### Nortel Other Nortel Certification

#### 920-431: Comm Server 1000 Rls.5.0 Installation & Troubleshooting

**Practice Exam:** 920-431 Exams

**Exam Number/Code:** 920-431

**Exam Name:** Comm Server 1000 Rls.5.0 Installation & Troubleshooting

**Questions and Answers:** 60 Q&As

( [Other Nortel Certification](#) )

"Comm Server 1000 Rls.5.0 Installation & Troubleshooting", also known as 920-431 exam, is a Nortel certification. With the complete collection of exam questions, Just4Study has assembled to take you through 60 Q&As to your 920-431 exam preparation. In the 920-431 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Exam : [920-431](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Nortel Other Nortel Certification 920-431 (Comm Server 1000 Rls.5.0 Installation & Troubleshooting) examination of original title complete coverage. 920-431 exam questions help you pass the exam.

#### **Just4Study 920-431 Feature:**

\* High quality - High quality and valued for the 920-431 Exam: 100% Guarantee to Pass Your 920-431 exam and get your Other Nortel Certification certification.

\* Authoritative - Authoritative braindumps with complete details about 920-431 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Other Nortel Certification resources, you will minimize your **Nortel Other Nortel Certification** cost and be ready to pass your 920-431 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Other Nortel Certification demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the 920-431 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free 920-431 Demo Download**

Just4Study offers free demo for Other Nortel Certification 920-431 exam (Comm Server 1000 Rls.5.0 Installation & Troubleshooting). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Nortel Other Nortel Certification 920-431** examination of original title complete coverage.920-431 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: 920-431**

Exam Name: Comm Server 1000 Rls.5.0 Installation & Troubleshooting( Other Nortel Certification )

Questions and Answers: 60 Q&A

[Nortel 920-431](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination. Just4Study professional provide Other Nortel Certification 920-431 the newest Q&A, completely covers 920-431 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 920-431 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Nortel 920-431

Title : Comm Server 1000 Rls. 5.0 Installation & Troubleshooting

1. A customer is preparing to install the Linux base software on to the Commercial Off the Shelf (COTS) servers. Which connection is used on the administering computer to install from the CD-ROM or DVD?

- A. serial for both the IBM-X306m and HP DL320
- B. ethernet for both the IBM-X306m and HP DL320
- C. ethernet for the IBM-X306m and serial for the HP DL320
- D. ethernet for the HP DL320 and serial for the IBM-X306m

Answer: A

2. Your customer wants to install and configure two Commercial Off the Shelf (COTS) servers and wants to include Security configuration on both servers. They have a large network, so it has been decided to centralize the Network Routing Service (NRS) functionality on one COTS server. They also want to use the Enterprise Common Manager (ECM) to configure all the Communication Server 1000 systems and have decided to put the ECM application on the second server. Which configuration does Nortel recommend for this customer to optimize the load balance of both COTS servers?

- A. Install the Primary Security Service with the Primary NRS server and the Backup Security Service with EM.
- B. Install the Primary Security Service with Element Manager and the Backup Security Service with the Primary NRS server.
- C. Install the Primary Security Service with the Primary NRS server and the Backup Security Service with the Primary EM server.
- D. Install the Primary Security Service with the Secondary NRS server and the Backup Security Service with the Primary NRS server.

Answer: B

3. From which two parts is the Fully Qualified Domain Name (FQDN) composed and in what order must they be configured?

- A. first the host name and then the domain name
- B. first the domain name and then the host name
- C. first the COTS server IP address and then the port number
- D. first the COTS server port number and then the IP address

Answer: A

4. Your customer is installing the Linux Base software on a Commercial Off the Shelf (COTS) server and arrives at the following software installation prompts:

- 1. Do not create a backup copy of your configuration file.
- 2. Create a backup copy of your configuration file to external USB device.
- 3. Create a backup copy of your configuration file to SFTP server.

Select an option (1-3):

They do not have an external USB device and do not have an SFTP server readily configured. They do not want to lose the opportunity to back up the configuration file.

What can the customer do?

- A. Call Nortel service personnel; there is a prompt missing.
- B. Select prompt 2; you can also use an internal compact flash.
- C. Select prompt 2 and use the computer as an external device.
- D. Select prompt 1; back up the configuration later using the "sysbackup" command

Answer: D

5. For Communication Server (CS) 1000 RIs. 5.0, Nortel has introduced Secure Shell (SSH) security technology to the CS 1000 system elements and to the Linux-based COTS servers. This includes access to overlays on the call server, support for the CPSID user name and ptyxx user names, and access to the call server PDT shells, the Voice Gateway Media Card (VGMC) IPL shell and the signaling server OAM shell. Which client authentication method does Nortel support for SSH?

- A. PAM
- B. password
- C. Kerberos5
- D. user public key

Answer: B

6. From the serial port console you log in directly as root, you invoke the appinstall utility to begin the installation of the ECM Applications. Immediately after starting the procedure you receive the following system message and are not able to start the ECM software installation.

```
[root@xxxx ~]# appinstall  
-bash: appinstall: command not found
```

What must you do next?

- A. Change the Fully Qualified Domain Name (FQDN).
- B. Re-install the Base before installing the Applications.
- C. Log-out and log in as Nortel and restart the installation.
- D. Use a different Commercial Off the Shelf (COTS) server.

Answer: C

7. Nortel uses IPSec (IP Security) within various Communication Server (CS) 1000 RIs. 5.0 elements. IPSec provides a basis for the CS 1000 Intrasystem Signaling Security System (ISSS) solution. If you want to use ISSS in your Nortel system, what must you do?

- A. Use a Secure Multimedia Controller.
- B. Enable ISSS from the Call Server.
- C. Nothing; ISSS is enabled by default.
- D. Enable ISSS from the Signaling Server.

Answer: B

8. You have assigned the user policies for an administrative Power User in the Enterprise Common Manager (ECM) framework. What must you do to make sure that the policies were assigned to the Linux Commercial Off the Shelf (COTS) server?

- A. Log into the Call Server.
- B. Log into the Signaling Server.
- C. Log out of and back into ECM.
- D. Access the COTS Server via CLI.

Answer: C

9. You have installed the Linux Base and Enterprise Common Manager (ECM) application onto a Commercial Off the Shelf (COTS) server. All LAN connections are in place and functioning normally. Now you are ready to access

Element Manager for the first time. What is your next step?

- A. Connect through a CLI pass-through with the default password.
- B. Connect through a non-secure browser with the default password.
- C. Connect through a secure browser with the FQDN in the address field.
- D. Connect through a secure browser with the host name in the address field.

Answer: C

10. Which activity can you perform to add a telephone set in Element Manager using the Basic Configuration Client?

- A. Assign an Automatic DN and TN.
- B. Log in to the CLI at the same time.
- C. Change a feature of the telephone.
- D. Change a TN where a present telephone is located.

Answer: A
