IBM IBM certifications III

000-432: IBM Tivoli Storage Manager V5.5 Operator

Practice Exam: 000-432 Exams

Exam Number/Code: 000-432

Exam Name: IBM Tivoli Storage Manager V5.5 Operator

Questions and Answers: 124 Q&As

([IBM certifications III](#))

"IBM Tivoli Storage Manager V5.5 Operator", also known as 000-432 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 124 Q&As to your 000-432 exam preparation. In the 000-432 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-432](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications III 000-432 (IBM Tivoli Storage Manager V5.5 Operator) examination of original title complete coverage. 000-432 exam questions help you pass the exam.

Just4Study 000-432 Feature:

* High quality - High quality and valued for the 000-432 Exam: 100% Guarantee to Pass Your 000-432 exam and get your IBM certifications III certification.

* Authoritative - Authoritative braindumps with complete details about 000-432 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications III resources, you will minimize your **IBM IBM certifications III** cost and be ready to pass your 000-432 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications III demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-432 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-432 Demo Download

Just4Study offers free demo for IBM certifications III 000-432 exam (IBM Tivoli Storage Manager V5.5 Operator). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications III 000-432** examination of original title complete coverage. 000-432 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-432

Exam Name: IBM Tivoli Storage Manager V5.5 Operator(IBM certifications III)

Questions and Answers: 124 Q&A

[IBM 000-432](#) Test belongs to one of the IBM certifications III certified test, if needs to obtain the IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications III](#) certified topic, in there, you will see all related IBM certifications III certified subject of examination.

Just4Study professional provide IBM certifications III 000-432 the newest Q&A, completely covers 000-432 test original topic. With our complete IBM certifications III resources, you will minimize your IBM certifications III cost and be ready to pass your 000-432 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-432

Title : IBM Tivoli Storage Manager V5.5 Operator

1. An IBM Tivoli Storage Manager (TSM) tape drive is not mounting tapes.

The operator issues a query drive command for the drive and finds that the drive is online.

What should the operator do next to determine the status of the drive?

- A. ping the drive to see if it responds
- B. issue the audit drive command for the drive
- C. check the Drive Status Panel of TSM Operational Reporting
- D. issue the query path command for the drive to make sure the path is online

Answer: D

2. Why would an operator issue the query mount command?

- A. to determine if a tape has damaged blocks
- B. to determine how much of a tape has been used
- C. to determine the volume serial number of the tape in a drive
- D. to determine how to move a tape and to which tape drive to move it

Answer: C

3. How can the estimated restore time of a clients files be determined?

- A. run the command query restoretime
- B. look at the backup statistics and double the time
- C. click the Estimate function button for restores in the Backup/Archive Client
- D. from the IBM Tivoli Storage Manager Administration Center Client panel, select Restore Estimate feature

Answer: C

4. Some activities are running late, and IBM Tivoli Storage Manager (TSM) server resources are running low.

Which command prevents clients from establishing new workload on the server until the resource constraints are resolved?

- A. halt quiesce
- B. disable sessions
- C. enable events tivoli
- D. disable events tivoli

Answer: B

5. Where can you locate information about all activity occurring on the IBM Tivoli Storage Manager (TSM) server?

- A. activity log
- B. syslog
- C. recovery log

D.server status log

Answer: A

6. What could help performance for a very large file backup?

A.NPBUFfersize

B.COMMTimeout

C.DBPAGEshadow

D.DRIVEAcquireretry

Answer: B

7. While reviewing the Daily Report, you find a scheduled restore job missed the allocated scheduled window.

Which two actions should be taken to determine the cause? (Choose two.)

A.check to see if the file was backed up

B.check to see if the storage pools are full

C.check to see if any scratch tapes are available

D.check to see if the client scheduler service is running on the client

E.check the Activity Log to identify what was happening during the scheduled period

Answer: DE

8. What information is displayed in response to a query mount command?

A.a list of tape drives available for use

B.tape drive and volume serial number

C.a list of volumes awaiting operator intervention

D.a count of tape mount failures in the previous interval

Answer: B

9. What information is displayed by the query process command?

A.an estimated completion time for each process

B.the process numbers of all the processes running on the server

C.the parent process of each process currently running on the server

D.the IBM Tivoli Storage Manager (TSM) administrator who started each process on the server

Answer: B

10. Where are preconfigured warning thresholds displayed within Operational Reporting?

A.Threshold Summary

B.Node Activity Log

C.Issues and Recommendations

D.Activity Log Summary

Answer: C

11. Which command is issued to determine which client backups are running?

A.query node

B.query backups

C.query process

D.query session

Answer: D

12. Which command displays the backup action for the schedule named DBWeekly?

A.query cloptset

B.query node type=client f=d

C.query session format=detail

D.query schedule standard DBWeekly format=detail

Answer: D

13. What should you verify before running the audit library LIB1 checklabel=barcode command on your SCSI tape library?

- A.that library phone home mode has not been enabled
- B.that no processes are running or tapes are currently mounted
- C.that at least one tape drive is available for the audit library to use
- D.that the barcode scanner is working properly from the IBM Tivoli Storage Manager Administration Center

Answer: B

14. Which command provides information and statistics on a storage pool backup including primary pool, bytes backed up, unreadable files, unreadable bytes, and current output volume?

- A.query backup
- B.query process
- C.query clientstatus all
- D.query client node=

Answer: B

15. Which command displays all logged messages from the last 60 minutes on the current day?

- A.query actlog
- B.query actlog search=all
- C.query actlog originator=server
- D.query actlog begindate=-1 begintime=-36

Answer: A

16. Which command is used to determine the status of a scheduled backup?

- A.query event * *
- B.query backup * *
- C.query status * *
- D.query schedule * *

Answer: A

17. In IBM Tivoli Storage Manager (TSM), what information does the query session command provide?

- A.start times for client sessions
- B.clients that are communicating with the TSM server
- C.Client Options that are being used by the TSM server
- D.how much data needs to be backed up to the TSM server

Answer: B

18. How can it be determined which scheduled client backups were missed in the last 24 hours?

- A.issue the command query schedule f=d
- B.select Reporting from the IBM Tivoli Storage Manager menu
- C.select the Client Schedule Status from the Reporting menu
- D.issue the command query event * * begintime=-24

Answer: D

19. What happens when an operator accidentally attempts to check in a tape used for valid data with a status of scratch?

- A.The information on the tape will be overwritten.
- B.The tape is checked in with its status set to private.
- C.The tape is not checked in, and no data are overwritten.
- D.The operation will fail because the Write Protect tab is set.

Answer: C

20. Which statement is true about a scratch volume?

- A.It is not in a storage pool.
- B.It does have its Write Protect tab set.
- C.It does not have its Write Protect tab set.
- D.It has TSM00001 written to the header of block 1.

Answer: A
