Nortel NCTS

920-180: ncts real time networking

Practice Exam: 920-180 Exams

Exam Number/Code: 920-180

Exam Name: ncts real time networking

Questions and Answers: 154 Q&As

([NCTS](#))

Exam : [920-180](#)

"ncts real time networking", also known as 920-180 exam, is a Nortel certification. With the complete collection of exam questions, Just4Study has assembled to take you through 154 Q&As to your 920-180 exam preparation. In the 920-180 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Nortel NCTS 920-180 (ncts real time networking) examination of original title complete coverage. 920-180 exam questions help you pass the exam.

Just4Study 920-180 Feature:

* High quality - High quality and valued for the 920-180 Exam: 100% Guarantee to Pass Your 920-180 exam and get your NCTS certification.

* Authoritative - Authoritative braindumps with complete details about 920-180 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed NCTS resources, you will minimize your **Nortel NCTS** cost and be ready to pass your 920-180 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free NCTS demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 920-180 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 920-180 Demo Download

Just4Study offers free demo for NCTS 920-180 exam (ncts real time networking). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Nortel NCTS 920-180** examination of original title complete coverage.920-180 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 920-180

Exam Name: ncts real time networking(NCTS)

Questions and Answers: 154 Q&A

[Nortel 920-180](#) Test belongs to one of the NCTS certified test, if needs to obtain the NCTS certificate, you also need

to participate in other related test, the details you may visit the [NCTS](#) certified topic, in there, you will see all related NCTS certified subject of examination.

Just4Study professional provide NCTS 920-180 the newest Q&A, completely covers 920-180 test original topic. With our complete NCTS resources, you will minimize your NCTS cost and be ready to pass your 920-180 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Nortel 920-180

Title : NCTS Real Time Networking

1. The FRF.11 specification is associated with which aspect of real-time networking?

- A. Frame Relay QoS
- B. Frame Fragmentation
- C. Frame Relay Voice
- D. Frame Relay Service Category

Answer: C

2. Which tasks must be performed by NAT devices to support H.323 over UDP? (Choose two.)

- A. recalculation of the H.323 Security code
- B. recalculation of the transport layer checksum
- C. alteration of IP addresses embedded in the H.323 packet
- D. H.323 Gatekeeper tasks (i.e. NAT must also be H.323 Gatekeeper)

Answer: BC

3. Which is a difference between basic NAT and NAPT?

- A. NAPT creates dynamic bindings but basic NAT does NOT.
- B. NAPT supports full cone operation but basic NAT does NOT.
- C. Basic NAT does stateful packet inspection and NAPT does NOT.
- D. Basic NAT has a one-to-one mapping of IP addresses and NAPT supports a many-to-one mapping.

Answer: D

4. Which application can NOT be implemented using SUBSCRIBE/NOTIFY when using SIP protocol?

- A. Codec Re-negotiation
- B. Keypad Press Reporting
- C. Message Waiting Indication
- D. Presence (i.e., "Friends list")

Answer: A

5. In an H.248 connection model, which is the definition of a context?

- A. Contexts represent the different phases of call setup.
- B. Contexts represent the segregation of call server domains.
- C. Contexts represent associations between collections of terminations.
- D. Contexts represent the difference between signaling traffic, bearer traffic and administration traffic for a device.

Answer: C

6. A customer currently is running a SONET UPSR network and would like to upgrade to RPR. How does RPR improve bandwidth efficiency over SONET UPSR?

- A. RPR uses VLANS
- B. RPR has Spatial reuse
- C. RPR is connectionless
- D. RPR uses Ethernet Headers

Answer: B

7. Which feature is common to both TCP and RTP?

- A. multicast
- B. error recovery
- C. session protocol
- D. reliable connection
- E. flow/congestion control

Answer: C

8. Click on the Exhibit button.

In a typical RTSP operation what type of protocol will be used with transaction C?

- A. RTP
- B. RTCP
- C. HTTP
- D. RTSP

Answer: D

9. What is a 3G cellular technology?

- A. Advanced Mobile Phone Service (AMPS)
- B. Global System for Mobile Communications (GSM)
- C. General Packet Radio Service (GPRS)
- D. Code Division Multiple Access (CDMA)
- E. Universal Mobile Telecommunications Service (UMTS)

Answer: E

10. Which three components are H.323 endpoints? (Choose three.)

- A. Gatekeeper
- B. Terminal
- C. Gateway
- D. Multipoint Control Unit (MCU)
- E. Security Relay

Answer: BCD

11. What technology allows a SONET ring to act like the backplane of an Ethernet switch?

- A. TDI
- B. STS
- C. RPR
- D. VLAN

Answer: C

12. Which is the correct definition of STP as applied to an Ethernet switch?

- A. Signal Transfer Point
- B. Simple Timing Protocol
- C. Spanning Tree Protocol
- D. Switch Transaction Protocol

Answer: C

13. Which protocol is used for establishing media streams in H.323?

- A. G.711
 - B. H.225.0
 - C. H.245
 - D. H.450
- Answer: C

14. How do end users connect to an Optical Ethernet network?

- A. through a DS1 interface
- B. through a DS3 interface
- C. through an optical SONET interface
- D. through a variety of Ethernet interfaces

Answer: D

15. Several RTP streams can be combined into a single stream. There are two sessions with SSRC=6 and SSRC=23. Which are possible new session numbers? (Choose two.)

- A. 6
- B. 17
- C. 23
- D. 53

Answer: BD

16. Which protocols are used to detect the failures that impact Label Switch Path (LSP) traffic?

- A. RSVP-TE Hello and ITU-T Y1711
- B. OSPF-TE keep-alive and ATM PNNI
- C. RSVP-TE Hello and OSPF keep-alive
- D. ITU-T Y1711 and OSPF-TE keep-alive

Answer: A

17. Click on the Exhibit button.

In a typical RTSP operation what type of protocol will be used with transaction A?

- A. RTP
- B. RTCP
- C. HTTP
- D. RTSP

Answer: C

18. When is Multiprotocol Label Switching (MPLS) local recovery chosen over MPLS global recovery?

- A. When faster recovery is sought.
- B. When too few Label Switch Paths (LSPs) are setup.
- C. When insufficient bandwidth is available in the network.
- D. When the network is NOT very meshed (small degree of connectivity).

Answer: A

19. H.248 is which type of protocol?

- A. a QoS Protocol
- B. a Media Gateway control protocol
- C. a Peer-to-Peer call control protocol
- D. a Real-Time packet encoding protocol

Answer: B

20. Which statement is true concerning SIP protocol?

- A. SIP is based on H.323
- B. SIP is an extension of HTTP/1.1

C. SIP is a component of HTTP/1.1

D. SIP is based on a request/response transaction model

Answer: D
