Exam : Symantec 250-300

Title : Administration of Backup Exec 10 for Windows

1. In Backup Exec, system media is considered to be all media that have been introduced into Backup Exec except media that have been allocated to _____.

- A.retired media
- B.scratch media
- C.cleaning media
- D.a media set

Answer: D

2. You are deploying Backup Exec 10.0 and plan to back up several servers and workstations. Most of the servers are running Windows 2003 Server. The workstations are running a mixture of Windows 95, Windows 2000 Professional, Mac OS 9, and Mac OS X.

Which three operating systems is Backup Exec able to protect? (Choose three.)

- A.Mac OS 9
- B.Mac OS X
- C.Windows 95
- D.Windows 2003 Server
- E.Windows 2000 Professional

Answer: BDE

3. You have a server running Backup Exec for Windows Servers. You want to install two robotic libraries on the computer. Each robotic library contains four tape drives.

How many Backup Exec Library Expansion Option licenses do you purchase in order to use all the tape drives in the robotic libraries?

- A.1
- B.2
- C.6
- D.7
- E.8

Answer: D

4. Given the following:

There are four tapes to use in a four-week cycle (one tape per week, Friday-Thursday).

A Full backup is scheduled to run every Friday night and is set to Overwrite only.

The current tape is ejected, and the next tape in the cycle is put in the tape drive every Friday.

A differential job is scheduled to run Monday-Thursday and is set to Append only.

After running through all four tapes in four weeks, the first tape from the cycle should be ready for the Friday night overwrite job.

Which media set values for the Append and Overwrite Protection periods are correct to enforce this media rotation and allow the jobs to run as scheduled?

- A.APPEND = 26 Days, OVERWRITE = 1 Day
- B.APPEND = 21 Days, OVERWRITE = 6 Days
- C.APPEND = 6 Days, OVERWRITE = 21 Days
- D.APPEND = 6 Days, OVERWRITE = 26 Days

Answer: C

5. You have a Windows 2003 server that is also the domain controller for your Windows environment. This server is also a client that needs to be fully backed up every 24 hours.

Which Windows role of the logon account enables you to fully protect the server?

- A.Power User
- B.Domain User
- C.Domain Admins
- D.Backup Operator

Answer: C

6. A _____ is a logical destination to which a backup job is targeted.

- A.volume pool
- B.media set
- C.tape set
- D.media pool

Answer: B

7. You are tasked with creating a backup job of two Windows 2000 Servers: ServerA and ServerB. Each server has two volumes: C: and D:.

Which is a valid resource order for a nightly backup job?

- A.ServerB D:, ServerA C:, ServerB C:, ServerA D:, ServerB System State, ServerA System State
- B.ServerB C:, D:, System State; ServerA C:, D:, System State
- C.ServerA C:, D:, ServerB C:, System State, ServerA System State
- D.ServerA C:, D:, Server B C:, ServerA System State; ServerB System State

Answer: B

8. You currently have an NT 4.0 SP6a computer with Backup Exec 8.6 installed. You will be performing an upgrade of the operating system to Windows 2000 along with an upgrade of Backup Exec to 10.0.

What is the recommended upgrade path?

- A.upgrade Backup Exec to 9.1, upgrade Backup Exec to 10.0, and then upgrade the operating system to Windows 2000
- B.upgrade the operating system to Windows 2000, upgrade Backup Exec to 9.1, and then upgrade Backup Exec to 10.0
- C.upgrade Backup Exec to 10.0 first, and then upgrade the operating system to Windows 2000
- D.upgrade the operating system to Windows 2000 first, and then upgrade Backup Exec to 10.0

Answer: D

9. You want to install Backup Exec into an existing SQL server instance.

Into which two instances can Backup Exec be installed? (Choose two.)

- A.Microsoft SQL Server Desktop Engine (MSDE) 2000
- B.SQL Server 7.0
- C.SQL Server 2000 SP2

D.SQL Server 2000 SP3a or later

Answer: AD

10. Which Backup Exec option enables the utilization of synthetic and off-host backups?

- A.SAN Shared Storage Option (SSO)
- B.Central Admin Server Option (CASO)
- C.Advanced Disk-based Backup Option (ADBO)
- D.Advanced Open File Option (AOFO)

Answer: C

11. Backup Exec catalogs are written in which two locations? (Choose two.)

- A.tape
- B.disk
- C.database
- D.job history

Answer: AB

12. You are installing Backup Exec for the first time. You want to use an existing account for the Backup Exec services.

Which right needs to be granted to this account?

- A.Shut down the system
- B.Initiate external program
- C.Allow Logon locally
- D.Logon as a Service

Answer: D

13. When installing Backup Exec, you receive a message in the install log stating that Backup Exec failed to install third party products.

Which two third party products does Backup Exec 10.0 install? (Choose two.)

- A.MSDE 2000
- B.Direct X
- C.Java Runtime
- D.SQL Server 2000 SP2

Answer: AC

14. When setting the default scheduling options from the Tools Options menu, the Effective Date is defined as the _____.

- A.only date when jobs will run
- B.first date when only backup jobs will run
- C.date when Backup Exec was installed
- D.first date when all new jobs will run, unless the Effective Date has been changed in the individual jobs
- E.first date when all new jobs will run, regardless of the Effective Date selected in the individual jobs

Answer: D

15. Which three items does the Backup Exec Environment Check Utility check prior to installing Backup Exec 10.0? (Choose three.)

- A.the current version of MDAC
- B.Port availability
- C.SMTP Server availability
- D.the presence of a CD-ROM
- E.Domain Administrative Privileges

Answer: ABE

16. You want to install Backup Exec 10.0 for Windows Servers from a command line using silent mode. The CD is located on drive D:.

Which command will accomplish this?

- A.D:WINNTINSTALLBEsetup /TS: /USER:administrator /DOM:DOMAIN /PASS:password /SNO:valid_serial_number s
- B.D:WINNTINSTALLBEsetup /TS: /USER:administrator /DOM:DOMAIN /PASS:password /SNO:valid_serial_number
- C.D:WINNTINSTALLBEsetup /USER:administrator /DOM:DOMAIN /PASS:password /SNO:valid_serial_number s
- D.D:WINNTINSTALLBEsetup

Answer: A

17. A monthly template in a policy needs to take precedence over a weekly template in the same policy. You want to create a template rule to specify this precedence.

Where do you configure the template rule?

- A.in the rules window, select Add
- B.in the policy window, select New Rule
- C.in the policy window, select Edit Template, and then select New Rule
- D.in the Job Setup task pane, select New Rule from the File menu

Answer: B
