4h0-002: hyperion essbase 5 certificaton

Practice Exam: 4h0-002 Exams

Exam Number/Code: 4h0-002

Exam Name: hyperion essbase 5 certificaton

Questions and Answers: 186 Q&As

([Hyperion Solutions Certifications](#))

Exam : [4h0-002](#)

"hyperion essbase 5 certificaton", also known as 4h0-002 exam, is a Hyperion Solutions certification. With the complete collection of exam questions, Just4Study has assembled to take you through 186 Q&As to your 4h0-002 exam preparation. In the 4h0-002 exam resources, you will cover every field and category in Hyperion Solutions Certification helping to ready you for your successful Hyperion Solutions Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Hyperion Solutions Hyperion Solutions Certifications 4h0-002 (hyperion essbase 5 certificaton) examination of original title complete coverage. 4h0-002 exam questions help you pass the exam.

Just4Study 4h0-002 Feature:

* High quality - High quality and valued for the 4h0-002 Exam: 100% Guarantee to Pass Your 4h0-002 exam and get your Hyperion Solutions Certifications certification.

* Authoritative - Authoritative braindumps with complete details about 4h0-002 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Hyperion Solutions Certifications resources, you will minimize your **Hyperion Solutions Hyperion Solutions Certifications** cost and be ready to pass your 4h0-002 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Hyperion Solutions Certifications demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 4h0-002 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 4h0-002 Demo Download

Just4Study offers free demo for Hyperion Solutions Certifications 4h0-002 exam (hyperion essbase 5 certificaton). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Hyperion Solutions Hyperion Solutions Certifications 4h0-002** examination of original title complete coverage. 4h0-002 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 4h0-002

Exam Name: hyperion essbase 5 certificaton(Hyperion Solutions Certifications)

Questions and Answers: 186 Q&A

[Hyperion Solutions 4h0-002](#) Test belongs to one of the Hyperion Solutions Certifications certified test, if needs to obtain the Hyperion Solutions Certifications certificate, you also need to participate in other related test, the details you may visit the [Hyperion Solutions Certifications](#) certified topic, in there, you will see all related Hyperion Solutions Certifications certified subject of examination.

Just4Study professional provide Hyperion Solutions Certifications 4h0-002 the newest Q&A, completely covers 4h0-002 test original topic. With our complete Hyperion Solutions Certifications resources, you will minimize your Hyperion Solutions Certifications cost and be ready to pass your 4h0-002 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Hyperion Solutions 4H0-002

Title : Hyperion essbase 5 certificaton

1. What does the setting NETDELAY 500 represent?

- A. the number of times the network will retry a connection before failing and reporting an error
- B. the amount of time in seconds allowed to a Named Pipes network to establish a connection to your server
- C. the amount of time in milliseconds an unsuccessful operation waits before Essbase retries the operation
- D. the number of seconds an Agent thread waits for a resource to become available so it can perform a specific action

Answer: C

2. During calculation, what is the calculator cache used for?

- A. for storing blocks
- B. for tracking index page usage
- C. for storing dynamically calculated values
- D. for tracking calculation progress through the blocks

Answer: D

3. When would disabling data compression be recommended?

- A. when the average block density is very low (<3%).
- B. when the average block density is very high (>95%) and few consecutive repeating values exist.
- C. when the database contains many consecutive zero values or other consecutive repeating values.

Answer: B

4. The stored members in the dense dimension Scenario are Actual and Budget. Database A has Actual and Budget data loaded for all products in all markets. Database B has only the Budget data loaded. Which statement is true about Database B?

- A. The index would be half as large as Database A.
- B. Half the number of blocks exist as in Database A.
- C. Block density is reduced by 50% from Database A.
- D. Fifty percent fewer blocks would fit in the Data Cache as in Database A.

Answer: C

5. Given the Input data and the Outline in the exhibits, if Product and Market are sparse, which is an input level data block?

- A. East->Root Beer
- B. New York->Colas
- C. New York->Diet Cola

D. New York->Root Beer

Answer: ABD

6. An application on a test server is ready to be put into production. The production server already has three applications. What should you do to move the application from development to production?

- A. Use the Application | Copy command.
- B. Export data from the development application.
- C. Copy the Essbase.sec file from development to production.
- D. Copy the application directories from development to production.

Answer: B

7. If you have a production database named Sales, which files should be backed up to perform a complete system backup?

- A. sales.db
- B. sales.otn
- C. essbase.sec
- D. ess00001.ind

Answer: ACD

8. Within Database | Statistics, what does block density indicate?

- A. the actual number of blocks existing within the database
- B. the average percentage of data cells within each block that contain data
- C. the maximum possible number of blocks that could exist for this database
- D. the percentage of blocks that exist compared to the total potential number of blocks

Answer: B

9. The BeginArchive and EndArchive commands are used for which procedure?

- A. Exporting only a partial area of a database.
- B. Backing up Essbase files while Essbase is still running.
- C. Backing up Essbase files after Essbase has been shut down.
- D. Shutting down Essbase and making a complete backup of the current database.

Answer: B

10. Given that Product and Market are the only sparse dimensions, which file(s) would be restructured if a new member were added to the Product dimension?

- A. none
- B. data files only
- C. index files only
- D. both index and data files

Answer: C

11. What occurs upon execution of DISABLELOGIN in ESSCMD?

- A. All server logins are disabled.
- B. Logins to a specific database are disabled.
- C. Logins to a specific application are disabled.
- D. It logs out any users currently on a specific database.

Answer: C

12. If Committed Access is being used, which statements are true?

- A. It retains redundant data until a transaction commits.
- B. It acquires and releases Write locks as needed during the transaction.
- C. It retains Write locks on all affected blocks until the transaction commits.
- D. It does not restrict Read/Write access on data blocks during the transaction.

Answer: AC

13. What would cause fragmentation in a database?

- A. deleting a dense member from the outline
- B. deleting a sparse member from the outline
- C. changing a member formula in the outline
- D. redefining a Stored dense dimension member as Dynamic Calc (Non-Store)

Answer: B

14. What is the most efficient development tool to use for rapid deployment of formatted reports without requiring coding?

- A. Essbase Objects application
- B. basic Spreadsheet Add-In with template files
- C. Essbase Web Gateway deployed over their Intranet
- D. basic Spreadsheet Add-In with template files and Extended Spreadsheet Macros

Answer: B

15. Given the Outline in the exhibit, if Incremental Restructuring is enabled and Product and Market are the only sparse dimensions, what is the incremental restructuring implication if the Product dimension is moved after the Market dimension?

- A. none
- B. restructure deferred
- C. overrides incremental restructuring and restructures data files only
- D. overrides incremental restructuring and restructures index files only
- E. overrides incremental restructuring and restructures both index and data files

Answer: D

16. Which file descriptions are correct?

- A. basic.otl contains the outline
- B. ess00001.ind stores data blocks
- C. basic.esm is a storage manager file
- D. basic.mdb is a partition definition file
- E. ess00001.pag stores the database index

Answer: AC

17. What would defragment defrag a fragmented database?

- A. adding a dense member to the outline
- B. adding a sparse member to the outline
- C. changing a member formula in the outline
- D. redefining a Stored dense dimension member as Dynamic Calc and Store

Answer: A

18. In the Outline in the exhibit, Year and Measures are dense dimensions. Data is loaded for every Month, Measure, Market and Scenario. After a CALC ALL is run, how many blocks are there?

- A. 12
- B. 18
- C. 24
- D. 30

Answer: A

19. Given the following database statistics, what is the block size?

Dimension Name	Dense/Sparse	Number of	Number of
Members	Stored	Members	

Year Dense 20 12
Measures Dense 16 8
Product Sparse 22 19
Market Sparse 25 25
Scenario Dense 5 2
A. 192 bytes
B. 1536 bytes
C. 1600 bytes
D. 12800 bytes
Answer: B

20. If the average block density is between 10% and 90% and there are few consecutive repeating values or zeros, which data compression type is recommended?

A. RLE
B. Bit-Map
C. No Compression
Answer: B
