### Cisco CCIE

#### 350-050: CCIE Wireless Beta Written Exam

**Practice Exam:** 350-050 Exams

**Exam Number/Code:** 350-050

**Exam Name:** CCIE Wireless Beta Written Exam

**Questions and Answers:** 240 Q&As

( [CCIE](#) )

Exam : [350-050](#)

"CCIE Wireless Beta Written Exam", also known as 350-050 exam, is a Cisco certification. With the complete collection of exam questions, Just4Study has assembled to take you through 240 Q&As to your 350-050 exam preparation. In the 350-050 exam resources, you will cover every field and category in Cisco Certification helping to ready you for your successful Cisco Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Cisco CCIE 350-050 (CCIE Wireless Beta Written Exam) examination of original title complete coverage. 350-050 exam questions help you pass the exam.

#### **Just4Study 350-050 Feature:**

\* High quality - High quality and valued for the 350-050 Exam: 100% Guarantee to Pass Your 350-050 exam and get your CCIE certification.

\* Authoritative - Authoritative braindumps with complete details about 350-050 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed CCIE resources, you will minimize your **Cisco CCIE** cost and be ready to pass your 350-050 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free CCIE demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 350-050 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 350-050 Demo Download**

Just4Study offers free demo for CCIE 350-050 exam (CCIE Wireless Beta Written Exam). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Cisco CCIE 350-050** examination of original title complete coverage. 350-050 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 350-050**

Exam Name: CCIE Wireless Beta Written Exam( CCIE )

Questions and Answers: 240 Q&A

[Cisco 350-050](#) Test belongs to one of the CCIE certified test, if needs to obtain the CCIE certificate, you also need to participate in other related test, the details you may visit the [CCIE](#) certified topic, in there, you will see all related CCIE certified subject of examination.

Just4Study professional provide CCIE 350-050 the newest Q&A, completely covers 350-050 test original topic. With our complete CCIE resources, you will minimize your CCIE cost and be ready to pass your 350-050 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 350-050

Title : CCIE Wireless Beta Written Exam

1. Which statement is true about the procedure for a lightweight AP to successfully establish a connection to a controller?

- A. AP sends its certificate to the RADIUS server. AP then authenticates the controller certificate as valid.
- B. AP sends its certificate to the controller. AP then authenticates the received Cisco WLC certificate as valid.
- C. AP send its certificate to the RADIUS server. AP then authenticates the RADIUS certificate as valid.
- D. AP authenticates the received Cisco WLC certificate as valid. AP then sends its certificate to the controller.

Answer: B

2. Which method can be used by the Cisco Wireless LAN Controller system to determine whether there is a rogue AP or not?

- A. observation of unencrypted traffic that should be encrypted for an SSID that it owns
- B. detection of an organizationally unique identifier not assigned to Cisco devices
- C. detection of a AP MAC address not registered to it
- D. rejection of a SNMP poll by the rogue AP

Answer: C

3. Which item is the main difference between an RF planning tool and a site survey tool?

- A. an RF planning tool is generally much more expensive
- B. an RF planning tool will measure the RF coverage by AP locations, indicating antennas and output power
- C. an RF planning tool does a better job of showing actual -65 dBm edges
- D. an RF planning tool is a predictive tool, where a site survey tool measures the actual RF environment

Answer: D

4. Your company has just completed constructing a new automobile parts manufacturing facility IT manager would like to implement voice over WLAN. During your initial walkthrough, you see numerous highly reflective surfaces on the manufacturing equipment and in the building construction itself. What potential problem exists that should be accounted for during your site survey?

- A. RF signal absorption
- B. multipath distortion
- C. PF signal attenuation
- D. Fresnel zone impedance

Answer: B

5. What is the reason that interference is generally more of an issue at the receiver than the transmitter?

- A. Signal levels at the receiver are logarithmically less than signal levels at the transmitter?
- A. Signal levels at the receiver are logarithmically less than signal levels at the

transmitter.

- B. There are more receivers than transmitters.
- C. Signal levels at the transmitter are logarithmically less than signal levels at the receive.
- D. It is unusual in wireless to receive and transmit at the same time, therefore the receiver can't detect the interference.

Answer: A

6. Which device controls Radio Resource Management in a centralized WLAN environment with multiple WLCs configured for mobility?

- A. the AP that wins the RF election
- B. the RF group leader
- C. all the controllers in the same mobility group
- D. the controller to which APs are currently registered

Answer: B

7. Which three guidelines are recommended by Cisco for proper VoIP operation? (Choose three.)

- A. delay should not exceed 150 ms (one-way)
- B. packet loss should not exceed 0.1%
- C. delay variation (jitter) should not exceed 30 ms
- D. packet loss should not exceed 1%

Answer: ACD

8. For the following commands, which one can determine the health of a RADIUS server on an autonomous AP?

- A. show radius statistics
- B. debug radius-server
- C. show radius table {server\_ip}
- D. show radius-server {server\_ip}

Answer: A

9. By which DHCP option may a list of wireless LAN controllers be offered to the AP during the Layer 3 LWAPP Join process?

- A. 6
- B. 43
- C. 44
- D. 46

Answer: B

10. An access point(AP) is a specially configured node on a wireless local area network (WLAN). How does an access point dynamically learn the address of an active AP acting as a WDS?

- A. Layer 3 multicast
- B. Layer 3 unicast
- C. Layer 2 multicast
- D. Layer 2 broadcast

Answer: C
