[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Lotus 190-829

Title : IBM WebSphere Portal V6 Application Development

1. The Personalization resource wizard in Rational Application Developer is used to generate the content spot classes and resource collection classes. If the content spot and resource collection will be used by multiple applications, then those classes should be:

- A. Deployed together with the related portlets in the portlet application WAR file.
- B. Placed in the WebSphere Application Server shared library.
- C. Placed directly in the pzn\_root/pzn/v6.0/lib directory.
- D. Uploaded using the Personalization interface.

Answer: B

2. Nell is using RAD 7 and would like to minimize the startup time of her local WebSphere Portal 6 server. Which approach should she take to accomplish this?

- A. Deselect all portlets that do not need to be started for testing
- B. Enable "Optimize server for testing and developing" in the servers view
- C. Modify the batch file that starts WebSphere Portal to include -Xquickstart
- D. Modify the JAVA\_Size environment variable for the development machine

Answer: B

3. Hallie is developing a custom theme for her portal project. What is unique about the style sheets associated with a WebSphere Portal theme?

- A. Style sheets are saved as JSPs
- B. CSS files must be deployed as portlet WARs
- C. All styles must be prepended with "portal-theme"
- D. The default css must begin with a portal style class declaration

Answer: A

4. Ivan is configuring his local development machine with a deployment of WebSphere Portal 6 for testing. Which list below describes the software that must be installed in order for his portal server to run?

- A. WebSphere Application Server, an LDAP v3 server, and IBM DB2
- B. WebSphere Application Server, IBM Cloudscape, and Lotus Domino
- C. WebSphere Application Server, IBM Cloudscape, and a WebSphere Portal instance
- D. WebSphere Application Server, an LDAP v3 server, IBM Cloudscape, and an external HTTP server

Answer: C

5. Tony is just beginning to work with a Faces portlet in RAD. Since RAD automatically switched to the Web Perspective when he started the project, where can he find Enhanced Faces Components (such as a Data Table) to 'drag and drop' onto the page editor?

- A. In the Palette
- B. In the Quick Edit view
- C. In the Page Data view
- D. In the Project Explorer

Answer: A

- A. JSP
- B. POJO
- C. Java class
- D. Ajax requests

Answer: A

7. Fiona is developing a series of portlets that will eventually work together and exchange data, providing a more dynamic user experience. What portlet service does WebSphere Portal provide that will allow her portlets to exchange data?

- A. PUMA SPI
- B. Property Broker
- C. Credential Vault
- D. Cooperative Interface

Answer: B

8. For a web application with multiple Struts portlets, the BEST way to define the initial views of the individual portlets is to specify them:

- A. In the welcome file list in the application's web.xml.
- B. In the viewMode.page preferences attributes in the individual portlet.xml.
- C. As viewMode properties in the actions section in the individual struts-config.xml.
- D. As view attributes in the supports section of the individual portlet.xml.

Answer: B

9. A developer needs to export a portlet from a portal installation so that a collaborative world-wide team can test it. What is the BEST out-of-box option that the developer can choose to export this Portlet?

- A. Use Export XML Portlet
- B. Use Upload and Export Portlet
- C. Use Manage Pages Portlet
- D. Copy and Paste the Portlet across machines

Answer: C

10. Which of the following is valid about the IBM Workplace Solutions Catalog?

- A. Portlet technology previews developed outside of IBM may be made available through the IBM Workplace Solutions Catalog.
- B. Developers need to download the Rational Application Developer from IBM the Workplace Solutions Catalog.
- C. All portlets on the IBM Workplace Solutions Catalog are available as open source so developers can use the code as a basis for new portlets.
- D. Portlets created by vendors like are available through the IBM Workplace Solutions Catalog.

Answer: D

11. For portal business processes that should be processed within portal, what is used to lookup the task page definition at runtime?

- A. Client UI identifier
- B. Process Template Name
- C. Task instance object identifier (TKIID)

D. Staff activity identifier

Answer: A

12. Bethany is creating a custom mail portlet service for use by several portlets. She has defined the interface, written the code for her services, and created and installed the service's .jar file on her portal server. Before she can code her portlets to access the service, what final step must be taken?

- A. Register the service
- B. Extend the PortletService interface
- C. Specify action processing for the service
- D. Modify the credential vault slot for the service user role

Answer: A

13. Will is developing a business process application, and is at the point where he is initiating the process instance. He has used a JNDI lookup to obtain a reference to the process server remote EJB interface. Next he codes the portlet to start the process with an input message. Once the process starts, what is returned to the caller by the operation?

- A. The process-instance name
- B. The process template name
- C. The object ID of the new process instance
- D. A reference to the BusinessProcess session bean

Answer: C
