### Lotus CLP

#### 190-959: IBM Websphere Portal 6.1 Application Development

**Practice Exam:** 190-959 Exams

**Exam Number/Code:** 190-959

**Exam Name:** IBM Websphere Portal 6.1 Application Development

**Questions and Answers:** 150 Q&As

( [CLP](#) )

Exam : [190-959](#)

"IBM Websphere Portal 6.1 Application Development", also known as 190-959 exam, is a Lotus certification. With the complete collection of exam questions, Just4Study has assembled to take you through 150 Q&As to your 190-959 exam preparation. In the 190-959 exam resources, you will cover every field and category in Lotus Certification helping to ready you for your successful Lotus Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Lotus CLP 190-959 (IBM Websphere Portal 6.1 Application Development) examination of original title complete coverage. 190-959 exam questions help you pass the exam.

#### **Just4Study 190-959 Feature:**

\* High quality - High quality and valued for the 190-959 Exam: 100% Guarantee to Pass Your 190-959 exam and get your CLP certification.

\* Authoritative - Authoritative braindumps with complete details about 190-959 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed CLP resources, you will minimize your **Lotus CLP** cost and be ready to pass your 190-959 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free CLP demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 190-959 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 190-959 Demo Download**

Just4Study offers free demo for CLP 190-959 exam (IBM Websphere Portal 6.1 Application Development). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Lotus CLP 190-959** examination of original title complete coverage. 190-959 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 190-959**

Exam Name: IBM Websphere Portal 6.1 Application Development( CLP )

Questions and Answers: 150 Q&A

[Lotus 190-959](#) Test belongs to one of the CLP certified test, if needs to obtain the CLP certificate, you also need to participate in other related test, the details you may visit the [CLP](#) certified topic, in there, you will see all related CLP certified subject of examination.

Just4Study professional provide CLP 190-959 the newest Q&A, completely covers 190-959 test original topic. With our complete CLP resources, you will minimize your CLP cost and be ready to pass your 190-959 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Lotus 190-959

Title : IBM Websphere Portal 6.1 Application Development

1. The following code demonstrates an example for theme extensions

Which one of the following is TRUE about the code?

- A.This code can be included in portlet or theme.jsp.
- B.This code can be included only in the theme or skin.jsps.
- C.Extension Point com.ibm.portal.theme.plugin.SimpleLinks is not defined in plugin.xml
- D.This code displays the title of all the extensions of type SimpleLinksWHelveticaArialZ

Answer: B

2. An insurance company would like to target specific content to users who live in the northeast and own auto insurance. These attribute values can be accessed from the users profile. What type of portal personalization can be used to identify this user segment and target specific content to them?

- A.Rules Engine
- B.Simple Filtering
- C.Attribute Filtering
- D.Collaborative FilteringWHelveticaArialZ

Answer: A

3. Which portlet framework is designed to understand two-phase request processing?

- A.Faces Portlet Framework
- B.Struts Portlet Framework
- C.Spring Portlet Framework
- D.JSR 268 Portlet FrameworkWHelveticaArialZ

Answer: C

4. Unlike server-side aggregation portal pages using client-side aggregation log errors to the client. When using client-side aggregation how can errors logged to the client be viewed from the server?

- A.They cant be viewed on the server.
- B.Add isDebug:true to debugOptions.jspf, load a page using client-side aggregation, add javascript:toggleDebugForm() to browser address bar
- C.Add isDebug:true to Default.jsp, load a page using client-side aggregation, add javascript:toggleDebugForm() to browser address bar
- D.Add isDebug:true to headExtras.jspf, load a page using client-side aggregation, add javascript:toggleDebugConsole() to browser address barWHelveticaArialZ

Answer: D

5. Aside from normal steps for deploying portlets to a page what additional step, if any, is necessary to configure a

portlet using the Struts MVC Framework and a portlet using the Java Server Faces Framework to the same portal page?

- A. Server side aggregation must be forced on page
- B. Both portlets must comply with the JSR168 Portlet Specification
- C. No additional steps are required
- D. Framework Jars must be added to WebSphere Application Server Shared Libraries

Answer: C

6. What two portlet frameworks are built upon the Model View Controller pattern?

- A. Basic Portlet and IBM Portlet Frameworks
- B. Faces Portlet and Struts Portlet Frameworks
- C. JSR 168 Portlet and IBM Portlet Frameworks
- D. JSR 168 Portlet and JSR 268 Portlet Frameworks

Answer: B

7. A new site needs to be created within portal with its own title, user repository, default content, and branding. What single portlet is provided for creating a new site within portal?

- A. Content Authoring Portlet
- B. Theme Customizer Portlet
- C. Virtual Portal Manager Portlet
- D. New Site Creation Wizard Portlet

Answer: D

8. Don needs to parse an ATOM feed return from a REST based service. Which of the following frameworks is a supported solution for parsing ATOM feeds using Java and AJAX?

- A. The DOJO Toolkit 1.1
- B. WebSphere Feature Pack for Web 2.0
- C. WebSphere Feature Pack for Web Services
- D. Java Architecture for XML Bindings (JAXB)

Answer: B

9. The Web 2.0 theme with support for client-side aggregation is based on the differential page rendering (DPR) model. What key performance feature is provided by DPR?

- A. Caching of portlet content.
- B. Automatically converts server side portlets to client side portlets.
- C. Only refreshes portions of the page that were affected by user interaction.
- D. Allows faster performing portlets to render prior to slower running portlets.

Answer: C

10. Evan is developing a Composite Application and some portlets come from a third party vendor. What would be the best means to force Server Side Aggregation mode for the page in the Composite Application?

- A. Add the portlet UID found in the web.xml to the Portlet Blacklist.
- B. Define a Composite Application policies to force Server Side Aggregation
- C. Add the RenderMode page parameter to force Server Side Aggregation.
- D. Add custom logic in the theme to trigger the isSSA and isCSA page variables.

Answer: C

11. Cheng is developing a portlet which is not compatible with the Client Side Aggregation mode. What is the best means to indicate that this portlet only supports Server Side Aggregation mode?

- A. Set the com.ibm.wps.web2.renderMode context parameter in the portlet.xml
- B. Set the com.ibm.wps.web2.renderMode init parameter in the portlet.xml
- C. Set the com.ibm.wps.web2.renderMode portlet preference in the portlet.xml
- D. Set the com.ibm.wps.web2.renderMode context parameter in the web.xml

Answer: B

12. What WebSphere Portal V6.1 installation option is best suited for an optimized development environment?

- A. Debug Installation Option
- B. Performance Installation Option
- C. Development Installation Option
- D. Administration Installation Option

Answer: D

13. What content is displayed when accessing TestPortlet in the VIEW mode?

```
public class TestPortlet extends javax.portlet.GenericPortlet {  
    public void doView(RenderRequest request, RenderResponse response) throws PortletException, IOException {  
        response.setContentType(request.getResponseContentType());  
        response.getWriter().println("Executing CertTrialPortlet.doView()");  
    }  
    @RenderMode(name="view")  
    public void handleView(RenderRequest request, RenderResponse response) throws PortletException, IOException {  
        response.setContentType("text/html");  
        response.getWriter().println("Executing CertTrialPortlet.handleView()");  
    }  
}
```

- A. Executing CertTrialPortlet.doView()
- B. Executing CertTrialPortlet.handleView()
- C. IllegalStateException because you cannot have both @RenderMode=view and doView() in same portlet
- D. Compiler error indicating that you cannot have both @RenderMode=view and doView() in TestPortlet class.

Answer: B

14. A customer has requirements to remotely search portal user profiles based on attributes of the profile using web services. How can this be accomplished in portal?

- A. By means of the Remote Portal Search Service
- B. By means of the Remote PUMA SPI REST Service
- C. By means of the Remote Virtual Member Manager Service
- D. By means of the user repository APIs and wrap web services around API calls

Answer: B

15. Jerome is attempting to use Rational Application Developer to debug a portal application on a remote server but the connection is consistently failing. What configuration option is available in Rational Application Developer to potentially fix this problem?

- A. Enable caching under Window -> Preferences -> Internet -> Cache.
- B. Right-click on the server in the Servers view and select Restart -> Debug.
- C. Increase the Debugger Timeout setting under Window -> Preferences -> Java -> Debug.
- D. Select Skip breakpoints during a Run to Line operation under Window -> Java -> Run/Debug.

Answer: C

16. What additional step is necessary when deploying the Remote Rendering Portlet to a page that uses the client-side aggregation mode?

- A. No additional steps are necessary.
- B. Remove the Remote Rendering Portlet from the blacklist.
- C. Create an HTTP proxy for AJAX to allow the portlet to render content
- D. This is not possible as the Remote Rendering Portlet is not compatible with Portal Web 2.0 theme.

Answer: C

17. How can a non-J2EE web application located on a separate domain from portal be integrated into portal without programming and provide bookmarkability?

- A. Configure non-J2EE application to display within RSS Portlet
- B. Configure non-J2EE application to display within iFrame Portlet
- C. Configure non-J2EE application to display within Web Content Viewer Portlet
- D. Configure non-J2EE application to display within WebSphere Application Integrator Portlet

Answer: D

18. Evan is developing a WSRP 2.0 Compliant portlet and he wants to send a custom java object Sample as an event to the WSRP 2.0 Compliant remote portlet. What changes should he make to the Sample class

```
public class Sample{
private String hello;
public String getHello(){
return hello;
}
public void setHello(String hello){
this.hello = hello;
}
}
```

- A. He should mark Sample class as Serializable
- B. He should mark Sample class as Serializable as well as JAXB Serializable by adding @XmlElement annotation
- C. He should mark Sample class as Serializable as well as JAXB Serializable by adding @XmlSerializable annotation
- D. You cannot pass complex objects to the remote portlet.

Answer: B

19. The marketing department wants to create a new promotion portal page to attract return customers. The page can only be included in the portal navigation by customers who have made a purchase in the last 30 days. Which of the following options will permit the new page to be displayed to only customers who made a purchase in the last 30 days?

- A. Using the Manage Pages portlet, edit the page parameter to reference an application visibility policy. Create a new policy that uses the recentPurchaseDate user attribute to set the page visible if the date is less than 31 day old.
- B. Create a visibility rule that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old. Then use the Edit Page Properties portlet to select the rule.
- C. Create a visibility policy that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old. Then use the Edit Page Properties portlet to select the policy.
- D. Using the Resource Policy portlet, select page resources, and select the new promotion page assign access option. Next select the users role. Add a visibility rule that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old.

Answer: B

20. What is a processing advantage of public parameters over eventing?

- A. No action phase required.
- B. No limits to the payload data.
- C. No need to distribute events to portlets.
- D. Notifications are handled by the browser.

Answer: A
