IBM IBM certifications III

000-330: Power Systems Technical Support for AIX and Linux

Practice Exam: 000-330 Exams

Exam Number/Code: 000-330

Exam Name: Power Systems Technical Support for AIX and Linux

Questions and Answers: 64 Q&As

([IBM certifications III](#))

"Power Systems Technical Support for AIX and Linux", also known as 000-330 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 64 Q&As to your 000-330 exam preparation. In the 000-330 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-330](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications III 000-330 (Power Systems Technical Support for AIX and Linux) examination of original title complete coverage. 000-330 exam questions help you pass the exam.

Just4Study 000-330 Feature:

* High quality - High quality and valued for the 000-330 Exam: 100% Guarantee to Pass Your 000-330 exam and get your IBM certifications III certification.

* Authoritative - Authoritative braindumps with complete details about 000-330 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications III resources, you will minimize your **IBM IBM certifications III** cost and be ready to pass your 000-330 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications III demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-330 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-330 Demo Download

Just4Study offers free demo for IBM certifications III 000-330 exam (Power Systems Technical Support for AIX and Linux). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications III 000-330** examination of original title complete coverage. 000-330 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-330

Exam Name: Power Systems Technical Support for AIX and Linux(IBM certifications III)

Questions and Answers: 64 Q&A

[IBM 000-330](#) Test belongs to one of the IBM certifications III certified test, if needs to obtain the IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications III](#) certified topic, in there, you will see all related IBM certifications III certified subject of examination.

Just4Study professional provide IBM certifications III 000-330 the newest Q&A, completely covers 000-330 test original topic. With our complete IBM certifications III resources, you will minimize your IBM certifications III cost and be ready to pass your 000-330 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-330

Title : Power Systems Technical Support for AIX and Linux

1. A company has a large Oracle ERP application on a 4-core POWER5+ 570 system and is evaluating a new POWER6 system. They estimate growth needs of 15% in processing power and 15% in RAM to cover additional users over the next 1 years. Which of the following will provide room to grow beyond their needs at least cost?

- A. 5-core 570
- B. 8-core 550
- C. 4-core 570
- D. 6-core 550

Answer: D

2. A customer has several partitioned 570s. Their energy costs are very high. They are investigating ways to save energy. Which of the following Power Systems capabilities will reduce energy usage with minimal user interruption?

- A. Dynamic LPAR
- B. Partition Load Manager
- C. Processor Core Nap Mode
- D. Live Partition Mobility

Answer: C

3. A customer is using IVM to manage four partitions on a Power 550. Which statement is true regarding management of I/O resources for each partition?

- A. Virtual disks and tape can be allocated using VIOS.
- B. Virtual disks and Ethernet resources can be allocated.
- C. Virtual disks and tape can be assigned without the use of a VIOS partition.
- D. Virtual disks can be allocated via the VIOS and the Integrated Virtual Ethernet must be used.

Answer: B

4. A customer only has POWER4 p650 servers running LPARs in their environment. They are evaluating a Power 550 to deploy a new application. Which of the following is a unique consideration when integrating the 550?

- A. HMC support
- B. SWMA contracts
- C. Networking protocols
- D. Racking requirements

Answer: A

5. Which of the following is an advantage of POWER5/6 systems capabilities compared to POWER4?

- A. LPAR
- B. WPAR

- C. VIOS
 - D. PHYP
- Answer: C

6. A customer's defective application frequently causes an LPAR to crash due to memory corruption. Which feature of POWER6 and AIX 6.1 can help the application developer resolve this problem?

- A. AIXPert
- B. Trusted AIX
- C. Storage keys
- D. Encrypted file system

Answer: C

7. Power Trending, Power Saver Mode, Power Capping and Nap Mode are part of which of the following?

- A. IBM Service Agent
- B. IBM Energy Star Rating
- C. IBM Performance Toolbox
- D. IBM EnergyScale Technology

Answer: D

8. HP has a product offering called Serviceguard. What is the comparable IBM product for Power systems?

- A. Service Elite
- B. IBM Systems Director
- C. PowerHA Cluster Manager
- D. Flexible Service Processor

Answer: C

9. A customer is considering migrating to a new Power server. Which of the following is required to accurately estimate the server capacity requirements?

- A. User growth rate, processor speed, cache hits
- B. User and data growth rate, current utilization
- C. Current utilization, read/write ratio, I/O wait latency
- D. Data growth rate, network bandwidth capacity, storage capacity

Answer: B

10. What documentation is typically used in the Solution Assurance process?

- A. Essentials guide, order checklist, customer contract
- B. Trigger criteria, product checklist, discussion guide
- C. Maintenance guide, product owners manual, terms reference
- D. Product cookbook, best practices reference, implementation primer

Answer: B
