Oracle 9i DBA

1z0-035: oracle9i dba new features for oracle7.3 and oracle9 ocps

Practice Exam: 1z0-035 Exams

Exam Number/Code: 1z0-035

Exam Name: oracle9i dba new features for oracle7.3 and oracle9 ocps

Questions and Answers: 168 Q&As

([9i DBA](#))

"oracle9i dba new features for oracle7.3 and oracle9 ocps", also known as 1z0-035 exam, is a Oracle certification. With the complete collection of exam questions, Just4Study has assembled to take you through 168 Q&As to your 1z0-035 exam preparation. In the 1z0-035 exam resources, you will cover every field and category in Oracle Certification helping to ready you for your successful Oracle Certification.

Exam : [1z0-035](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Oracle 9i DBA 1z0-035 (oracle9i dba new features for oracle7.3 and oracle9 ocps) examination of original title complete coverage. 1z0-035 exam questions help you pass the exam.

Just4Study 1z0-035 Feature:

* High quality - High quality and valued for the 1z0-035 Exam: 100% Guarantee to Pass Your 1z0-035 exam and get your 9i DBA certification.

* Authoritative - Authoritative braindumps with complete details about 1z0-035 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed 9i DBA resources, you will minimize your **Oracle 9i DBA** cost and be ready to pass your 1z0-035 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free 9i DBA demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 1z0-035 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 1z0-035 Demo Download

Just4Study offers free demo for 9i DBA 1z0-035 exam (oracle9i dba new features for oracle7.3 and oracle9 ocps). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Oracle 9i DBA 1z0-035** examination of original title complete coverage. 1z0-035 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 1z0-035

Exam Name: oracle9i dba new features for oracle7.3 and oracle9 ocps(9i DBA)

Questions and Answers: 168 Q&A

[Oracle 1z0-035](#) Test belongs to one of the 9i DBA certified test, if needs to obtain the 9i DBA certificate, you also need to participate in other related test, the details you may visit the [9i DBA](#) certified topic, in there, you will see all related 9i DBA certified subject of examination.

Just4Study professional provide 9i DBA 1z0-035 the newest Q&A, completely covers 1z0-035 test original topic. With our complete 9i DBA resources, you will minimize your 9i DBA cost and be ready to pass your 1z0-035 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Oracle 1Z0-035

Title : Oracle9i dba New Features For Oracle7.3 And Oracle9 Ocps

1. In the Oracle9i Data Guard architecture, what is the purpose of the Log Transport Services?

- A. to transfer redo log information to one or more destinations
- B. to apply redo log records sent from the primary database to a standby database at the receiving location
- C. to synchronize changes to the control files on all standby databases with changes on the primary database when a log switch occurs
- D. to batch archived log files on the primary database until a defined number of checkpoints have been processed and then to distribute the archives to each standby database

Answer: A

2. What statement is true about taking a database default temporary tablespace offline?

- A. You cannot take a default temporary tablespace offline.
- B. The database must be quiesced before you perform this action.
- C. You must ensure that all users are assigned to an alternative temporary tablespace first.
- D. You must first ensure that the default temporary tablespace has the permanent tablespace characteristic.

Answer: A

3. Consider the following scenario using incremental backups. A level 1 backup is taken on the first of the month. A level 2 backup is taken every Sunday, and a level 3 backup is taken daily. If the database gets corrupted on the second Wednesday of the month and is lost, which scenario would restore the database completely?

- A. the weekly backup (level 2) and the daily backup (level 3)
- B. the monthly backup (level 1) and the daily backup (level 3)
- C. a base level backup (level 0) is missing and nothing can be recovered
- D. the monthly backup (level 1), the weekly backup (level 2) and the daily backup (level 3)

Answer: C

4. Online index rebuild functionality has been extended to include which four index structures? (Choose four.)

- A. bitmap indexes
- B. reverse key indexes
- C. function-based indexes
- D. key-compressed indexes on regular tables
- E. key-compressed indexes on IOT (including secondary indexes)

Answer: BCDE

5. Examine the statement:

```
DROP TABLESPACE IND2  
INCLUDING CONTENTS
```

AND DATAFILES;

What is the result of the statement?

- A. The contents and data files belonging to the IND2 tablespace are dropped.
- B. The statement will only succeed if the IND2 tablespace was built using Oracle-Managed Files (OMF) data files.
- C. The statement will only succeed if the data files belonging to the IND2 tablespace are Oracle-Managed Files (OMF) or if the database was created using OMF.
- D. The contents of the tablespace are dropped along with all its data files except those identified with the Oracle-Managed Files (OMF) naming convention.

Answer: A

6. Which three features are provided by Recovery Manager and NOT provided by user-managed backup and recovery?

(Choose three.)

- A. online backups
- B. skipping unused blocks
- C. partial database backups
- D. incremental block-level backup
- E. detection of corrupted blocks during backup

Answer: BDE

7. What do you need to do in order for the Database Resource Manager to estimate, in advance, the execution time of a statement?

- A. Set the TIMED_STATISTICS initialization parameter.
- B. Gather optimizer statistics on related objects.
- C. Set the TIMED_OS_STATISTICS initialization parameter.
- D. Nothing

Answer: B

8. Which type of index should be created to spread the distribution of index updates across the index tree?

- A. B-tree indexes
- B. bitmap indexes
- C. reverse-key indexes
- D. function-based indexes

Answer: C

9. In order to speed foreign key creation, Oracle9i will cache the first _____ primary key values only where there are multirow DML statements.

- A. 32
- B. 128
- C. 256
- D. 512

Answer: C

10. Which four are true regarding the Workspace Manager in Oracle9i? (Choose four.)

- A. automatically versions all tables
- B. automatically installed with Oracle9i
- C. merges changes with parent rows or discards changes
- D. provides mechanism to identify and resolve conflicts
- E. allows for version enabling tables by use of a packaged procedure

Answer: BCDE

11. Which two statements about dimensions are true? (Choose two.)

- A. A hierarchy can consist of multiple levels.
- B. A dimension can be based on multiple tables.

- C. A dimension can contain only a single hierarchy.
- D. No special privileges are required to create a dimension.

Answer: AB

12. Which two statements are true? (Choose two.)

- A. Composite partitioning enables you to prevent partition elimination.
- B. Composite partitioning supports hash partitioned global indexes.
- C. Composite partitioning is ideal for both historical data and data placement.
- D. Composite partitioning provides high performance and manageability, like range partitioning.

Answer: CD

13. Which CREATE TABLE parameter should you be concerned with if the length of rows in an index-organized table vary over a wide range of values?

- A. PCTFREE
- B. PCTUSED
- C. PCTINCREASE
- D. PCTTHRESHOLD

Answer: D

14. What is true about version-enabled tables?

- A. The unit of versioning is the schema.
- B. It is possible to version enable a table pertaining to SYS.
- C. There are as many segments as versions for the same base table.
- D. It is possible to create workspaces if there is no version-enabled table in the database.

Answer: D

15. What criterion does Oracle9i use to determine whether a database file is an Oracle Managed File?

- A. the filename format
- B. information stored inside a data dictionary table
- C. information stored in the ALERT.LOG file for the corresponding instance
- D. information stored inside the corresponding initialization parameter file for the instance

Answer: A

16. Which two are true regarding external tables? (Choose two.)

- A. External tables can be updated.
- B. External tables are read-only tables.
- C. Indexes can be created on external tables.
- D. Indexes cannot be created on external tables.

Answer: BD

17. Which type of ROWID does Oracle use for global indexes on partitioned tables?

- A. local
- B. extended
- C. restricted

Answer: B

18. Consider the following statement:

```
SQL> EXECUTE DBMS_STATS.GATHER_SCHEMA_STATS (-  
2> ownname => 'OE', -  
3> estimate_percent => DBMS_STATS.AUTO_SAMPLE_SIZE, -  
4> method_opt => 'for all columns size AUTO');
```

What is the effect of 'for all columns size AUTO' of the METHOD_OPT option?

- A. The Oracle server creates a new histogram based on existing histogram definitions for all table, column, and index

statistics for the OE schema.

B. The Oracle server creates a histogram based on data distribution regardless of how the application uses the column/s for all table, column, and index statistics for the OE schema.

C. The Oracle server creates a histogram based on data distribution and application usage of the column/s for all table, column, and index statistics for the OE schema.

D. The Oracle server creates a histogram based on application usage, regardless of data distribution, for all table, column, and index statistics for the OE schema.

Answer: C

19. Users complain that SQL statements using a particular index fail. Using DBVERIFY, you find that two separate blocks in the index have become corrupt. The database data files for user data and index are very large.

What is the least disruptive recovery strategy available in Oracle9i?

A. Rebuild the index using the online option.

B. Take the individual data file offline (not the whole tablespace), restore and recover the data file from backup with RMAN, then set the data file online again.

C. Without setting the individual data file offline, use RMAN with Block Media Recovery to restore and recover only those blocks.

D. Take the individual data file (not the whole tablespace) offline, use RMAN with Block Media Recovery to restore and recover only those blocks, then set the data file online again.

Answer: C

20. What is one benefit of using the ALTER TABLE ... MOVE command rather than a CREATE TABLE ... AS SELECT command?

A. row chaining is eliminated.

B. index definitions are retained.

C. duplicate space is not required while the command executes.

D. all operations, such as INSERT, UPDATE, DELETE, and SELECT can be performed while the operation completes.

Answer: B
