000-642: rational xde tester

Practice Exam: 000-642 Exams

Exam Number/Code: 000-642

Exam Name: rational xde tester

Questions and Answers: 50 Q&As

([IBM certifications II](#))

"rational xde tester", also known as 000-642 exam, is a IBM certification.

Exam : [000-642](#)

With the complete collection of exam questions, Just4Study has assembled to take you through 50 Q&As to your 000-642 exam preparation. In the 000-642 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications II 000-642 (rational xde tester) examination of original title complete coverage. 000-642 exam questions help you pass the exam.

Just4Study 000-642 Feature:

* High quality - High quality and valued for the 000-642 Exam: 100% Guarantee to Pass Your 000-642 exam and get your IBM certifications II certification.

* Authoritative - Authoritative braindumps with complete details about 000-642 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications II resources, you will minimize your **IBM IBM certifications II** cost and be ready to pass your 000-642 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications II demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-642 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-642 Demo Download

Just4Study offers free demo for IBM certifications II 000-642 exam (rational xde tester). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications II 000-642** examination of original title complete coverage. 000-642 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-642

Exam Name: rational xde tester(IBM certifications II)

Questions and Answers: 50 Q&A

[IBM 000-642](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II

certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

Just4Study professional provide IBM certifications II 000-642 the newest Q&A, completely covers 000-642 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-642 tests on Your First Try, 100% Money Back Guarantee included!

Exam : IBM 000-642

Title : Rational Xde Tester

1. You are playing back a script for regression testing. Which of the following are true statements? (Select all that apply.)

- A. You are setting the baseline for expected behavior of the application-under-test.
- B. You are developing your script to work with the application-under-test.
- C. You do not need to make sure the test environment is in the correct state.
- D. You may need to revise the script to bring it up-to-date with the application-under-test.
- E. You are playing back a script against a new build of the application-under-test.

Answer: DE

2. What main categories of statements are included in an XDE Tester script? (Select all that apply.)

- A. Method calls on test objects
- B. Java code added to the application-under-test
- C. Verification points
- D. Methods inherited from RationalTestScript
- E. Java code added to the script that was not part of the recording process
- F. Methods inherited from XDE Tester Script
- G. Methods inherited from the application-under-test

Answer: ACDE

3. Which of the following statements describe test object maps? (Select all that apply.)

- A. They require manual maintenance for each test object.
- B. Scripts are associated with them.
- C. They contain properties for each test object.
- D. They reduce the need for script maintenance.
- E. They are automatically synchronized with the application-under-test.
- F. They are not visible within the XDE Tester user interface.

Answer: BCD

4. How can the logging options in XDE Tester be accessed? (Select all that apply.)

- A. On the Window menu, click Preferences > Playback > Logging .
- B. On the Configure menu, click Preferences > Playback > Logging .
- C. On the Navigate menu, click Go To > Logging Options .
- D. On the Window menu, click Show View > Rational XDE Tester > Logging .
- E. On the Window menu, click Preferences > Rational XDE Tester > Logging .
- F. On the Configure menu, click Preferences> Rational XDE Tester > Logging .

Answer: EF

5. Which of the following are true about the XDE Tester datastore? (Select all that apply.)

- A. It must be created before recording scripts.
- B. It can be associated with multiple projects at the same time.
- C. It can be used without a project.
- D. It must be created after creating the project.
- E. It must be associated with a project.

Answer: AC

6. You are using the Verification Point and Action Wizard. What are the two steps to record a verification point?

- A. Select an object to test and click on the end verification point button.
- B. Select the object map and select an action to perform on the object.
- C. Select an object to test and select an action to perform on the object.
- D. Navigate to the desired object and insert the object in the object map.
- E. Navigate to the object map and select an object from the map.

Answer: C

7. Why would you use regular expressions?

- A. To create status reports on generic test objects
- B. To create an external data file for a data-driven test
- C. To make the tests pass within "closeness" boundaries
- D. To make the tests log an object recognition failure
- E. To make the tests pass every time for all boundaries
- F. To create maintainable code in the application-under-test

Answer: C

8. How can an application be configured for testing? (Select all that apply.)

- A. Before recording, start the XDE Tester Application Configuration Tool, and add the application.
- B. Start recording, click Start Application in the Recording Monitor, click Edit , and add the application to be configured.
- C. Configure the object map to recognize the application-under-test.
- D. Change the Windows Preferences to automatically detect the application for testing.

Answer: AB

9. In which programming language does XDE Tester generate a script when recording is stopped?

- A. JavaScript
- B. SQABasic
- C. Ada
- D. C++
- E. Java
- F. C

Answer: E

10. You are using the Verification Point and Action Wizard. Why would a wait state be set on an object? (Select all that apply.)

- A. To set the exact amount of time that it will take for the test to execute
- B. To make all tests run in the same amount of time
- C. To make sure the system clock has the correct time
- D. To synchronize the script and the application-under-test
- E. To allow time for the object to be displayed

Answer: DE

11. How do you display a message box during script playback?

- A. Develop the script by importing the JOptionPane class and adding Java code for a message box.

- B. Record the script and add one line to import the JOptionPane class.
- C. Develop the script using the message box wizard and manually import the JOptionPane class.
- D. Record the script, use the message box wizard, and add the line to import the JOptionPane class.
- E. Develop the script using the message box wizard and then automatically import the JOptionPane class.

Answer: A

12. What is a shared test object map used for?

- A. To debug troublesome test objects
- B. To create a decentralized object map
- C. To specify a public object class
- D. To use the objects with multiple scripts
- E. To optimize test execution runs

Answer: D

13. What script-editing feature offers auto-completion of code fragments as you type?

- A. Syntax highlighting
- B. Code formatting
- C. Text hover
- D. Show source
- E. Content assist
- F. Import assistance

Answer: E

14. How can the test perspective be opened? (Select all that apply.)

- A. Click the Test Perspective button.
- B. On the Window menu, click Open Perspective > Test .
- C. Click the Open a Perspective button and select Test .
- D. Start XDE Tester and the test perspective is always opened by default.
