Nortel Other Nortel Certification

920-259: Nortel WLAN 2300 Rls.6.0 Implementation & Management

Practice Exam: 920-259 Exams

Exam Number/Code: 920-259

Exam Name: Nortel WLAN 2300 Rls.6.0 Implementation & Management

Questions and Answers: 62 Q&As

([Other Nortel Certification](#))

"Nortel WLAN 2300 Rls.6.0 Implementation & Management", also known as 920-259 exam, is a Nortel certification. With the complete collection of exam questions, Just4Study has assembled to take you through 62 Q&As to your 920-259 exam preparation. In the 920-259 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Exam : [920-259](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Nortel Other Nortel Certification 920-259 (Nortel WLAN 2300 Rls.6.0 Implementation & Management) examination of original title complete coverage. 920-259 exam questions help you pass the exam.

Just4Study 920-259 Feature:

* High quality - High quality and valued for the 920-259 Exam: 100% Guarantee to Pass Your 920-259 exam and get your Other Nortel Certification certification.

* Authoritative - Authoritative braindumps with complete details about 920-259 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Other Nortel Certification resources, you will minimize your **Nortel Other Nortel Certification** cost and be ready to pass your 920-259 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Other Nortel Certification demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 920-259 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 920-259 Demo Download

Just4Study offers free demo for Other Nortel Certification 920-259 exam (Nortel WLAN 2300 Rls.6.0 Implementation & Management). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Nortel Other Nortel Certification 920-259** examination of original title complete coverage.920-259 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

Exam Name: Nortel WLAN 2300 Rls.6.0 Implementation & Management(Other Nortel Certification)

Questions and Answers: 62 Q&A

[Nortel 920-259](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination. Just4Study professional provide Other Nortel Certification 920-259 the newest Q&A, completely covers 920-259 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-259 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Nortel 920-259

Title : Nortel WLAN 2300 Rls. 6.0 Implementation & Management

1. In the WLAN Security Switch (WSS) 2380, Access Points use forwarding queues to prioritize WLAN traffic. What is responsible for assigning the queue in which traffic is placed?

- A. the IP ToS field
- B. the DSCP value
- C. the mobility domain
- D. the CoS value of the packet

Answer: A

2. A customer has a WLAN 2350 network with 6120 telephones and Wi-Fi Protected Access (WPA) authentication enabled. Which two configuration properties of the WLAN Security Switch 2350 can be set to ensure high voice quality? (Choose two.)

- A. disable WMM
- B. enable Active Scan
- C. disable Active Scan
- D. enable auto-tune power
- E. configure authentication to OPEN

Answer: AC

3. A customer is configuring a network for voice over WLAN which contains a Meridian 1 Call Server, a 2245 IP Telephony, a TFTP server, and 6120/6140 handsets. Which action regarding how voice traffic is prioritized over the WLAN is true?

- A. Use Access Point forwarding queues.
- B. Modify the ToS value of the packet.
- C. Enable the WMM in the radio profile.
- D. Create an ACL to change the CoS value of SVP.

Answer: D

4. A customer is implementing security with the WLAN 2300 series and wants to provide strong authentication of their users. They have an existing LDAP database with users already configured. What must be in place to query the LDAP server?

- A. NTLM
- B. LDAP
- C. RADIUS Server
- D. Active Directory

Answer: C

5. A Nortel WLAN 2300 Series network contains multiple WLAN Security Switches. One WLAN Security Switch is configured as the primary mobility domain seed. Another WLAN Security Switch is configured as the secondary mobility domain seed. If the primary mobility domain seed becomes unavailable, the secondary mobility domain seed is promoted to be the primary mobility domain seed. When the original primary mobility domain seed becomes available again, what happens to the recently promoted secondary mobility domain seed?

- A. The secondary mobility domain seed remains in the promoted state until the network administrator intervenes.
- B. The secondary mobility domain seed is automatically demoted back to its original state.
- C. The promoted secondary mobility domain seed remains as the permanent primary mobility domain seed.
- D. The mobility domain seed with the lowest IP address becomes the primary mobility domain seed.

Answer: B

6. The Wireless Management System (WMS) application can be installed on Windows platforms as well as open source distributions. On which two open source distributions is the WMS supported? (Choose two.)

- A. BSD 6.0
- B. Mandrake
- C. Red Hat WS 3
- D. SUSE Linux 10.0

Answer: CD

7. The WLAN 2300 series offers a number of options for monitoring a Wireless LAN. WLAN Management System (WMS) 2300 can be used to view real-time statistics of clients and Access Points. It can also be important for reporting faults that have occurred on Wireless Security Switches. Which operating system supports the WMS 2300?

- A. ACS
- B. Sun Solaris 2.8
- C. SUSE Linux 10.0
- D. IBM Tivoli Monitoring 6.1

Answer: C

8. All communication between the WLAN Security Switch and Access Point (AP) is encrypted, including all control and management traffic. This feature limits the ability of the Rogue AP to join the network. Which two methods are used to secure this traffic? (Choose two.)

- A. WEP
- B. AES
- C. x.509 certificates
- D. 802.1X/EAP

Answer: BC

9. A customer is planning a WLAN for a site that implements Wireless IP telephony. Planning for this requires the minimum radio signal strength be taken into account. What is the minimum radio signal strength required for IP telephony?

- A. -50dbm
- B. -60dbm
- C. -70dbm
- D. -80dbm

Answer: C

10. The WLAN 2300 series support a mobility domain. The mobility domain allows for transparent roaming and consistent user experience. With regard to providing the benefits of a mobility domain, which statement is true?

- A. All Access Points broadcast identical SSIDs.
- B. A secondary mobility domain seed must be configured.
- C. WMS 2300 manages all Wireless Security Switches.
- D. All WSS systems must be a member of the same mobility domain.

Answer: D
