

## 642-651 braindumps

### Cisco WAASSE

**642-651: Cisco Wide Area Application Services for System Engineers exam**

**Practice Exam:** 642-651 Exams

**Exam Number/Code:** 642-651

**Exam Name:** Cisco Wide Area Application Services for System Engineers exam

**Questions and Answers:** 60 Q&As

( [WAASSE](#) )

Exam : [642-651](#)

"Cisco Wide Area Application Services for System Engineers exam", also known as 642-651 exam, is a Cisco certification. With the complete collection of exam questions, Just4Study has assembled to take you through 60 Q&As to your 642-651 exam preparation. In the 642-651 exam resources, you will cover every field and category in Cisco Certification helping to ready you for your successful Cisco Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Cisco WAASSE 642-651 (Cisco Wide Area Application Services for System Engineers exam) examination of original title complete coverage. 642-651 exam questions help you pass the exam.

#### **Just4Study 642-651 Feature:**

\* High quality - High quality and valued for the 642-651 Exam: 100% Guarantee to Pass Your 642-651 exam and get your WAASSE certification.

\* Authoritative - Authoritative braindumps with complete details about 642-651 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed WAASSE resources, you will minimize your **Cisco WAASSE** cost and be ready to pass your 642-651 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free WAASSE demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 642-651 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 642-651 Demo Download**

Just4Study offers free demo for WAASSE 642-651 exam (Cisco Wide Area Application Services for System Engineers exam). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Cisco WAASSE 642-651** examination of original title complete coverage.642-651 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: 642-651**

Exam Name: Cisco Wide Area Application Services for System Engineers exam( WAASSE )

Questions and Answers: 60 Q&A

[Cisco 642-651](#) Test belongs to one of the WAASSE certified test, if needs to obtain the WAASSE certificate, you also need to participate in other related test, the details you may visit the [WAASSE](#) certified topic, in there, you will see all related WAASSE certified subject of examination.

Just4Study professional provide WAASSE 642-651 the newest Q&A, completely covers 642-651 test original topic. With our complete WAASSE resources, you will minimize your WAASSE cost and be ready to pass your 642-651 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Cisco 642-651

Title : Cisco Wide Area Application Services for System Engineers

1. Your customer's Cisco WAAS design calls for the Central Manager to be deployed on the Core WAE, which is a WAE-612 with 2GB of RAM. The customer initially configured the WAE as an application accelerator, and then issued the device mode central-manager command to enable Central Manager service. Now the customer reports that the WAE is no longer accelerating traffic. What is the problem?

- A. The Central Manager and application accelerator cannot be deployed on the same WAE.
- B. At least 4GB of RAM must be installed for the WAE to serve as both Central Manager and application accelerator.
- C. The device mode central-manager command must be issued before the device mode application-accelerator command.
- D. Central Manager is consuming too much CPU time on the WAE. The Central Manager service should be implemented on a less-utilized edge WAE.

Answer: A

2. Your customer is using PBR as the interception method on its routers. Which mechanism would you recommend to ensure WAE availability and failover if a WAE fails?

- A. enable NetFlow to track WAE appliances
- B. enable IP SLAs to track WAE appliances
- C. nothing, PBR automatically tracks WAE appliances
- D. nothing, PBR does not support the tracking of WAE appliances

Answer: B

3. Which two functions does the Central Manager provide in a Cisco WAAS environment? (Choose two.)

- A. application acceleration
- B. management of CIFS servers
- C. application statistics monitoring
- D. configuration backup and restore
- E. policy configuration and distribution

Answer: CE

4. Your customer is using firewalls. What must be permitted to pass through the firewalls in order to allow WAE auto-discovery?

- A. TCP options
- B. TCP port 139
- C. TCP port 445
- D. TCP SYN-ACK with data

Answer: A

5. In a Cisco WAAS environment, which TCP connection establishment messages should you examine if your customer has sent you a TCP protocol trace and asked for your help in understanding why the WAE appliances are failing to negotiate the correct, optimized policy?

- A. SYN and FIN
- B. SYN and ACK
- C. SYN and SYN ACK
- D. ACK and SYN ACK

Answer: C

6. Which two options correctly identify the WAE file services integration modes available in Cisco WAAS? (Choose two.)

- A. transparent, in which the WAE appears as a node on the remote office LAN
- B. transparent, in which the WAE does not appear as a node on the remote office LAN
- C. non-transparent, in which the WAE appears as a node on the remote office LAN
- D. non-transparent, in which the WAE does not appear as a node on the remote office LAN

Answer: BC

7. When using PBR, what do you need to configure to enable failover?

- A. QoS
- B. MPLS
- C. IP SLAs
- D. NetFlow

Answer: C

8. Your customer has purchased multiple Cisco WAE appliances, but does not want to dedicate one WAE for management purposes only. How would you advise this customer?

- A. There must be at least one Central Manager available for configuration and management tasks.
- B. The data center WAE can be used for both the Central Manager and Application Accelerator roles.
- C. There is no need for a dedicated Central Manager; all configuration tasks can be performed on the application accelerators using the WAE device CLI and GUI.
- D. If one of the WAE appliances is configured as the Central Manager, then later, after all application accelerators are registered and on line, the Central Manager WAE can be reconfigured as an application accelerator.

Answer: A

9. What are three benefits of using the Cisco WAE file blocking feature? (Choose three.)

- A. eliminates data redundancy
- B. reduces the use of network resources
- C. minimizes the transfer of unsanctioned data
- D. prevents multiple users from attempting to edit the same file
- E. controls which file types are stored on the data center file server
- F. ensures that files cannot be edited until they are synchronized between the branch and the data center

Answer: BCE

10. In a WAAS Application Traffic Policy, what are three valid match conditions for traffic classifiers? (Choose three.)

- A. IP address
- B. routed protocol
- C. routing
- D. subnet
- E. TCP port
- F. UDP port

Answer: ADE

11. How can you monitor optimization statistics for a given application across multiple Cisco WAE devices?

- A. Create a device group for all WAE devices on which that application is optimized.
- B. Create a location group for all WAE devices on which that application is optimized.
- C. Create a separate application traffic policy for each application.
- D. Ensure that each application resides on a different subnet.

Answer: A

12. You have configured a Central Manager WAE cluster for your customer. After a technician accidentally unplugs the power cord from the primary Central Manager WAE, the network administrator calls you to complain that the standby Central Manager WAE did not automatically assume the primary role. What should you tell this administrator?

- A. You should verify that the datafeed.pollrate setting is configured properly.
- B. You should make sure the two Central Manager WAE appliances are on the same subnet
- C. You must manually copy the Central Manager database to the standby Central Manager WAE.
- D. You must manually initiate failover and fallback processes on the WAE.

Answer: D

13. Which LAN traffic management feature is fully supported by Cisco WAAS?

- A. intrusion detection system
- B. QoS
- C. NBAR
- D. MPLS

Answer: B

14. When you size a Cisco WAAS solution, you should assume that how many of the total number of concurrent TCP connections per user will be optimized?

- A. 1-2
- B. 4-7
- C. 14-20
- D. 25-40

Answer: B

15. How does Cisco WAAS advanced compression DRE improve on traditional LZ compression?

- A. by removing the transmission of previously-seen data
- B. by pre-positioning often-used file segments on the edge WAE appliances
- C. by comparing hashes of each file version to avoid unnecessary file synchronization
- D. by implementing a more aggressive, hardware-intensive version of the LZ compression algorithm

Answer: A
