SUN SCMAD SUN Other Certifications

310-100: Sun Certified Data Management Engineer

Practice Exam: 310-100 Exams

Exam Number/Code: 310-100

Exam Name: Sun Certified Data Management Engineer

Questions and Answers: 138 Q&As

([SCMAD SUN Other Certifications](#))

"Sun Certified Data Management Engineer", also known as 310-100 exam, is a SUN certification. With the complete collection of exam questions,

Exam : [310-100](#)

Just4Study has assembled to take you through 138 Q&As to your 310-100 exam preparation. In the 310-100 exam resources, you will cover every field and category in SUN Certification helping to ready you for your successful SUN Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for SUN SCMAD 310-100 (Sun Certified Data Management Engineer) examination of original title complete coverage. 310-100 exam questions help you pass the exam.

Just4Study 310-100 Feature:

* High quality - High quality and valued for the 310-100 Exam: 100% Guarantee to Pass Your 310-100 exam and get your SCMAD certification.

* Authoritative - Authoritative braindumps with complete details about 310-100 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed SCMAD resources, you will minimize your **SUN SCMAD** cost and be ready to pass your 310-100 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free SCMAD demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 310-100 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 310-100 Demo Download

Just4Study offers free demo for SCMAD 310-100 exam (Sun Certified Data Management Engineer). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **SUN SCMAD SUN Other Certifications 310-100** examination of original title complete coverage. 310-100 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 310-100

Exam Name: Sun Certified Data Management Engineer([SCMAD SUN Other Certifications](#))

Questions and Answers: 138 Q&A

SUN 310-100 Test belongs to one of the SCMAD SUN Other Certifications certified test, if needs to obtain the SCMAD SUN Other Certifications certificate, you also need to participate in other related test, the details you may visit the [SCMAD SUN Other Certifications](#) certified topic, in there, you will see all related SCMAD SUN Other Certifications certified subject of examination.

Just4Study professional provide SCMAD SUN Other Certifications 310-100 the newest Q&A, completely covers 310-100 test original topic. With our complete SCMAD SUN Other Certifications resources, you will minimize your SCMAD SUN Other Certifications cost and be ready to pass your 310-100 tests on Your First Try, 100% Money Back Guarantee included!

Exam : SUN 310-100

Title : Sun Certified Data Management Engineer

1. Which three items are included in drive hardware topology? (Choose three.)

- A. heads
- B. tracks
- C. buffer
- D. cylinders

Answer: ABD

2. Which two are features of RAID 1? (Choose two.)

- A. It requires double the storage.
- B. Loss of a drive results in almost no performance change.
- C. Performance will always suffer compared to non-mirrored data.
- D. Sun implements only software RAID 1 which requires sending two write requests.

Answer: AB

3. If a loop integrity test passes, yet systems errors continue to be reported at low rates, what is a potential cause of this symptom?

- A. dead disk drive
- B. dead FC-AL Hub
- C. load-related failure
- D. dead GBIC on a primary path

Answer: C

4. In a drive replacement procedure, what will the Recovery Guru perform automatically?

- A. It will check if the host system is shutdown.
- B. It will check if the drive is installed and spun up.
- C. It will check if the hot spare is in standby status.
- D. It will check if the drive has the correct firmware.

Answer: B

5. What would you see on the partition table of a disk that is in the free disk pool?

- A. the root partition
- B. the swap partition
- C. the home partition
- D. a private region partition

Answer: D

6. Which describes RAID 5?

- A. mirroring
- B. striping plus mirroring
- C. striping with dedicated parity
- D. striping with distributed parity

Answer: D

7. Which Solstice DiskSuite technology writes the same data to two or more disk drives at the same time?

- A. striping
- B. mirroring
- C. UFS logging
- D. concatenating

Answer: B

8. Which two statements are true about Solstice DiskSuite 2? (Choose two.)

- A. It supports all SPARCstorage Array disks.
- B. It runs on all SPARC and x86 systems running Solaris.
- C. It is compatible with all prior versions of Solstice DiskSuite.
- D. It is backward compatible with all previous Online Solstice DiskSuite 2.0.1 and 3.0 products.

Answer: AB

9. Which three features does Solstice DiskSuite provide? (Choose three.)

- A. DiskSet
- B. Disk Mirroring
- C. Disk Concatenation
- D. Automatic Data Recovery

Answer: ABC

10. Which RAID configuration can hot spare drives be used with?

- A. RAID 0
- B. RAID 1 only
- C. RAID 3 only
- D. RAID 1, RAID 3, and RAID 5

Answer: D

11. In what directory are the Solstice DiskSuite binaries located?

- A. "/sbin"
- B. "/usr/opt"
- C. "/var/opt"
- D. "/usr/sbin"

Answer: B

12. Which file is the default event log file in RAID Manager 6?

- A. "/etc/syslog.conf"
- B. "/kernel/drv/sd.conf"
- C. "/usr/lib/osa/rmlog.log"
- D. "/kernel/drv/syslog.conf"

Answer: C

13. Which types of partitioning or slicing do Solstice DiskSuite and Volume Manager use?

- A. soft and soft respectively

- B. soft and hard respectively
- C. hard and soft respectively
- D. hard and hard respectively

Answer: C

14. What is the name of Volume Manager's kernel thread daemon?

- A. "vxio"
- B. "vxrelo"
- C. "vxrelo"
- D. "vxconfigd"

Answer: A

15. What would be the most likely performance difference between software RAID 5 and RAID 1+0 for an application that was 100% small reads?

- A. +/- 10%
- B. +/- 11 to 25%
- C. +/- 26 to 50%
- D. +/- 51 to 100%

Answer: A

16. Which three are characteristics of an RM6 hot spare drive? (Choose three.)

- A. Hot spare drives are not dedicated to a specific drive group or LUN.
- B. Hot spare drives must be of equal or greater capacity than the disks in the array.
- C. There can be multiple drive failures in a single LUN if there are enough hot spares available.
- D. After a hot spare has been activated, the administrator must issue a command to evacuate the contents of the hot spare after the failed drive has been replaced and the recovery process is complete.

Answer: ABC

17. What is the function of the RAID Manager RDAC driver?

- A. It allows manual disk replacement.
- B. It allows manual controller fail-over.
- C. It manages automatic disk replacement.
- D. It manages automatic controller fail-over.

Answer: D

18. How many free partition table entries must a disk have before being initialized or encapsulated?

- A. 1
- B. 2
- C. 3
- D. 7

Answer: B

19. Which statement is true about creating a hot spare drive?

- A. The hot spare drive must be as big as the largest configured LUN.
- B. The hot spare drive must be allocated from the unassigned drive group.
- C. The hot spare drive is most commonly used to add redundancy to a RAID 0 LUN.
- D. The hot spare drive can be created as an add-on LUN if there is available space.

Answer: B

20. A subdisk is a sub-section of which part of a Volume Manager disk?

- A. VTOC
- B. file System
- C. public region

D. private region

Answer: C
