

## 000-639 braindumps IBM IBM certifications I

### 000-639: rational unified process

**Practice Exam:** 000-639 Exams

**Exam Number/Code:** 000-639

**Exam Name:** rational unified process

**Questions and Answers:** 48 Q&As

( [IBM certifications I](#) )

Exam : [000-639](#)

"rational unified process", also known as 000-639 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 48 Q&As to your 000-639 exam preparation. In the 000-639 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications I 000-639 (rational unified process) examination of original title complete coverage. 000-639 exam questions help you pass the exam.

#### **Just4Study 000-639 Feature:**

\* High quality - High quality and valued for the 000-639 Exam: 100% Guarantee to Pass Your 000-639 exam and get your IBM certifications I certification.

\* Authoritative - Authoritative braindumps with complete details about 000-639 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications I resources, you will minimize your **IBM IBM certifications I** cost and be ready to pass your 000-639 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free IBM certifications I demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-639 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 000-639 Demo Download**

Just4Study offers free demo for IBM certifications I 000-639 exam (rational unified process). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications I 000-639** examination of original title complete coverage. 000-639 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 000-639**

Exam Name: rational unified process( IBM certifications I )

Questions and Answers: 48 Q&A

[IBM 000-639](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I

certificate, you also need to participate in other related test, the details you may visit the [IBM certifications](#) | certified topic, in there, you will see all related IBM certifications | certified subject of examination.

Just4Study professional provide IBM certifications | 000-639 the newest Q&A, completely covers 000-639 test original topic. With our complete IBM certifications | resources, you will minimize your IBM certifications | cost and be ready to pass your 000-639 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

*Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.*

Exam : IBM 000-639

Title : Rational Unified Process

1. Which one of the following Test artifacts is the step-by-step instructions that realize a test, enabling its execution?

- A. Test Case
- B. Test Class
- C. Test Script
- D. Test Suite

Answer: C

2. What is a model?

- A. An item that is only needed if an OO coding language is used
- B. The semantic equivalent of the software architecture document
- C. A complete yet typically abstract description of a system from a particular perspective
- D. The same thing as a diagram

Answer: C

3. What is an Iteration Workflow?

- A. Some action that a role performs, which provides a meaningful result in the context of the project
- B. A collection of activities within an iteration, which are related to a major "area of concern"
- C. A sequential view of the process, describing a typical workflow within an iteration of a given phase
- D. A cycle of Inception, Elaboration, Construction, Transition

Answer: C

4. Which of the following is true about the generalization relationship?

- A. It is represented by a dashed arrow.
- B. It is represented by a diamond symbol.
- C. It is a special form of aggregation.
- D. It is often called inheritance.

Answer: D

5. Which of the following statements characterize project metrics in Rational Unified Process? (Select all that apply.)

- A. They provide insight into progress and quality.
- B. They are useful in tracking trends in important variables such as rework.
- C. They should not be collected on early iterations.
- D. They must be collected manually to be accurate.
- E. They are the basis for iteration assessment.

Answer: ABE

6. Which of the following help to define the Iteration Plan? (Select all that apply.)

- A. The current status of the project
- B. The Development-Organization Assessment artifact
- C. A list of risks you must address by the end of the iteration
- D. A list of scenarios or use cases you must complete by the end of the iteration

Answer: ACD

7. Which of the following statements are true concerning the Development Case? (Select all that apply.)

- A. You can use it to specify the degree of formality associated with an artifact.
- B. It is fixed during Inception and does not generally change over the course of a project.
- C. You can use it to specify the tools used to produce an artifact.
- D. It tells you which artifacts to produce.

Answer: ACD

8. Which of the following are aspects of software quality in Rational Unified Process? (Select all that apply.)

- A. Functionality
- B. Subsystem Integration
- C. Application Performance
- D. Reliability

Answer: ACD

9. Which of the following are true about a use-case realization? (Select all that apply.)

- A. It may be represented using sequence diagrams.
- B. It identifies what classes will be required to implement some use case behavior.
- C. It may be represented using collaboration diagrams.
- D. It ties together use cases from the use-case model with classes in the design models through realization relationships.

Answer: ABCD

10. Which of the following are purposes of a workflow detail? (Select all that apply.)

- A. To show how activities are performed parallel to each other rather than in sequence or all at once.
- B. To show involved roles, activities, and input and output artifacts
- C. To show groupings of activities that are often performed together
- D. To define all activities that are a part of the project

Answer: ABC

11. Which of the following belong in a typical set of architectural views? (Select all that apply.)

- A. Logical view
- B. Use-case view
- C. Design view
- D. Deployment view
- E. Implementation view

Answer: ABDE

12. In what lifecycle phase is software architecture the primary focus?

- A. Elaboration
- B. Implementation
- C. Design
- D. Transition
- E. Inception

Answer: A

13. What does the term "artifact" indicate in Rational Unified Process?

- A. A unit of work to be performed.

- B. A piece of information that the process produces, modifies, or uses.
- C. A major workflow of Rational Unified Process itself.
- D. The specific job position that must perform the activity.

Answer: B

14. Which of the following can impact the scope of an iteration? (Select all that apply.)

- A. The current phase of the project
- B. Required system functionality
- C. The project's specific objectives
- D. The project's top risks

Answer: ABCD

15. At the end of what phase will you find the Initial Operational Capability (IOC) Milestone?

- A. Implementation
- B. Construction
- C. Transition
- D. Elaboration
- E. Inception

Answer: B

16. Which of the following are evaluation criteria for reaching the Lifecycle Objectives Milestone? (Select all that apply.)

- A. Stakeholders concur on scope definition and cost/schedule estimates
- B. The key approaches to be used in test and evaluation are proven.
- C. There is a shared understanding of the subset of requirements that have been captured so far.
- D. All risks have been identified and a mitigation strategy exists for each.

Answer: ACD

17. When does integration occur in an iterative lifecycle?

- A. In Elaboration, Construction, and Transition iterations, and sometimes in Inception.
- B. Only at the end of Elaboration and Construction.
- C. Only in iterations that produce external releases.
- D. Only at the end of Elaboration, Construction, and Transition.

Answer: A

18. Which of the following are software engineering best practices recommended by Rational Unified Process? (Select all that apply.)

- A. Develop iteratively.
- B. Use component architectures.
- C. Manage change.
- D. Maximize reuse.
- E. Freeze requirements at project inception.

Answer: ABC

19. Which of the following statements characterize a class diagram? (Select all that apply.)

- A. It can be drawn using UML notation.
- B. It shows a sequence of interactions between classes.
- C. It can be used to represent information within the logical and process views.
- D. It can provide a view of high-level packages or the details of a single package.
- E. It shows the states and transitions of a class.

Answer: ACD

20. What role is typically responsible for the Risk List artifact?

- A. Project Reviewer
- B. Configuration Manager
- C. Process Engineer
- D. Project Manager

Answer: D
