Lotus CLP

190-825: IBM WebSphere PORTAL 6 Deployment and Administration

Practice Exam: 190-825 Exams

Exam Number/Code: 190-825

Exam Name: IBM WebSphere PORTAL 6 Deployment and Administration

Questions and Answers: 140 Q&As

([CLP](#))

"IBM WebSphere PORTAL 6 Deployment and Administration", also known as 190-825 exam, is a Lotus certification. With the complete collection of exam questions, Just4Study has assembled to take you through 140 Q&As to your 190-825 exam preparation. In the 190-825 exam resources, you will cover every field and category in Lotus Certification helping to ready you for your successful Lotus Certification.

Exam : [190-825](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Lotus CLP 190-825 (IBM WebSphere PORTAL 6 Deployment and Administration) examination of original title complete coverage. 190-825 exam questions help you pass the exam.

Just4Study 190-825 Feature:

* High quality - High quality and valued for the 190-825 Exam: 100% Guarantee to Pass Your 190-825 exam and get your CLP certification.

* Authoritative - Authoritative braindumps with complete details about 190-825 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed CLP resources, you will minimize your **Lotus CLP** cost and be ready to pass your 190-825 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free CLP demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 190-825 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 190-825 Demo Download

Just4Study offers free demo for CLP 190-825 exam (IBM WebSphere PORTAL 6 Deployment and Administration). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Lotus CLP 190-825** examination of original title complete coverage. 190-825 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 190-825

Exam Name: IBM WebSphere PORTAL 6 Deployment and Administration(CLP)

Questions and Answers: 140 Q&A

[Lotus 190-825](#) Test belongs to one of the CLP certified test, if needs to obtain the CLP certificate, you also need to participate in other related test, the details you may visit the [CLP](#) certified topic, in there, you will see all related CLP certified subject of examination.

Just4Study professional provide CLP 190-825 the newest Q&A, completely covers 190-825 test original topic. With our complete CLP resources, you will minimize your CLP cost and be ready to pass your 190-825 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Lotus 190-825

Title : IBM WebSphere PORTAL 6 Deployment and Administration

1. Your WebSphere Portal environment is supposed to access a remote LDAP directory that is supported by another group in your organization. However, they will not allow changes to be made to their LDAP directory structure. Portal has requirements that cannot be met by their structure. Which of the following is the best possible solution?

- A. Do not utilize the remote LDAP directory and create a local Cloudscape directory
- B. Utilize the remote LDAP directory and disable all features that require customization
- C. Utilize the remote LDAP directory and create a Lookaside database for additional profile information
- D. Copy the remote LDAP directory into a local LDAP source and make the necessary customization needed to utilize the local source

Answer: C

2. In planning to utilize collaboration components, the existing Quickplace server utilizes a central LDAP directory based on Lotus Domino. Both the Quickplace and the LDAP server are accessed via SSL. Which of the following is correct if you wish to enable an IBM Lotus Sametime server into the environment?

- A. Sametime must utilize SSL and must point to its own local directory
- B. Sametime has the option of using SSL and must point to its own local directory
- C. Sametime must utilize SSL and point to the same directory that Quickplace accesses
- D. Sametime has the option of using SSL and point to the same directory that Quickplace accesses

Answer: C

3. Members of a WebSphere Portal cluster exist on multiple physical machines to distribute the workload of a single logical WebSphere Portal image. What is this called?

- A. Vertical scaling
- B. Horizontal scaling
- C. Multi-machine design
- D. HTTP server separation

Answer: B

4. Composite applications can be defined by which of the following?

- A. A group of applications that share a common theme
- B. A list of applications available to the personalization server
- C. A cluster of WebSphere Portal servers that share a common database
- D. A compiled set of components that address a particular business need

Answer: D

5. Which of the following statements BEST describes how WebSphere Portal's functionality is implemented on the WebSphere Application Server?

- A. WebSphere Portal is deployed as a Web Application on the WebSphere Application Server
- B. WebSphere Portal runs as an Enterprise Application on the WebSphere Application Server
- C. WebSphere Portal runs a servlet within the WebSphere Application Server's Web Container
- D. WebSphere Portal is deployed as a portlet to WebSphere Application Server's Web Container

Answer: B

6. You are utilizing ReleaseBuilder to stage configurations between two releases. You are tracking which configuration entities were removed, added or changed compared to the previous release. Which of the following are created to detect deviations between one configuration and another?

- A. Staged updates
- B. Deletion updates
- C. Differential updates
- D. Configuration updates

Answer: C

7. As the Portal administrator, you are exporting and transferring a document library from a staging system to a production system. You have successfully created an empty shared directory to hold the exported document library. Both the staging and production servers have write access to the shared directory. When you move the document library from the staging system to the production system, which of the following occurs to private drafts?

- A. They are converted to submitted drafts
- B. They are transferred without modifications
- C. They will all be converted to the same UUID
- D. They are appended a new document version number

Answer: B

8. Constance, a Portal user, is noticing that a portlet she utilizes takes a long time to render. Data is drawn from other portlets, some of which access remote data. Which of the following can the administrator implement to help reduce the time Constance waits for the portlet?

- A. Portal clustering
- B. Real-time database access
- C. Parallel portlet rendering
- D. Synchronous portlet transfer

Answer: C

9. Portlets can write message and trace information to log files to assist the portal administrator to investigate portlet errors and special conditions and help the portlet developer test and debug portlets. In which of the following locations are these logs maintained?

- A. <app_server_root>/logs
- B. <portal_server_root>/log/
- C. <websphere_root>/portal/log
- D. <app_server_root>/trace/logs

Answer: B

10. Dana, a Portal user, is a member of multiple virtual portals in her company. Within the virtual portals and PAC, you have made restrictions on what is visible, including scoping resources. Which of the following Portal resources may not be controlled in this manner?

- A. Portlets
- B. Web modules
- C. Portlet Applications
- D. Composite applications

Answer: D

11. The business units of your enterprise have needs for their own portals. However, the demand on server resources

is not great enough to require parallel installations. In response, your enterprise chose virtual portals. Which of the following are available across each of the virtual portals?

- A. Portal search
- B. Document management
- C. Portal property file definitions
- D. Anonymous pages per virtual portal

Answer: D

12. Margaret is in the process of copying a finance portlet application using the administrative pages. Which of the following is true regarding the portlet data and portlet application data when copied?

- A. The portlet application data and the portlet data are copied from the original portlet
- B. The portlet application and portlet are copied, but all the parameters are left blank for configuration by the administrator
- C. The portlet application parameters are copied from the original application, but the portlet parameters are left blank in the copied portlet
- D. The portlet application parameters are left blank since this is a new version of the portlet, but the portlet parameters are copied from the original portlet

Answer: A

13. In order to implement a highly available END-TO-END security solution for a production portal environment, which of the following sets of components would be most useful?

- A. Netegrity SiteMinder, Credentials vault, Dynamic Cache, Deployment Manager hot standby
- B. Tivoli Access Manager, Load Balancing Edge component, Portal Cluster, LDAP server cluster
- C. Tivoli Access Manager, Portal Cluster, Credential vault, Network-Attached Storage devices
- D. Tivoli Access Manager, Netegrity SiteMinder, WebSphere Information Integrator, LDAP server cluster

Answer: B

14. ReleaseBuilder enables management of release configurations independent of which of the following?

- A. XML configurations
- B. User configurations
- C. Staged configurations
- D. Generation configurations

Answer: B

15. A common portlet is available to multiple virtual portals. However, you do not wish the marketing virtual portal to utilize a PIM portlet. Which of the following offers the ability to restrict the portlet from the marketing virtual portal users?

- A. Portal Access Control
- B. Portlet Security Control
- C. Virtual Portal Restriction
- D. Websphere Member Manager

Answer: A

16. Which of the following best describes the difference between horizontal cloning and vertical clustering?

- A. Vertical clustering takes advantage of the resources of a multiprocessor system; horizontal cloning allows for upward scalability
- B. Vertical clustering allows for users to authenticate against multiple LDAP sources; horizontal cloning allows multiple servers to act as one server
- C. Horizontal cloning replicates the back-end database in real-time; vertical clustering takes advantage of multiple Websphere servers as a single cell
- D. Horizontal cloning allows multiple HTTP servers to server in a failover scenario; vertical clustering allows Portal servers to combine processor and memory into one virtual server

Answer: A

17. When utilizing the IBM Portlet API, which of the following is valid regarding Cooperative Portlets?

- A. They cannot use Click-to-Action
- B. They support chained propagation of data
- C. They cannot broadcast properties to all target portlets at one time
- D. They can only use wires to pass properties from source portlets to target portlets

Answer: B

18. The company developers have provided you a new portlet for deployment in your company's Portal cluster. Which of the following is the correct way to deploy the portlet to the cluster?

- A. Deploy the portlet to one Portal cluster member in the cell with identical configurations
- B. Deploy the portlet to the Deployment Manager specifying which cluster should receive the new portlet
- C. Deploy the portlet to one Portal cluster member in the cell and let it propagate and run wpsconfig to activate the portlet
- D. Manually update the Deployment Manager wmcluster.xml file to include the new portlet name and to which Portal cluster it should be deployed

Answer: C

19. Particular Portal productivity editors in the Document Manager portlet need to be disabled. Which of the following tasks must be performed?

- A. Use Portlet Management to edit the properties of the Productivity editors portlet application
- B. Select the Edit link on the Document manager portlet and uncheck the editors that must be disabled
- C. Select the Design link on the Document manager portlet and uncheck the editors that must be disabled
- D. Use the Manage Document Libraries portlet, select the Configure link and uncheck the editors that must be disabled

Answer: C

20. In which of the following circumstances will a Consumer use the XML configuration interface to create a Producer when utilizing Web Services for Remote Portlets?

- A. When the Consumer is offline
- B. Every time that a Consumer needs to create a Producer
- C. A Consumer does not create a Producer using the XML configuration interface
- D. When there is no Web Services Definition Language document available to the Consumer

Answer: A
