Nortel NCSS

920-245: Ethernet Switching

Practice Exam: 920-245 Exams

Exam Number/Code: 920-245

Exam Name: Ethernet Switching

Questions and Answers: 61 Q&As

([NCSS](#))

"Ethernet Switching", also known as 920-245 exam, is a Nortel certification.

Exam : [920-245](#)

With the complete collection of exam questions, Just4Study has assembled to take you through 61 Q&As to your 920-245 exam preparation. In the 920-245 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Nortel NCSS 920-245 (Ethernet Switching) examination of original title complete coverage. 920-245 exam questions help you pass the exam.

Just4Study 920-245 Feature:

* High quality - High quality and valued for the 920-245 Exam: 100% Guarantee to Pass Your 920-245 exam and get your NCSS certification.

* Authoritative - Authoritative braindumps with complete details about 920-245 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed NCSS resources, you will minimize your **Nortel NCSS** cost and be ready to pass your 920-245 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free NCSS demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 920-245 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 920-245 Demo Download

Just4Study offers free demo for NCSS 920-245 exam (Ethernet Switching). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Nortel NCSS 920-245** examination of original title complete coverage. 920-245 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: 920-245

Exam Name: Ethernet Switching(NCSS)

Questions and Answers: 61 Q&A

[Nortel 920-245](#) Test belongs to one of the NCSS certified test, if needs to obtain the NCSS certificate, you also need

to participate in other related test, the details you may visit the [NCSS](#) certified topic, in there, you will see all related NCSS certified subject of examination.

Just4Study professional provide NCSS 920-245 the newest Q&A, completely covers 920-245 test original topic. With our complete NCSS resources, you will minimize your NCSS cost and be ready to pass your 920-245 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Nortel 920-245

Title : Ethernet Switching

1. An Ethernet Switch 450-24T will be added to an existing stack of two Ethernet Switch 470-24Ts. The software Release running on the Ethernet Switch 450-24T is compatible with the software Release running on the Ethernet Switch 470-24Ts. To complete the stack creation successfully, which two configuration changes are necessary? (Choose two.)

- A. Set the Unit Select switch on the Ethernet Switch 450-24T to the "Off" position.
- B. Set the Unit Select switch on the Ethernet Switch 450-24T to "Base" ("On" position).
- C. Set the Stack Mode for all Ethernet Switch 470-24Ts to Hybrid and then reset the stack.
- D. Cable the Ethernet Switch 450-24T into the stack, power off all units, and then power up the stack.
- E. Set the Stack Mode for the Base Ethernet Switch 470-24T to Hybrid and leave the other Ethernet Switch 470-24T as Pure.

Answer: AC

2. In the event of a network failure, a customer requires that an Open Shortest Path First (OSPF) interface detect the failure within 30 seconds. Which Ethernet Routing Switch 8600 Command Line Interface (CLI) command must be used to ensure a network failure is detected in the required amount of time?

- A. `config vlan <vid> ip ospf metric 30`
- B. `config vlan <vid> ip ospf priority 30`
- C. `config vlan <vid> ip ospf hello-interval 30`
- D. `config vlan <vid> ip ospf dead-interval 30`

Answer: D

3. You need to add a new port on an Ethernet Routing Switch 5510 that will support a new server to an existing VLAN that is a member of an existing Spanning Tree Group (STG). Which action(s) should you perform to accomplish this task?

- A. Add the port to the VLAN.
- B. Add the port to the VLAN and then manually add the port to the STG.
- C. Disable the STG, add the port to the VLAN, and then enable the STG.
- D. Remove the VLAN from the STG, add the port to the VLAN, and then add the VLAN to the STG.

Answer: B

4. Which two statements are true regarding Virtual Router Redundancy Protocol (VRRP) Backup? (Choose two.)

- A. It must advertise its presence to the network.
- B. It must not accept packets addressed to the IP address(s) associated with the virtual router.
- C. It must discard packets with a destination Media Access Control (MAC) equal to the virtual router MAC.
- D. It must respond to Address Resolution Protocol (ARP) requests for address(s) associated with the virtual router.

Answer: BC

5. What is an advantage of using Independent VLAN Learning (IVL) mode over Shared VLAN Learning (SVL) mode on an Ethernet Switch 460-24T-PWR?

- A. The Spanning Tree Protocol (STP) can be disabled.
- B. More MAC addresses can be stored with unique forwarding databases.
- C. Duplicate MAC addresses can be handled if they are in different VLANs.
- D. The port forwarding rate will be greater with unique forwarding databases.

Answer: C

6. When can you obtain and load an image from an external TFTP server through one of the I/O ports?

- A. When you invoke the boot (ip address)/<file> command from the Device Manager.
- B. When you configure the Ethernet Routing Switch 8600 to boot from the network, then reset.
- C. When you invoke the boot (ip address):<file> command from the Command Line Interface (CLI).
- D. When you configure the Ethernet Routing Switch 8600 to boot from the network, then recycle power.

Answer: C

7. Click the exhibit button.

Given the following Ethernet Switch 325-24T configuration:

VLAN 10 is a port-based VLAN.

Port 1 is an untagged member of VLAN 10.

Port 5 is a tagged member of VLAN 10.

The device on Port 1 transmits an untagged frame to the device on Port 5.

How will an untagged frame be treated when it reaches Port 5 on this switch?

- A. It will be discarded when it is received.
- B. It will be placed in a hardware-based queue based on Priority 6. Then it will be tagged, and transmitted out Port 5 with Priority 2.
- C. It will be placed in a hardware-based queue based on Priority 6. Then it will be tagged, and transmitted out Port 5 with Priority 6.
- D. It will be placed in a hardware-based queue based on Priority 2. Then it will be tagged, and transmitted out Port 5 with Priority 2.

Answer: C

8. Which route type in the Ethernet Routing Switch 8600 routing table provides additional routes for faster convergence in case of network/link failures?

- A. best
- B. direct
- C. MPLS
- D. ECMP

Answer: D

9. Which three switches support auto Media Dependent Interface Crossover (MDI/MDIX)? (Choose three.)

- A. Ethernet Switch 425
- B. Ethernet Switch 450
- C. Ethernet Switch 460
- D. Ethernet Switch 470
- E. Ethernet Routing Switch 5510

Answer: ADE

10. If one Multi Link Trunk is being used, how many fewer VLANs would be available on the Ethernet Routing Switch 8600?

- A. 1
- B. 4
- C. 8
- D. 16

Answer: C

11. Which Ethernet Routing Switch QoS feature ensures that the lower six egress queues are serviced in a fair, yet weighted manner?

- A. WRR
- B. WFQ
- C. DSCP
- D. TCP/UDP

Answer: A

12. Which actions should be performed during a configuration of a QoS policy for a trusted interface?

- A. drop traffic to a port
- B. change of DSCP value
- C. modification of 802.1p value
- D. alteration of the drop precedence

Answer: A

13. A customer with an Ethernet Switch 470-24T wants to configure MAC address-based security. Given that they can create up to 10 MAC Destination Addresses (DA) to filter, how are all packets with specified DAs treated?

- A. All packets with specified DAs are dropped.
- B. All packets with specified DAs are dropped based on ingress port.
- C. All packets with specified DAs are dropped based on VLAN membership.
- D. All packets with specified DAs are dropped based on source address intrusion.

Answer: A

14. Given the conditions:

Left LED - green

Right LED - flashing green

On an Ethernet Routing Switch 8648TXE/M 10/100 Ethernet I/O module, what is the status of a port that is displaying the LED conditions described above?

- A. Link speed is 10 Mbps and the port is disabled.
- B. Link speed is 100 Mbps and the port is disabled.
- C. Link speed is 10 Mbps and the port is passing traffic.
- D. Link speed is 100 Mbps and the port is passing traffic.

Answer: D

15. You have installed a new Ethernet Switch 460-24T into a customer's network and are using the QoS Wizard to configure the QoS settings for various IP traffic flows. Which two IP applications can you directly choose in the QoS Wizard to prioritize inbound frames based on traffic type? (Choose two.)

- A. E-mail (SMTP)
- B. File Transfer (FTP)
- C. Multicasting (IGMP)
- D. Trivial File Transfer (TFTP)
- E. Network Management (SNMP)

Answer: AB
