IBM IBM certifications I

000-717: IBM U2 UniData V7.1 Administration

Practice Exam: 000-717 Exams

Exam Number/Code: 000-717

Exam Name: IBM U2 UniData V7.1 Administration

Questions and Answers: 120 Q&As

([IBM certifications I](#))

"IBM U2 UniData V7.1 Administration", also known as 000-717 exam, is a IBM certification. With the complete collection of exam questions,

Exam : [000-717](#)

Just4Study has assembled to take you through 120 Q&As to your 000-717 exam preparation. In the 000-717 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications I 000-717 (IBM U2 UniData V7.1 Administration) examination of original title complete coverage. 000-717 exam questions help you pass the exam.

Just4Study 000-717 Feature:

* High quality - High quality and valued for the 000-717 Exam: 100% Guarantee to Pass Your 000-717 exam and get your IBM certifications I certification.

* Authoritative - Authoritative braindumps with complete details about 000-717 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications I resources, you will minimize your **IBM IBM certifications I** cost and be ready to pass your 000-717 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-717 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-717 Demo Download

Just4Study offers free demo for IBM certifications I 000-717 exam (IBM U2 UniData V7.1 Administration). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **IBM IBM certifications I 000-717** examination of original title complete coverage. 000-717 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 000-717

Exam Name: IBM U2 UniData V7.1 Administration(IBM certifications I)

Questions and Answers: 120 Q&A

[IBM 000-717](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

Just4Study professional provide IBM certifications I 000-717 the newest Q&A, completely covers 000-717 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-717 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-717

Title : IBM U2 UniData V7.1 Administration

1. To test a Visual Schema Generator (VSG) connection, a database name can be used that is defined in which file?

- A. vsg_config
- B. udt_data
- C. vsg_connect
- D. ud_database

Answer: D

2. When using the XML/DB Tool, if a DTD or XML Schema file does not already exist, you must create it. Which two can be used to create DTD or XML Schema files? (Choose two.)

- A. UniData SQL
- B. UDODBC
- C. UniAdmin
- D. UniQuery
- E. UniDK

Answer: AD

3. After preparing the UniData database account for access through UniData ODBC, JDBC, and UniOLEDB, which method should you use to confirm connectivity from a Windows client?

- A. Execute a telnet connection to the UniData server and successfully login to the server.
- B. From the Windows command prompt run a ping command to verify the server IP address.
- C. Use VSG to connect to the UniData server/database account.
- D. Run a CONNECT command from the Basic Call Interface (BCI).

Answer: C

4. During the execution of a UniQuery statement, the following error message is displayed:

"Virtual field too big"

Which step should you take to eliminate this error?

- A. Run the ECL command "UDT.OPTIONS 94 ON" to enable the U_PRIME_LIKE flag.
- B. Increase the udtconfig parameter SHM_GPAGESZ.
- C. Increase the UNIX kernel setting that determines the maximum size of a shared memory segment.
- D. Increase the value of the environment variable VFIELDSIZE.

Answer: D

5. Which UniData configuration variable can administrators use to prohibit updates to the VOC file of any account?

- A. VOC_READONLY
- B. VOC_RESTRICT

- C. VOC_NOUPDATE
- D. VOC_NOWRITE

Answer: A

6. You are unable to launch a new udt session in your application account. The following message is displayed:
"No more LCTs"

Which udtconfig parameter do you need to increase to correct this problem?

- A. SHM_LCINENTS
- B. NUSERS
- C. SHM_MAX_LCTS
- D. LCT_NUM

Answer: B

7. Which file will users require read and write permissions for both UNIX and Windows?

- A. ACCOUNT DIRECTORY
- B. VOC
- C. BP
- D. CTLG

Answer: B

8. You want to ensure that the user will not get to the ECL prompt if the application aborts. Which command will allow you to specify a program to execute when an abort occurs?

- A. AT.ABORT
- B. ON.ABORT
- C. ON.ERROR
- D. AT.ERROR

Answer: B

9. Using the UniAdmin Generate Certificate Request wizard, what are the correct steps for generating an SSL certificate request?

- A. Request Properties > Key Pairs Selections > Key File > Password > Finish.
- B. Request File Name > Request Properties > Key File Indexes > Key File > Password > Finish.
- C. Request File Name > Request Properties > Key Pairs Selections > Key File > Password > Finish.
- D. Request Properties > Request File Name > Key Pairs Selections > Password > Finish.

Answer: C

10. Which mechanism controls which U2 accounts are seen on the XML/DB Tool once connected to a server?

- A. filter in XML/DB Tool
- B. permissions on the client
- C. permissions on XML/DB Tool
- D. SQL catalog

Answer: A

11. You are running the UniData database with the Recoverable File System (RFS) enabled. The database crashed. Your assistant has unsuccessfully attempted to re-start the database three times. Which file can you now review to view the RFS errors logged by the initial crash?

- A. UDTBIN/sm.log.bck
- B. UDTBIN/back/sm.log
- C. UDTBIN/saved/sm.log
- D. UDTBIN/saved_logs/sm.log

Answer: D

12. You want to restrict the use of some UniData ECL commands to users that have administrator privileges. You

have set UDT.OPTIONS 19 to "ON". Which action is needed to restrict the ECL commands to administrator users?

- A. Delete the catalog pointer for the command you want to restrict.
- B. Make the VOC read only.
- C. Delete the command you want to restrict.
- D. Add an entry in the privilege file.

Answer: C

13. Which statement describes the primary purpose of Visual Schema Generator (VSG)?

- A. Establish network connectivity using Transmission Control Protocol/Internet Protocol (TCP/IP) to a UniData Server.
- B. Interact with Microsoft Structured Query Language (SQL) Server relational database management system (RDBMS).
- C. Map UniData nested relational data to adhere to Open Database Connectivity (ODBC) / Structured Query Language (SQL) rules.
- D. Provide an interface to a UniData database through a Microsoft .NET framework.

Answer: C

14. Your developers have modified a globally cataloged UniBasic program named FM100 and asked you to activate the new version. Which command should you run to determine if any active udt process is currently using this program?

- A. "sbcprogs | grep FM100"
- B. "ls -l \$UDTHOME/sys/CTLG/f | grep FM100"
- C. "AE CTLG FM100"
- D. "AE CTLGTB FM100"

Answer: A

15. Which two statements are true when installing VSG? (Choose two.)

- A. The default directory is C:IBMUniDKV\sg.
- B. A valid data source can be UD, UNIDATA, or the IP address.
- C. The default program folder is IBM U2UniData Visual Schema Generator.
- D. You must restart immediately after installation.
- E. UniData must be stopped.

Answer: AC

16. After completing UNIX system and database maintenance and tuning, "startud" fails. You find the error "smm can't get the first GSM". Which change can you make to allow UniData to start?

- A. Increase the kernel parameter that governs the system-wide maximum number of shared memory segments.
- B. Increase the kernel parameter that governs the maximum number of shared memory segments that a single process can attach.
- C. Increase the kernel parameter that governs the system-wide maximum number of semaphores.
- D. Increase the kernel parameter that governs the maximum size of a shared memory segment.

Answer: D

17. While reviewing the smm.errlog on your UNIX system, you see the following text:

"Wed Aug 2 15:44:07 Error when receiving message in SMM, errno=36"

How would you find out more information about "errno=36"?

- A. Run the ECL command "AE ERRMSG 36".
- B. Run the ECL command "ESEARCH ERRMSG"; enter "errno=36" at the STRING: prompt.
- C. Run the shell-level command "grep 36 \$UDTHOME/sys/ERRMSG".
- D. Run the shell-level command "grep 36 /usr/include/sys/errno.h".

Answer: D

18. Within VSG, how would you activate logging?

- A. Click Tools > Options > Settings, and then you choose the log files and number of views.

- B. Click Options > Settings, and then choose the number of entries you wish retain.
- C. Click Options > Settings, and then choose the log files and number of views.
- D. Click Tools > Options, and then choose the number of entries you wish to retain.

Answer: C

19. Your UniData system is configured with the Recoverable File System (RFS) and Archiving enabled. Multiple users contact you, indicating that their application processes are hung. You suspect a potential problem with archive off-loading. Which file can you check to confirm if this is the problem?

- A. sm.log
- B. sm.errlog
- C. smm.log
- D. smm.errlog

Answer: A

20. Two users have access to ECL in the same UniData account. At the ECL prompt, each user enters: ORDER.ENTRY.MAIN (followed by "enter"). For User A, the UniBasic Order Entry program is launched. For User B, control is returned to ECL after displaying the following message:

"Not a verb

ORDER.ENTRY.MAIN"

What would account for this different result?

- A. The environment variable UDTBIN is defined differently for each user.
- B. The environment variable CTLGTB is defined differently for each user.
- C. The environment variable VOC_READONLY is defined differently for each user.
- D. The environment variable UDTHOME is defined differently for each user.

Answer: D
