### Cisco Optical

#### 642-381: FoundFE Foundation Express for Field Engineers

**Practice Exam:** 642-381 Exams

**Exam Number/Code:** 642-381

**Exam Name:** FoundFE Foundation Express for Field Engineers

**Questions and Answers:** 78 Q&As

( [Optical](#) )

"FoundFE Foundation Express for Field Engineers", also known as 642-381 exam, is a Cisco certification. With the complete collection of exam questions, Just4Study has assembled to take you through 78 Q&As to your 642-381 exam preparation. In the 642-381 exam resources, you will cover every field and category in Cisco Certification helping to ready you for your successful Cisco Certification.

Exam : [642-381](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Cisco Optical 642-381 (FoundFE Foundation Express for Field Engineers) examination of original title complete coverage. 642-381 exam questions help you pass the exam.

#### **Just4Study 642-381 Feature:**

\* High quality - High quality and valued for the 642-381 Exam: 100% Guarantee to Pass Your 642-381 exam and get your Optical certification.

\* Authoritative - Authoritative braindumps with complete details about 642-381 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Optical resources, you will minimize your **Cisco Optical** cost and be ready to pass your 642-381 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Optical demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 642-381 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 642-381 Demo Download**

Just4Study offers free demo for Optical 642-381 exam (FoundFE Foundation Express for Field Engineers). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Cisco Optical 642-381** examination of original title complete coverage. 642-381 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: 642-381**

Exam Name: FoundFE Foundation Express for Field Engineers( Optical )

Questions and Answers: 78 Q&A

[Cisco 642-381](#) Test belongs to one of the Optical certified test, if needs to obtain the Optical certificate, you also need to participate in other related test, the details you may visit the [Optical](#) certified topic, in there, you will see all related Optical certified subject of examination.

Just4Study professional provide Optical 642-381 the newest Q&A, completely covers 642-381 test original topic. With our complete Optical resources, you will minimize your Optical cost and be ready to pass your 642-381 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-381

Title : Cisco(r) FoundFE Foundation Express for Field Engineers

1. Which two features are only supported when using the Cisco Router and Security Device Manager (SDM) Advanced Firewall wizard and not supported when using the Cisco SDM Basic Firewall wizard? (Choose two.)

- A. deep-packet inspections
- B. IP unicast Reverse Path Forwarding on the outside (untrusted) interface
- C. DMZ services
- D. custom inspection rules
- E. proxy authentication

Answer: CD

2. When using the Site to Site VPN wizard in Cisco Router and Security Device Manager, why would you need to create an access list using the Add a Rule screen?

- A. to open holes on the firewall to permit ISAKMP, ESP, and AH traffic
- B. to define the traffic that will be protected by IPSec
- C. to specify a range of IP addresses on the inside interface
- D. to specify the remote-peer IP address range
- E. to enable split tunneling

Answer: B

3. After performing a security audit in Cisco Router and Security Device Manager (SDM), you receive this as one of the results: Enable Unicast RPF on all outside interfaces - Not Passed

Which Cisco SDM configuration wizard can be use to resolve this?

- A. Easy VPN Server
- B. Basic Firewall
- C. Edit Interface/Connection
- D. Site to Site VPN
- E. Routing
- F. NAT

Answer: B

4. Refer to the exhibit. According to the Cisco VPN Client software outputs shown, which two statements are correct about the connection entry named isr? (Choose two.)

- A. HMAC-SHA1 is used to authenticate the remote users.
- B. Preshared key is used to authenticate the remote peer.
- C. AES is used to provide data confidentiality.
- D. The Cisco VPN Client software is assigned an internal IP address of 192.168.1.1.
- E. The PC that is running the Cisco VPN Client software will not have access to the local LAN once the PC is

connected into the VPN.

Answer: BE

5. When using Cisco Router and Security Device Manager to configure AAA login authentication policies, which four methods are available? (Choose four.)

- A. group RADIUS: use a list of RADIUS hosts
- B. group TACACS+: use a list of TACACS+ hosts
- C. enable: use enable password
- D. otp: use one-time password
- E. local: use local database
- F. default: use line password

Answer: ABCE

6. You are migrating the network design from using point security products (perimeter router, firewall, VPN router, IPS) to an integrated security solution using the Cisco ISR. During the migration process, you determine that you need to improve the VPN performance. What can you do?

- A. Upgrade the Cisco IOS image on the ISR to the V3PN bundle.
- B. Increase the RAM on the ISR.
- C. Install the AIM-VPN/EP11-PLUS on the ISR.
- D. Use AES encryption instead of 3DES.
- E. Enable transparent tunneling using IPSec over TCP.
- F. Enable transparent tunneling using IPSec over UDP.

Answer: C

7. Remote-access VPN users are using Cisco VPN Client software. Which VPN configuration option in the Cisco Router and Security Device Manager should be enabled to allow the users to connect?

- A. SSL VPN
- B. Easy VPN Remote
- C. Easy VPN Server
- D. Dynamic Multipoint VPN
- E. GRE over IPSec
- F. V3PN

Answer: C

8. Which four features can be configured using Cisco Router and Security Device Manager version 2.1.1? (Choose four.)

- A. IP multicast routing (PIM)
- B. IPS
- C. Easy VPN Remote and Easy VPN Server
- D. static routes and IGP routing protocols (OSPF, RIP, EIGRP)
- E. SSL VPN (WebVPN)
- F. AAA

Answer: BCDF

9. The Cisco Aironet 802.11a/b/g Wireless LAN Client Adapter has two LEDs. Which two situations indicate that the card is associated to an access point and is working properly? (Choose two.)

- A. green LED off; amber LED solid
- B. green LED off; amber LED blinking sporadically
- C. green LED blinking fast; amber LED blinking fast
- D. green LED blinking slowly; amber LED blinking slowly
- E. green LED blinking slowly; amber LED blinking fast

Answer: CD

10. When will you need to enable the transparent tunneling feature on the Cisco VPN Client software?

- A. to enable DMVPN
- B. to enable dynamic routing over the IPsec tunnel using GRE
- C. to enable V3PN
- D. if the IPsec-protected traffic is going through a router that is performing NAT or PAT
- E. if IPsec is using tunnel mode instead of transport mode

Answer: D

11. Which two statements best describe the wireless implementation of Cisco Aironet root and non-root bridging? (Choose two.)

- A. Point-to-point access points can be used if one is root and the other is non-root.
- B. WGB can be used with an access point if the distance is less than one mile.
- C. Root mode must be enabled only on one side in a point-to-point link to interoperate with other vendors and comply with 802.11.
- D. Up to 17 non-root bridges can associate to a root bridge.
- E. Point-to-point WGB can be used if total number of PCs is fewer than eight.

Answer: BD

12. Refer to the exhibit. You are asked to implement a network design that consists of two sites, the main office and one branch office connected via the Internet. Communications between these sites must be secure. The main office site also supports 30 local users and 15 remote mobile workers. Before gaining access to the internal network, both the local users and the mobile workers should be authenticated using a scalable solution. Before you begin the implementation, you need to identify which security component is missing in the design.

- A. Cisco VPN 3000 Series Concentrator
- B. ACS
- C. network-based IDS
- D. Cisco PIX Security Appliance
- E. 802.1x authenticator
- F. CBAC on the perimeter router

Answer: B

13. When using Cisco Router and Security Device Manager (SDM) to configure IPS, what must you do first before you can select Configure > Signature to edit any signatures?

- A. Select Configure > Global Settings to enable IPS globally on the router.
- B. Select Configure > Global Settings to disable the Failed Closed option.
- C. Select Configure > Global Settings to point Cisco SDM to the ips.tar file in the router Flash memory.
- D. Select Configure > Rules to create the inbound and/or outbound filter to determine which traffic will be scanned by IPS.
- E. Select Configure > Rules to enable an interface for inbound and/or outbound IPS.

Answer: E

14. Which two statements best describe the installation of Cisco Aironet LAN Client Adapters? (Choose two.)

- A. Cisco ACAU automates the deployment of Cisco ADU.
- B. Cisco ACAU automates the deployment of Cisco ACU.
- C. Cisco ADU is for the 802.11a/b/g radio client card.
- D. Cisco ACU is for the 802.11a/b/g radio client card.

Answer: AC

15. Which two items have the most influence on an outdoor wireless antenna bridge-path installation? (Choose two.)

- A. snow
- B. Earth's curvature
- C. lightning
- D. Fresnel zone

E. rain

Answer: BD
