Manager (HCM) allows the:

- A. Operations staff to operate the system from a PC.
- B. Operations staff to reconfigure zSeries channel attachments dynamically.
- C. Systems programmer to define the zSeries I/O subsystem via a PC application.
- D. Systems programmer to replace the Hardware Configuration Definition (HCD) function.

Answer: C

5. A customer needs 12 additional FICON channels on a 2084. Six channels are LX, and six are SX. The required FICON is Express2. How many FICON Express feature codes will be required to meet this requirement?

- A. 3, where each FICON Express2 feature code has four FICON channels
- B. 4, two feature codes for LX FICON and two feature codes for SX FICON
- C. 6, three per FICON channel type
- D. 6, where each FICON Express 2 feature code has two FICON channels

Answer: B

6. Which of the following is NOT a Server-to-Server communication method between two physical machines?

- A. InterSystem Channels (ISC)
- B. HiperSockets
- C. Integrated Cluster Bus (ICB) channels
- D. Channel-to-channel (CTC or FCTC) connections

Answer: B

7. Which Crypto feature is required on a z990 to provide both the secure key and the accelerator function?

- A. Crypto Express 2
- B. PCIXCC
- C. PCICA
- D. CPACF

Answer: A

8. z/OS.e runs on which of the following machines?

- A. MP3000
- B. z900 and z990
- C. z800 and z890
- D. All zSeries architecture machines

Answer: C

9. Which of the following is a new function on the z890 that is not available on the z800?

- A. An MCM with 5 processors
- B. Capacity Backup
- C. OSA-Express Integrated Console Controller
- D. HiperSockets

Answer: C

10. Which of the following operating systems is supported on a z990?

- A. z/OS.e 1.6
- B. z/VM 4.4
- C. OS/390 2.8
- D. z/OS 1.1

Answer: B

11. Parallel Sysplex clustering provides which of the following tactical benefits?

- A. It provides near continuous availability.
- B. Applications can be isolated to improve performance.
- C. FICON cabling can improve response times.
- D. Use of channel subsystems is more efficient.

Answer: A

12. Which of the following software products does NOT have an offering to run under Linux?

- A. Oracle
- B. WebSphere
- C. IMS DB
- D. DB2 UDB

Answer: C

13. Which of the following z800 models can be upgraded to a z890 model?

- A. 1C8
- B. 0A2

C. 310

D. 100

Answer: B

14. A performance analysis indicates that a customer's current 2064-2C5 needs more processing power. The MES is being requested based on the analysis to upgrade from a 2C5 to a 2C7 as soon as possible. The customer cannot afford the maintenance window for installation. Which of the following is the preferred action?

A. Ask the customer to schedule the installation when the machine can be stopped.

B. Tune the current machine to improve the performance as much as possible and delay the installation until the machine can be stopped.

C. Persuade the customer to schedule the installation window immediately.

D. Schedule the installation to be performed concurrently.

Answer: D

15. An Internet Service Provider is considering using a z990 for deploying hundreds of Linux systems under z/VM. The zSeries platform would provide the MOST value for this customer in terms of:

A. Processing speed.

B. Response time.

C. Systems management.

D. Memory size.

Answer: C

16. Which of the following I/O Channel Subsystem components would improve the efficiency of TCP/IP?

A. Dynamic Channel Path Management

B. Channel Subsystem Priority Queuing

C. SAPs and EMIF

D. Queued Direct Input/Output

Answer: D

17. Which of the following workloads would NOT be a candidate for a z/OS.e partition?

A. WebSphere for z/OS

B. PL/I Applications

C. SAP

D. Oracle

Answer: B

18. What is the maximum number of zAAP processors that can be installed on a 2084?

A. 16

B. 12

C. 8

D. 0

Answer: A

19. Which of the following is true about IBM's Mainframe Charter?

A. It highlights ways IBM intends to deliver ongoing value for customers using zSeries.

B. It helps customers accelerate their implementation of IBM's on demand business initiatives using the S/390.

C. It is primarily about products and services available for helping customers simplify their IT infrastructure.

D. It is a way to implement Java technologies

Answer: A

20. Which of the following statements applies to a CICS/DB2 workload?

A. It usually runs during off peak time.

B. It is an online workload.

- C. It is a batch workload.
 - D. It does not support data sharing.
- Answer: B
