Nortel Other Nortel Certification

920-262: Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt

Practice Exam: 920-262 Exams

Exam Number/Code: 920-262

Exam Name: Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt

Questions and Answers: 62 Q&As

([Other Nortel Certification](#))

"Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt", also known as 920-262 exam, is a Nortel certification. With the complete collection of exam questions, Just4Study has assembled to take you through 62 Q&As to your 920-262 exam preparation. In the 920-262 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Exam : [920-262](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Nortel Other Nortel Certification 920-262 (Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt) examination of original title complete coverage. 920-262 exam questions help you pass the exam.

Just4Study 920-262 Feature:

* High quality - High quality and valued for the 920-262 Exam: 100% Guarantee to Pass Your 920-262 exam and get your Other Nortel Certification certification.

* Authoritative - Authoritative braindumps with complete details about 920-262 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Other Nortel Certification resources, you will minimize your **Nortel Other Nortel Certification** cost and be ready to pass your 920-262 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Other Nortel Certification demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 920-262 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free 920-262 Demo Download

Just4Study offers free demo for Other Nortel Certification 920-262 exam (Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Nortel Other Nortel Certification 920-262** examination of original title complete coverage.920-262 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: 920-262

Exam Name: Nortel Secure Network Access Switch RIs.2.0 Config & Mgmt(Other Nortel Certification)

Questions and Answers: 62 Q&A

[Nortel 920-262](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination. Just4Study professional provide Other Nortel Certification 920-262 the newest Q&A, completely covers 920-262 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-262 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Nortel 920-262

Title : Nortel Secure Network Access Switch Rls.2.0 Config & Mgmt

1. You are deploying NSNA in an existing network and are initially configuring the NSNAS 4050. You have enabled the DNS captive portal.

Which statement describes the DNS captive portal?

- A.NSNAS will respond to all DNS queries with its Portal IP address. Except DNS names configured for DNS exclude.
- B.NSNAS will respond to all DNS names configured for DNS exclude with its Portal IP address.
- C.DNS queries will be proxied to DNS server configured for NSNAS.
- D.DNS queries will be proxied to DNS server configured in DNS exclude.

Answer: A

2. You need to install a new software image on a NSNAS. You will be using the CLI to install a software upgrade pack.

Which statement describes this upgrade process?

- A.Must be performed via console
- B.Configuration will be maintained
- C.Will reboot once software upgrade pack is downloaded
- D.Software upgrade pack can only be downloaded via TFTP

Answer: B

3. You are deploying NSNAS into an existing network and its configuration has to include the creation of a filter on an ERS 8300 to forward DHCP requests to the CPU.

To which port should this filter be applied?

- A.the uplink port
- B.the uplink port and end workstation ports
- C.the end workstation ports
- D.the DHCP server port

Answer: A

4. A NSNAS Cluster can support up to 8000 users. What is the maximum amount of NSNAS nodes per cluster?

- A.4
- B.16
- C.32
- D.256

Answer: A

5. You want to deploy a MS-NAP/NSNAS integrated platform, the budget is limited and saving costs is very important tough.

Which of the following components is optional?

- A. Nortel Health Agent service.
- B. Windows Server 2008.
- C. NAP Agent.
- D. Nortel SNAS server.

Answer: B

6. You are deploying NSNAS in an existing network and the new configuration needs to include the creation of a VoIP VLAN in the initial setup.

Along with DHCP, ARP, and ICMP being permitted, which statement is true regarding VoIP traffic and filters?

- A. VoIP traffic will arrive tagged with VoIP VID and UNISTIM, UDP ports 4100, 5000, 5100, 7300, 50000-50099 are permitted.
- B. VoIP traffic will arrive untagged and UNISTIM, TCP ports 4100, 5000, 5100, 7300, 50000-50099 are permitted and leaves switch tagged with VoIP VID.
- C. VoIP traffic will arrive untagged and UNISTIM, UDP ports 4100, 5000, 5100, 7300, 50000-50099 are permitted and leaves switch tagged with VoIP VID.
- D. VoIP traffic will arrive tagged with VoIP VID and UNISTIM, TCP ports 4100, 5000, 5100, 7300, 50000-50099 are permitted.

Answer: A

7. When deploying the Nortel Secure Network Access Switch (NSNAS), it will need to be accessible to all clients on the enterprise network.

Following best practices, in which layer would the NSNAS be installed?

- A. Access Layer
- B. Distribution Layer
- C. Core Layer
- D. Service Layer

Answer: D

8. You are deploying NSNAS into a network with ERS 8300 switches.

Which two options are configuration interfaces for management of the ERS 8300 NSNA? (Choose two.)

- A. JDM version 6.0.1.x
- B. SREM
- C. NNCLI
- D. FTP

Answer: AC

9. To configure the NSNAS 4050 in an existing network, you have started by running the NSNAS Quick Setup Wizard and have selected "teardown" as the Nortel Health Agent Failure Action.

Which statement describes what this will do?

- A. Client will be logged out and moved back to the Red VLAN.
- B. Client is moved to Yellow VLAN, but has limited access to remediation servers.
- C. Client MAC Address will be blocked from network access.
- D. Client IP address will be blocked from network access.

Answer: A

10. You have implemented a high availability NSNAS cluster and need to make sure that load balancing of client sessions are being distributed across all nodes.

Which statement describes this scenario?

- A. It means that creation of one Portal VIP will round robin client requests.
- B. It creates as many Portal VIP's as there are nodes.
- C. It enables Loadbalancing under /cfg/sys/adm/loadbalance.
- D. It means high availability cannot loadbalance.

Answer: B

11. You are configuring a NSNAS 4050 in an existing network, if you configure extended profiles, which statement describes correctly what this will bring upon?

- A.profiles will determine to which VLAN client is assigned to
- B.Extended profiles will display a different set of links on portal page
- C.Extended profiles will determine what services a client can access
- D.Extended profiles will determine which authentication servers will be used

Answer: B

12. Nortel Networks uses a layered defense approach for network security. Where does the NSNA solution enforce security?

- A.End-Point Security
- B.Secure Communications
- C.Perimeter Security
- D.Core Network Security

Answer: A

13. For an NSNA network, which validation method would be the most efficient to use for authentication via Extensible Authentication Protocol?

- A.Local Database
- B.RADIUS
- C.LDAP
- D.Token-Based

Answer: B

14. When deploying the NSNAS you have multiple options for back-end services providing AAA. Which describes what back-end service SecurID utilizes?

- A.LDAP/LDAP-s
- B.Token-based authentication
- C.Local User Authentication
- D.MAC Authentication

Answer: B

15. You are deploying NSNA in a network, where NSNAS 4050 is required to communicate securely with ERS 5500 switches.

Which two statements describe this initial setup? (Choose two.)

- A.SSH must be enabled on the ERS so that the NSNAS can retrieve its SSH key.
- B.HTTPS must be enabled on the ERS 5500.
- C.The SSH key of the NSNAS 4050 must be generated and exported via tftp,ftp,scp,or sftp in order to get it imported on to ERS 5500.
- D.HTTPS must be enabled on the NSNAS 4050.
- E.3DES encryption module must be installed on ERS 5500.

Answer: AC
