

000-992 braindumps

IBM IBM certifications I

000-992: Test992,IBM WebSphere MQ V6.0. System Administration

Practice Exam: 000-992 Exams

Exam Number/Code: 000-992

Exam Name: Test992,IBM WebSphere MQ V6.0. System Administration

Questions and Answers: 101 Q&As

([IBM certifications I](#))

"Test992,IBM WebSphere MQ V6.0. System Administration", also known as 000-992 exam, is a IBM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 101 Q&As to your 000-992 exam preparation. In the 000-992 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Exam : [000-992](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for IBM IBM certifications I 000-992 (Test992,IBM WebSphere MQ V6.0. System Administration) examination of original title complete coverage. 000-992 exam questions help you pass the exam.

Just4Study 000-992 Feature:

* High quality - High quality and valued for the 000-992 Exam: 100% Guarantee to Pass Your 000-992 exam and get your IBM certifications I certification.

* Authoritative - Authoritative braindumps with complete details about 000-992 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed IBM certifications I resources, you will minimize your **IBM IBM certifications I** cost and be ready to pass your 000-992 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free IBM certifications I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 000-992 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 000-992 Demo Download

Just4Study offers free demo for IBM certifications I 000-992 exam (Test992,IBM WebSphere MQ V6.0. System Administration). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **IBM IBM certifications I 000-992** examination of original title complete coverage.000-992 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 000-992

Exam Name: Test992,IBM WebSphere MQ V6.0. System Administration(IBM certifications I)

Questions and Answers: 101 Q&A

[IBM 000-992](#) Test belongs to one of the IBM certifications I certified test, if needs to obtain the IBM certifications I certificate, you also need to participate in other related test, the details you may visit the [IBM certifications I](#) certified topic, in there, you will see all related IBM certifications I certified subject of examination.

Just4Study professional provide IBM certifications I 000-992 the newest Q&A, completely covers 000-992 test original topic. With our complete IBM certifications I resources, you will minimize your IBM certifications I cost and be ready to pass your 000-992 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : IBM 000-992

Title : Test992,IBM WebSphere MQ V6.0. System Administration

1. What is a Key Performance Indicator (KPI)?

- A.A measurement to track performance against business objectives
- B.A predictor of when an optimal activity state will occur
- C.A metric captured for averaging response times across multiple instances
- D.A category of metrics for reporting performance

Answer: A

2. What is the simplest way for the analyst to change a local subprocess into a local task?

- A.Right-click in the subprocess diagram, select 'Demote to Local Task'
- B.Right-click on the subprocess, select Convert to > Local Task
- C.Right-click on the local subprocess in the project tree, select Convert to > Local Task
- D.Add a local task to the diagram, change the connections and delete the subprocess

Answer: B

3. Which predefined classifier value represents an activity that is currently performed manually, but could be converted to an automated activity?

- A.Quality control
- B.Business value added
- C.Current workflow
- D.Potential workflow
- E.Real value added

Answer: D

4. Click the Exhibit button.

Simulation is being performed on the process shown in the exhibit. Task E input criteria is set to accept a Minimum and Maximum of one token, as shown in the exhibit.

Based on the process syntax, how many times will Task E be instantiated if 100 tokens enter the fork?

- A.100
- B.200
- C.Unknown, the decision is inclusive, and multiple combinations of true paths could be taken for each token.
- D.Task E will never be instantiated as input constructs of Task E do not support multiple input possibilities.

Answer: B

5. What is important in the selection of Key Performance Indicators (KPIs)?

- A.KPIs should be unique to the process model and verified in a simulation test.
- B.KPIs should provide early detection of issues to enable corrective action.

C.KPIs should not overlap with other KPIs, especially from other domains.

D.Each KPI should be measured at the task output during simulation.

Answer: B

6. What is the purpose of business process management?

A.To fit business processes into a configuration that solves real problems

B.To create a comprehensive set of business processes to be deployed on an SOA infrastructure and managed using well-defined metrics

C.To define and implement business process goals that will be applied to automated activities

D.To define business goals, design and implement processes, and measure performance against the goals

Answer: D

7. What is business process modeling?

A.Capturing organization, processes, services, and staff

B.Creating activity flows that assure the business process simulations will identify corporate goals

C.Capturing processes, flows, data, resources, and business measures

D.Creating technology representations of the business, including business services and KPIs

Answer: C

8. Which are specialized tasks that enable notification while a process is running?

A.Services and listener

B.Broadcaster and observer

C.Broadcaster and receiver

D.Services and observer

Answer: C

9. Which activities for the SOA lifecycle are in the correct order?

A.Define > Model > Assemble > Optimize > Deploy

B.Envision > Define > Model > Assemble > Test > Deploy

C.Model > Simulate > Deploy > Manage > Improve

D.Model > Assemble > Deploy > Manage

Answer: D

10. Several process owners are planning a meeting to exchange information about their respective processes. They need to be able to communicate the sequence of steps in their own process as well as how their processes relate to other processes.

Which predefined report should they bring to their meeting?

A.Process details report

B.Process procedure report

C.Process summary report

D.Process specification report

Answer: B

11. What is the business process modeling lifecycle?

A.Gathering requirements, design, model, and implement design

B.Iterating through Basic, Intermediate, and Advanced modes of modeling

C.Iteratively simulating business activities, repeating until requirements are met

D.Iteratively capturing processes, collaborating on design, simulation, and optimization

Answer: D

12. What is the most efficient way to validate a business model and the attribute values used for simulation?

A.Run Process Instances Summary report

B.Run Simulation Profile report

C.Run General Analysis > Type Instance Matching Analysis

D.Run Profile Analysis > Profile Specification

Answer: D

13. Which attribute CANNOT be selected in the Swimlane layout?

A.Layout by Individual Resource Definition

B.Layout by Bulk Resource Definition

C.Layout by Business Item

D.Layout by Location

E.Layout by Organization Unit

Answer: C

14. Which three task attributes can be specified with distribution? (Choose three.)

A.Cost

B.Resource

C.Role

D.Duration

E.Classifier values

F.Revenue

G.Timetable

Answer: ADF

15. Which action occurs when a human task does not reach an expected state (for example, ended) within a specified time period?

A.Escalation

B.Compensation

C.Notification

D.Assignment

Answer: A

16. Which two parts does WebSphere Business Modeler play in the SOA lifecycle? (Choose two.)

A.It provides outputs for production deployment.

B.It provides outputs to assemble for deployment.

C.It accepts inputs from deployment.

D.It accepts inputs from orchestration and assembly.

E.It accepts inputs from monitoring.

Answer: BE

17. Which statement is true about the Service element in WebSphere Business Modeler?

A.Services color-code process elements.

B.Services are external processes.

C.Services can be local or global.

D.Services execute from a repository.

Answer: B

18. What is a critical success factor in process modeling?

A.Definition of the organizations hierarchy in the modeled project

B.Storage of business items in the organizations data repository

C.Inclusion of events for use in the organizations business measurement system

D.Participation by stakeholders from different business domains

Answer: D

19. Which business process modeling methodologies does WebSphere Business Modeler most effectively support?

(Choose two.)

- A. Methodologies that use comparative analysis between two models
- B. What-if modeling to expose process thresholds and possible areas for improvement
- C. Iterative, object-oriented methodologies that incrementally add processes to the model
- D. Event-driven process chain methodologies that identify bottlenecks
- E. Built-in methodologies that are enforced as the product is used

Answer: AB

20. Which statement is true about the rule conditions and actions that are defined for a business rules task?

- A. They are used in process simulation.
- B. They are transformed into a global business task.
- C. They are displayed on the process diagram.
- D. They are handed off for development.

Answer: D
