3COM 3Com Certification

3M0-212: Certified Enterprise LAN Pre-Sales Expert version 3.2

Practice Exam: 3M0-212 Exams

Exam Number/Code: 3M0-212

Exam Name: Certified Enterprise LAN Pre-Sales Expert version 3.2

Questions and Answers: 99 Q&As

([3Com Certification](#))

"Certified Enterprise LAN Pre-Sales Expert version 3.2", also known as 3M0-212 exam, is a 3COM certification. With the complete collection of exam questions, Just4Study has assembled to take you through 99 Q&As to your 3M0-212 exam preparation. In the 3M0-212 exam resources, you will cover every field and category in 3COM Certification helping to ready you for your successful 3COM Certification.

Exam : [3M0-212](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for 3COM 3Com Certification 3M0-212 (Certified Enterprise LAN Pre-Sales Expert version 3.2) examination of original title complete coverage. 3M0-212 exam questions help you pass the exam.

Just4Study 3M0-212 Feature:

* High quality - High quality and valued for the 3M0-212 Exam: 100% Guarantee to Pass Your 3M0-212 exam and get your 3Com Certification certification.

* Authoritative - Authoritative braindumps with complete details about 3M0-212 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed 3Com Certification resources, you will minimize your **3COM 3Com Certification** cost and be ready to pass your 3M0-212 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free 3Com Certification demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 3M0-212 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 3M0-212 Demo Download

Just4Study offers free demo for 3Com Certification 3M0-212 exam (Certified Enterprise LAN Pre-Sales Expert version 3.2). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **3COM 3Com Certification 3M0-212** examination of original title complete coverage.3M0-212 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 3M0-212

Exam Name: Certified Enterprise LAN Pre-Sales Expert version 3.2(3Com Certification)

Questions and Answers: 99 Q&A

[3COM 3M0-212](#) Test belongs to one of the 3Com Certification certified test, if needs to obtain the 3Com Certification certificate, you also need to participate in other related test, the details you may visit the [3Com Certification](#) certified topic, in there, you will see all related 3Com Certification certified subject of examination.

Just4Study professional provide 3Com Certification 3M0-212 the newest Q&A, completely covers 3M0-212 test original topic. With our complete 3Com Certification resources, you will minimize your 3Com Certification cost and be ready to pass your 3M0-212 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : 3COM 3M0-212

Title : 3Com Certified Enterprise LAN Pre-Sales Expert version 3.2

1. Your Maluti University (MU) data center design uses a single Switch 8814 to support the campus backbone, the server farm and the wiring-closet connections in Building 9. Which two current Switch 8800 features address Maluti University (MU) network requirements? (Choose two.)

- A. With no single point of failure, the switch creates a reliable, high-availability solution
- B. ATM support over OC3 provides greater data throughput on the campus backbone
- C. Cut through switching consistently provides lower latency for voice traffic on the LAN
- D. Multiple priority features ensure key applications will receive the best network response (e.g., eight priority queues per port, Weighted Random Early Detection (WRED) queuing and DiffServ support)

Answer: AD

2. Which two features are supported by all Switch 5500 models? (Choose two.)

- A. IEEE 802.1X Network Login
- B. Eight egress queues per port
- C. 24 or 48 10/100/1000 Mbps ports
- D. Hot-swappable Application Module Slot

Answer: AB

3. Which Switch 5500 model(s) supports a 96 Gbps full-duplex XRN stacking connection?

- A. Switch 5500-SI
- B. Switch 5500-EI
- C. Switch 5500G-EI
- D. All of the above

Answer: C

4. The Switch 5500 allows VLANs to be automatically assigned based on user credentials or on the MAC address of the device.

- A. True
- B. False

Answer: A

5. If you chose the Switch 5500 family for the Maluti University (MU) distribution centers, which solution would you use to connect the distribution centers to the campus data center in Building 9?

- A. Use the Switch 5500-EI PWR 28-port model (3CR17171-91) and connect the data center to the SFP slots
- B. Use the Switch 5500-EI 28 port FX model (3CR17181-91) and connect the data center to the 100BASE-X SFP transceivers
- C. Use the Switch 5500-EI 28 port model (3CR17161-91) and connect the data center to the SFP slots with

1000BASE-SX SFP transceivers

D. Use the Switch 5500G-EI 24 port model (3CR17250-91) and connect the data center to the 2-port 10G Application Media Module with 10GBASE-LR XFP Transceivers

Answer: D

6. Which two software features are supported by all Switch 5500 models? (Choose two.)

- A. OSPF
- B. PIM Sparse Mode
- C. QoS prioritization and classification
- D. RADIUS Authenticated Device Access (RADA)

Answer: CD

7. The Switch 5500G-EI supports a field-upgradeable, Power over Ethernet (PoE) power supply unit.

- A. True
- B. False

Answer: A

8. Using XRN stacking, what is the maximum number of 10/100 ports supported in a stack of Switch 5500G-EIs?

- A. 128
- B. 256
- C. 384
- D. 512

Answer: C

9. Which three features are only supported on the Switch 5500G-EI switch models? (Choose three.)

- A. Port-based VLANs
- B. 24 or 48 10/100/1000 Mbps ports
- C. PoE upgradeable power supply unit
- D. Hot-swappable Application Module Slot
- E. Four GBIC Small Form-factor Plug-in (SFP) ports

Answer: BCD

10. Which two are features only supported on the Switch 5500-EI and Switch 5500G-EI models? (Choose two.)

- A. Up to 4,094 port-based VLANs
- B. 802.1X Authentication Support
- C. IEEE 802.3af Power over Ethernet (PoE)
- D. Protected ports communicate with other protected ports for inter-VLAN communications

Answer: AC

11. If you chose the Switch 5500G-EI 24 port model (3CR17250-91) for the Maluti University (MU) distribution centers, which solution would you use to connect the distribution center to the wiring closets on the upper floors?

- A. Use the 10/100/1000BASE-T switch ports to connect the switch to the wiring closets
- B. Use 1000BASE-SX SFP Transceivers on the SFP gigabit ports to connect the switch to the wiring closets
- C. Use the 1-port 10G Application Media Module with 10GBASE-LR XFP Transceiver to connect the switch to the wiring closets
- D. Use 3Com's eXpandable Resilient Networking (XRN) Distributed Fabric technology to connect the switch to the wiring closets

Answer: B

12. Which two features are supported by all Switch 5500 models? (Choose two.)

- A. Dynamic and static routing
- B. Power over Ethernet (PoE)
- C. IEEE 802.1X Network Login

D. Hot-swappable Application Module Slot

Answer: AC

13. Only the Switch 5500G-EI supports all three XRN features: XRN Distributed Device Management (DDM), Distributed Link Aggregation (DLA) and Distributed Resilient Routing (DRR).

A. True

B. False

Answer: B

14. Which two are Layer 3 features of the Switch 5500-EI and 5500G-EI? (Choose two.)

A. Dynamic IPX routing

B. Border Gateway Protocol

C. Multicast routing PIM Sparse and Dense Mode

D. Static routes for routed environments where no routing protocol is used

Answer: CD

15. Which two are benefits of the Switch 5500 XRN Distributed Device Management (DDM) support? (Choose two.)

A. Supports up to 12 switches in a single stack

B. Creates a 12 Gbps full-duplex link between switches

C. All switches within a stack act as a single logical device

D. Resilient XRN architecture provides management access if any switch fails in a stack

Answer: CD

16. Which two hardware features are supported on the Switch 5500-EI and Switch 5500-SI switch models? (Choose two.)

A. 24 or 48 10/100 Mbps ports

B. 24 or 48 10/100/1000 Mbps ports

C. 2 Gbps, full-duplex XRN stacking link

D. Mix and match either switch in a single stack

Answer: AC

17. Which two are Layer 2 features of the Switch 5500 family? (Choose two.)

A. Rapid Spanning Tree Protocol (RSTP)

B. User definable MAC table aging period

C. Super-VLANs

D. GARP Multicast Registration Protocol (GMRP)

Answer: AB

18. Using 3Com's XRN technology, you can mix Switch 5500-SI and Switch 5500-EI model switches to create a single switch stack.

A. True

B. False

Answer: B

19. How should you prioritize traffic on a network, if both voice and video are present on the network?

A. Video and voice traffic should have equal priority

B. Video traffic should have higher priority than voice traffic

C. Voice traffic should have higher priority than video traffic

Answer: C

20. Which two features are supported on the Switch 8800? (Choose two.)

A. ATM over fiber links

B. IEEE 802.3ae 10 gigabit Ethernet

- C. IEEE 802.3af Power over Ethernet (PoE)
 - D. Store and forward and cut-through switching
- Answer: BC
