IBM IBM certifications III

000-962: Storage Sales for HighEnd Tape Version 1

Practice Exam: 000-962 Exams

Exam Number/Code: 000-962

Exam Name: Storage Sales for HighEnd Tape Version 1

Questions and Answers: 105 Q&As

([IBM certifications III](#))

"Storage Sales for HighEnd Tape Version 1", also known as 000-962 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 105 Q&As to your 000-962 exam preparation. In the 000-962 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-962](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications III 000-962 (Storage Sales for HighEnd Tape Version 1) examination of original title complete coverage. 000-962 exam questions help you pass the exam.

Just4Study 000-962 Feature:

* High quality - High quality and valued for the 000-962 Exam: 100% Guarantee to Pass Your 000-962 exam and get your IBM certifications III certification.

* Authoritative - Authoritative braindumps with complete details about 000-962 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications III resources, you will minimize your **IBM IBM certifications III** cost and be ready to pass your 000-962 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications III demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-962 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-962 Demo Download

Just4Study offers free demo for IBM certifications III 000-962 exam (Storage Sales for HighEnd Tape Version 1). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications III 000-962** examination of original title complete coverage.000-962 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 000-962

Exam Name: Storage Sales for HighEnd Tape Version 1(IBM certifications III)

Questions and Answers: 105 Q&A

[IBM 000-962](#) Test belongs to one of the IBM certifications III certified test, if needs to obtain the IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications III](#) certified topic, in there, you will see all related IBM certifications III certified subject of examination.

Just4Study professional provide IBM certifications III 000-962 the newest Q&A, completely covers 000-962 test original topic. Exam : IBM 000-962

Title : Storage Sales for High-End Tape Version 1

1. What should an IBM sales representative use to define the value of IBM to the client?

- A. company financial report
- B. industry-leading channel programs
- C. IBM brand recognition and reputation
- D. integrated solutions and breadth of product line

Answer: D

2. Which tape assessment tool requires minimal information from the customer?

- A. zTPM
- B. Tape Magic
- C. Batch Magic
- D. Capacity Magic

Answer: B

3. A customer has been told that the order has left the plant. The customer wants to know when the order is scheduled to arrive on site.

Which term does IBM use to indicate this date?

- A. CRAD
- B. PSSD
- C. RSSD
- D. CAD

Answer: D

4. A mainframe customer wants the highest level of availability, serviceability, and performance for a tape subsystem. Which solution meets the customer's needs?

- A. TS7520
- B. TS1120 with TS3310
- C. TS7700 with TS3500 and TS1120
- D. TS3500 HA with 3592-C06 and TS1120

Answer: D

5. What is the Recovery Point Objective (RPO)?

- A. the amount of data lost at the primary site
- B. the business need for doing point in time data copies
- C. the difference between the primary and disaster recovery data sets
- D. the time it takes to recover the primary data at the disaster recovery site

Answer: C

6. A salesperson is visiting a customer who has never worked with IBM tape storage. During the first meeting, the salesperson introduces the IBM TS7700 as a potential solution.

How would the salesperson convince the customer during this meeting that the TS7700 is a viable solution?

- A.with the offer of a trial
- B.with IBM Product Roadmaps
- C.with customer success stories
- D.with tools like Tape Magic and Batch Magic

Answer: C

7. An IBM storage sales representative is talking with a customer about requirements for a new tape subsystem.

What is the most important question for the sales representative to ask?

- A.How much money is in the budget?
- B.What is driving the need for a new enterprise tape sub-system?
- C.Which tape storage does the customer currently have implemented?
- D.Which server platform will be attached to the new tape sub-system?

Answer: B

8. A customer can afford to be down for a day, should a disaster occur. The customer is looking for the lowest-cost solution for disaster recovery.

Which solution meets these requirements?

- A.use a VTS in the primary site to LTO in the disaster recovery site
- B.use a VTS in the primary site to Magstar in the disaster recovery site
- C.use Peer-to-Peer between two TS7700 tape storage servers in the disaster recovery site
- D.use tape cartridges between two TS3500 tape storage libraries in the disaster recovery site

Answer: D

9. A customer is concerned about the risk of an extended data center outage and the need to continue operations during the outage.

Which type of solution addresses this concern?

- A.tape backup
- B.high availability
- C.disaster recovery
- D.local off-site tape facility

Answer: C

10. A customer has a combination of Microsoft Windows file servers with direct attached tape and IBM pSeries database servers. The servers are attached to a TS1040 SAN device that is reaching capacity. The customer needs to migrate to a more scalable tape server.

What is the most important question to ask in the initial conversation with this customer?

- A.Will all of the customer's servers be attached?
- B.Which type of data is being stored on the servers?
- C.What is the version and release level of the database?
- D.How much space is available in the current tape systems?

Answer: A

11. Which topic should be discussed with the customer prior to designing a backup and recovery solution?

- A.annual IT budget
- B.off-site tape recovery
- C.number of tape operators
- D.Recovery Point Objective (RPO)

Answer: D

12. Which industry has best embraced the concept of improving security by encrypting data in transit?

- A.media
- B.finance
- C.agriculture
- D.food service
- E.manufacturing

Answer: B

13. A customer environment contains different servers and operating systems, which need to connect to centralized storage.

How should a salesperson verify that the solution will be supported by IBM?

- A.perform a proof-of-concept
- B.consult the operations manual
- C.check the interoperability matrix
- D.verify the solution by using the available IBM Redbooks

Answer: C

14. What is the Recovery Time Objective (RTO)?

- A.the time it takes to recover from a disaster
- B.the time it takes to back up the primary data set
- C.the time it takes to recover the data from a specified point
- D.the difference between the primary and the disaster recovery data sets

Answer: A

15. An open systems customer wants the highest level of availability, serviceability, and performance for a tape subsystem.

Which solution meets the customer's needs?

- A.TS7520
- B.TS7700 with TS3500
- C.TS1120 with TS33100
- D.TS3500 HA with TS1120

Answer: D

16. What is the Recovery Time Objective (RTO)?

- A.the time it takes to recover the data
- B.the time it takes to bring the application up
- C.the time it takes to back up the primary data set
- D.the difference between the primary and disaster recovery data sets

Answer: B

17. A healthcare company currently retains patient information for seven years. This information is kept in paper form in a warehouse. The company now wants to store this data in an electronic format.

Who in the company is most likely to know the amount of data generated and stored?

- A.Medical Staff Director
- B.Chief Operating Officer
- C.Medical Records Officer
- D.Chief Technology Officer

Answer: C
