Exam : Cisco 646-588

Title : Cisco(r) Advanced Wrieless LAN for Account Managers

1. Your customer says, "Mobility services are not a budget priority. If we need mobility services later, we can always expand our network then." Which of the following statements would be your best response?

- A. A pervasive deployment of the Cisco Unified Wireless Network solution with integrated security services delivers the required level of security that allows you to proactively secure your business.
- B. Seizing this opportunity before the competition will allow you to be more proactive and set the business pace.
- C. It will be difficult to react quickly when a competitor deploys mobility services. If you wait, you will need to upgrade your network and deploy the service at the same time.
- D. The costs of a wireless network are very likely to rise in the future. Customers are much better off in the long term to invest in a WLAN today.

Answer: C

2. A customer in the manufacturing business is looking to track the performance of high-value assets within the facility. Which product should be recommended?

- A. Cisco 1000 Series lightweight access point
- B. Cisco 1400 Series wireless bridge
- C. Cisco 1500 Series lightweight outdoor mesh access point
- D. Cisco 2700 Series wireless location appliance

Answer: D

3. Which of the following situations is an example of location-based services being used in a wireless network?

- A. A university can provide secure access to visitors regardless of where they move about on campus.
- B. A healthcare organization complies with the Health Insurance Portability and Accountability Act (HIPAA).
- C. A financial services firm can determine whether a server is in or out of use at any point in time.
- D. A retail store improves communications among its employees regardless of their location on the sales floor.

Answer: C
