

000-705 braindumps IBM IBM certifications II

000-705: business intelligence solutions v8.1

Practice Exam: 000-705 Exams

Exam Number/Code: 000-705

Exam Name: business intelligence solutions v8.1

Questions and Answers: 112 Q&As

([IBM certifications II](#))

"business intelligence solutions v8.1", also known as 000-705 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 112 Q&As to your 000-705 exam preparation. In the 000-705 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-705](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications II 000-705 (business intelligence solutions v8.1) examination of original title complete coverage. 000-705 exam questions help you pass the exam.

Just4Study 000-705 Feature:

* High quality - High quality and valued for the 000-705 Exam: 100% Guarantee to Pass Your 000-705 exam and get your IBM certifications II certification.

* Authoritative - Authoritative braindumps with complete details about 000-705 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications II resources, you will minimize your **IBM IBM certifications II** cost and be ready to pass your 000-705 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications II demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-705 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-705 Demo Download

Just4Study offers free demo for IBM certifications II 000-705 exam (business intelligence solutions v8.1). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications II 000-705** examination of original title complete coverage. 000-705 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-705

Exam Name: business intelligence solutions v8.1(IBM certifications II)

Questions and Answers: 112 Q&A

[IBM 000-705](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II

certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

Just4Study professional provide IBM certifications II 000-705 the newest Q&A, completely covers 000-705 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-705 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Exam : IBM 000-705

Title : Business Intelligence Solutions V8.1

1. Given time series information, what is the BEST statistical technique used to forecast the next six months?

- A. Trend analysis
- B. Cluster analysis
- C. Association analysis
- D. Multidimensional analysis

Answer: A

2. Which of the following is the most appropriate element of Business Intelligence architecture to discuss with end users?

- A. Metadata design
- B. Data warehouse design
- C. Visualization requirements
- D. Data propagation methodology

Answer: C

3. Which of the following would a business user consider to be the most important difference between DB2 OLAP and ROLAP offerings?

- A. DB2 SQL offers ROLAP features
- B. DB2 OLAP uses a special filing system
- C. DB2 OLAP has a large number of applications which can use it
- D. A DB2 OLAP system normally produces much faster speed of query response

Answer: D

4. A company mails highly detailed reports to remote users. This level of detail is only required occasionally, but is sometimes critical. Which of the following would be a flexible method for addressing this problem?

- A. Provide summarized reports downloaded using FTP
- B. Create summarized and detailed templates distributed via e-mail
- C. Invite collaborative input of remote users incorporating Domino
- D. Implement a web-based reporting tool with drill down capabilities

Answer: D

5. Which of the following metadata approaches facilitates the integration of tools from multiple vendors with the most flexibility?

- A. Centralized API approach
- B. Decentralized API approach
- C. Centralized or repository approach
- D. Decentralized or interchange approach

Answer: D

6. Which of the following is the most important factor when defining an OLAP cube?

- A. Number of measures
- B. Number of dimensions
- C. Number of source data transactions
- D. Number of referential integrity constraints

Answer: B

7. Which of the following ideally determines when a data warehouse is scheduled to be updated?

- A. Calendar events
- B. System requirements
- C. Business requirements
- D. Volatility of operational data store

Answer: C

8. In a large warehouse environment, what method or mechanism is often used to minimize the effect of on-line disk failure?

- A. Striping
- B. Blocking
- C. Mirroring
- D. Double buffering

Answer: C

9. Which of the following is a key benefit of storing attribute definitions as metadata?

- A. Reduces overall storage requirements
- B. Significantly enhances load time performance
- C. Allows for bi-directional update of operational data
- D. Allows data load rules to be shared across multiple tools

Answer: D

10. Which method should be used to decompose a free form product code that contains both size and color information?

- A. Parsing
- B. Mapping
- C. Using foreign keys
- D. Defining an intelligent primary key

Answer: A

11. A client has an application that was written in-house. What is the most important factor when defining the mapping for data extraction?

- A. The layout and format of the data
- B. The source system network connectivity
- C. The OLAP tools used to access the extracted data
- D. The source system application programming language

Answer: A

12. A company has recently implemented a data warehouse which consolidates data from multiple branch offices. What benefit can be realized?

- A. Eliminates the need for a datamart
- B. Facilitates the correction of errors at the branch office
- C. Eliminates the need for branch operational system reports
- D. Provides a consistent corporate view of business information

Answer: D

13. Which of the following is a data cleansing process?

- A. Summarizing data
- B. Building dimensions
- C. Extracting only valid data
- D. Checking referential integrity

Answer: D

14. A company's current reports are highly detailed in nature but are not meeting the needs of the end users. Which of the following would be the most flexible method for addressing this problem?

- A. Form a user group to determine which reports are no longer necessary
- B. Implement a web-based service to deliver additional summarized reports
- C. Hire business specialist consultants to produce industry standard reports
- D. Implement a front-end tool which allows users to create their own summarized reports

Answer: D

15. An international marketing executive uses an OLAP query which displays sales information by country. What is the OLAP feature that would allow the executive to breakdown the sales by city?

- A. Pivot
- B. Roll up
- C. Drill down
- D. Dynamic calculation

Answer: C

16. A company currently provides hard copy reports to individual end users. How could a Business Intelligence solution satisfy the changing analysis requirements within the end user community?

- A. By allowing end users to define their own metadata
- B. By providing the current reports in softcopy format
- C. By redesigning the report template for each end user
- D. By allowing end users the flexibility to create their own reports

Answer: D

17. A retail chain would like to do more accurate sales projections based on its large volumes of historical sales data. It has tracked store sales, but would like to identify sales patterns and buying characteristics. Which IBM Business Intelligence product is best suited for this analysis?

- A. DB2 OLAP Server
- B. DB2 XML Extender
- C. DB2 Spatial Extender
- D. DB2 Intelligent Miner

Answer: D

18. Which of the following is the primary METADATA task of a data modeling tool?

- A. Maintain entity relationships
- B. Maintain scheduling information
- C. Maintain data definition language (DDL)
- D. Maintain metadata Interchange Language (MIL)

Answer: A

19. Given a Business Intelligence solution that measures near real-time business performance and the need to notify users when a critical metric exceeds a business threshold, the most appropriate technique is _____ .

- A. push messaging
- B. on-demand notification

- C. frequent text report generation
 - D. triggers that immediately update warehouse tables
- Answer: A

20. A production system generates in excess of one million transactions per day. Which method would normally be used to manage the movement of this data to the warehouse on an hourly basis?

- A. Perform full data refresh
- B. Apply the net changes in the data
- C. Append the summary data to the target
- D. Create a mirror image of the operational tables on another system

Answer: B
