Exam : [000-904](#)

"IBM Tivoli Storage Manager v5.3&v5.4 Operator", also known as 000-904 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 102 Q&As to your 000-904 exam preparation. In the 000-904 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications II 000-904 (IBM Tivoli Storage Manager v5.3&v5.4 Operator) examination of original title complete coverage. 000-904 exam questions help you pass the exam.

Just4Study 000-904 Feature:

* High quality - High quality and valued for the 000-904 Exam: 100% Guarantee to Pass Your 000-904 exam and get your IBM certifications II certification.

* Authoritative - Authoritative braindumps with complete details about 000-904 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications II resources, you will minimize your **IBM IBM certifications II** cost and be ready to pass your 000-904 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications II demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-904 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-904 Demo Download

Just4Study offers free demo for IBM certifications II 000-904 exam (IBM Tivoli Storage Manager v5.3&v5.4 Operator). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications II 000-904** examination of original title complete coverage.000-904 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 000-904

Exam Name: IBM Tivoli Storage Manager v5.3&v5.4 Operator(IBM certifications II)

Questions and Answers: 102 Q&A

[IBM 000-904](#) Test belongs to one of the IBM certifications II certified test, if needs to obtain the IBM certifications II certificate, you also need to participate in other related test, the details you may visit the [IBM certifications II](#) certified topic, in there, you will see all related IBM certifications II certified subject of examination.

Just4Study professional provide IBM certifications II 000-904 the newest Q&A, completely covers 000-904 test original topic. With our complete IBM certifications II resources, you will minimize your IBM certifications II cost and be ready to pass your 000-904 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Exam : IBM 000-904

Title : IBM Tivoli Storage Manager v5.3&v5.4 Operator

1. A client backup request is not working. What is the first step an operator should take to attempt to restore functionality?

- A. verify the client has the Client Java Backup GUI installed
- B. ping the node from the IBM Tivoli Storage Manager Administrative command line
- C. query the node to verify communications between the client and server with query node <nodename>
- D. verify that the node is defined and if it is not, query the Activity Log to determine who deleted it and at what time

Answer: D

2. What should be included with the Disaster Recovery tapes that go off-site?

- A. a full database backup
- B. a full Recovery Log backup
- C. a journal-based database backup
- D. a journal-based Recovery Log backup

Answer: A

3. What does the client option set provide?

- A. a centralized set of client options
- B. a method to update the client's dsm.opt file
- C. a method to make a clients backup portable
- D. IBM Tivoli Storage Manager parameters for windows-based clients

Answer: A

4. Click the Exhibit button.

The information displayed in the exhibit is the output of which command?

- A. query path
- B. query mount
- C. query drive
- D. query active

Answer: C

5. Which command does an operator use to determine the privilege class of an administrator?

- A. query content
- B. query association
- C. query admin <admin_name>
- D. query privilege <admin_name>

Answer: C

6. Which client option is required in order for the Backup/Archive client to communicate with the IBM Tivoli Storage Manager server?

- A. nodename
- B. servername
- C. passwordaccess generate
- D. communicationmethod TCP/IP

Answer: B

7. Which command displays the backup action for the schedule named DBWeekly?

- A. query cloptset
- B. query node type=client f=d
- C. query session <sessnum> format=detail
- D. query schedule standard DBWeekly format=detail

Answer: D

8. You have twelve tape drives available to be used in a restore, but a client is only using two. What should you check?

- A. the streams setting in the dsm.opt
- B. the adaptivesubfile setting in the dsm.opt
- C. the resourceutilization setting in the dsm.opt
- D. dynamicdataconsolidation setting in the dsm.opt

Answer: C

9. How can you monitor a client backup session?

- A. issue a query process command and search for your backup target nodename
- B. issue the command query session nodename=<client_nodename> format=detail
- C. issue a query stgpool pooltype=primary command on a regular basis and note the Pct Util value
- D. issue the command query session on a regular basis and note the status of the session where the Client Name matches your target

Answer: D

10. What could help performance for a very large file backup?

- A. NPBUFfersize
- B. COMMTimeout
- C. DBPAGEshadow
- D. DRIVEAquireretry

Answer: B

11. How do you mark disaster recovery media for off-site movement?

- A. move the media readwrite access control pin to Protected
- B. issue the command move drmedia <volume_name> tostata=vault
- C. issue the command update volume <volum_name> access=offsite
- D. issue the command move libvolume <library_name> <volume_name>

Answer: B

12. A check-in command has been issued to add volumes to the library. A request has been generated. Which command allows the operator to respond?

- A. reply
- B. prompt
- C. answer
- D. respond

Answer: A

13. Which category of files does the default backup/archive client GUI restore display?

- A. only inactive files
- B. only active backup files
- C. only incremental backup files
- D. active and inactive backup files

Answer: B

14. While reviewing the Daily Report, you find a schedule restore job missed the schedule time allocated. Which two actions should you take to determine the cause? (Choose two.)

- A. check to see if the file was backed up
- B. check to see if the storage pools are full
- C. check to see if any scratch tapes are available
- D. check to see if the Client Scheduler Service is running on the client
- E. check the Activity Log to identify what happened during the scheduled period

Answer: DE

15. In IBM Tivoli Storage Manager (TSM), where can errors that occurred during a scheduled backup be found? (Choose two.)

- A. the Activity Log
- B. the Client Error Log
- C. the Client Statistics Log
- D. the TSM Server System Log
- E. the Backup Summary panel of the TSM Administration Center

Answer: AB

16. An IBM Tivoli Storage Manager operator receives a request for a file that was archived. Which function should be used to obtain the file?

- A. Recall
- B. Restore
- C. Retrieve
- D. Automated System Restore (ASR)

Answer: C

17. Tape processing has stalled due to lack of scratch tapes. Which action needs to be taken?

- A. run migration on the tape storage pool
- B. run compression on the tape storage pool
- C. move available backups to the active pool
- D. check in a set of empty tapes to the library

Answer: D

18. Click the Exhibit button.

The exhibit shows the IBM Tivoli Storage Manager (TSM) Administration Center.

From which three TSM Administration Center menus is the Use Command Line option available? (Choose three.)

- A. Reporting
- B. Getting Started
- C. Storage Devices
- D. Console Settings
- E. Server Maintenance
- F. Policy Domains and Client Nodes

Answer: CEF

19. An operator notes that a tape is stuck in a tape drive. The operator opens the door to the library and puts the tape

in the first available open slot and closes the door. What are the consequences?

- A. An audit volume will need to be run on the volume in question to ensure that the IBM Tivoli Storage Manager (TSM) knows the proper slot for the volume.
- B. An audit will need to be run on the library to align the TSM database locations with the locations of the actual tapes.
- C. All the tapes will need to be removed from the library and checked back in to make sure they are all in the right slots.
- D. The library should work without the need for additional action since it will do an audit of all the volumes when the door closes.

Answer: B

20. Which command is used to remove tapes from a library?

- A. remove libvol
- B. remove volume
- C. checkout libvol
- D. checkout volume

Answer: C
