EMC EMC Certification

E22-250: Network Management- Smarts Administration

Practice Exam: E22-250 Exams

Exam Number/Code: E22-250

Exam Name: Network Management- Smarts Administration

Questions and Answers: 166 Q&As

([EMC Certification](#))

"Network Management- Smarts Administration", also known as E22-250 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 166 Q&As to your E22-250 exam preparation. In the E22-250 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

Exam : [E22-250](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC EMC Certification E22-250 (Network Management- Smarts Administration) examination of original title complete coverage. E22-250 exam questions help you pass the exam.

Just4Study E22-250 Feature:

* High quality - High quality and valued for the E22-250 Exam: 100% Guarantee to Pass Your E22-250 exam and get your EMC Certification certification.

* Authoritative - Authoritative braindumps with complete details about E22-250 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed EMC Certification resources, you will minimize your **EMC EMC Certification** cost and be ready to pass your E22-250 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free EMC Certification demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the E22-250 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free E22-250 Demo Download

Just4Study offers free demo for EMC Certification E22-250 exam (Network Management- Smarts Administration). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC EMC Certification E22-250** examination of original title complete coverage.E22-250 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: E22-250

Exam Name: Network Management- Smarts Administration(EMC Certification)

Questions and Answers: 166 Q&A

[EMC E22-250](#) Test belongs to one of the EMC Certification certified test, if needs to obtain the EMC Certification certificate, you also need to participate in other related test, the details you may visit the [EMC Certification](#) certified topic, in there, you will see all related EMC Certification certified subject of examination.

Just4Study professional provide EMC Certification E22-250 the newest Q&A, completely covers E22-250 test original topic. With our complete EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your E22-250 tests on Your First Try, 100% Money Back Guarantee included!

Exam : EMC E22-250

Title : Network Management- Smarts Administration

1. An enterprise NOC manager was asked by an internal business customer to provide much quicker availability notifications for the portions of the infrastructure serving that business customer's applications. Which solution will provide the requested results?

- A. Create a new console view filtered to display the notifications for the appropriate infrastructure objects
- B. Create a new instance of IP Availability Manager to add extra monitoring to the appropriate infrastructure objects
- C. Create a new polling group with the appropriate infrastructure objects with a reduced polling time
- D. For each of the appropriate infrastructure objects, reduce the ICMP response threshold

Answer: C

2. The IT director wants to consolidate NOC tools. Which information about the Smarts suite could you provide to assist in this effort?

- A. It would be better to eliminate all other monitoring tools and just use IP Availability Manager to monitor all elements in the data center.
- B. Service Assurance Manager can integrate and correlate information from Smarts Analysis servers as well as other sources.
- C. The IP Availability Manager product integrates information about the IP network from multiple sources.
- D. The Smarts suite can easily use other SNMP polling tools to correlate Authentic Problems.

Answer: B

3. Operations wants an extra field to add its information directly to the notification instead of adding comments to the audit log. How can this be implemented?

- A. Create a server tool for the operators to be able to input text into a user-defined field
- B. Create a user-defined field with the attribute set to read/write
- C. Open a Global Administration Console and label a user-defined field as "Operator Notes"
- D. Set the operator rights to read/write for all notifications

Answer: A

4. Which feature is a valid option of the IP Management Suite installation?

- A. IP Availability Manager
- B. IP Availability Manager Extension for IPv6
- C. IP Availability Manager Extension for NAS
- D. Web Console

Answer: A

5. A customer wants to discover and monitor its IP network equipment, including routers, switches, and hosts, for both availability and performance. Which Smarts IP Management Suite application includes monitoring of Processor

High Utilization for hosts?

- A.Availability Manager
- B.Discovery Manager
- C.Performance Manager
- D.Server Performance Manager

Answer: D

6. A telecommunications company has already mapped its customers to the network topology provisioning tool. Into which Smarts product could you import that information?

- A.ATM/FR Manager
- B.Business Impact Manager
- C.Optical Transport Manager
- D.Service Assurance Manager

Answer: B

7. At a customer site, many different networks are being managed by a single IP domain, which is generating many DuplicateIP alerts in SAM.

How can you avoid these DuplicateIP alerts?

- A.Filter the Duplicate network
- B.Use a different IP-AM for each network
- C.Use a different SAM for each network
- D.Use IP Tagging

Answer: D

8. Click the Exhibit button.

A Notification List was created with the matching criteria shown in the exhibit.

Which notification matches this criteria?

- A.Cable LINK-IF-feast/1<->PORT-sw1/12 DownOrFlapping
- B.FileServer powerfs Down
- C.Interface IF-wrcertsjc1 Unstable
- D.Router moto-gw.smarts.com Unresponsive

Answer: B

9. Which relationship of a router is expanded to view the instances of its interfaces, in the Topology Browser?

- A.ComposedOf
- B.HostsAccessPoints
- C.RealizedBy
- D.Underlying

Answer: A

10. Click the Exhibit button.

Which Smarts application performs root-cause analysis?

- A.Global Consoles
- B.Business Impact Manager
- C.Service Assurance Manager
- D.IP Availability and Performance Managers

Answer: D

11. Oper1, a user, would like to share a saved map with other users. What does the admin need to do?

- A.Copy the saved map to <BASEDIR>smartslocalconfconsole folder on the Global Manager
- B.Copy the saved map to <BASEDIR>smartslocalconfconsoles folder on the Global Manager
- C.Copy the saved map to <BASEDIR>smartslocalconsole folder on the Global Manager
- D.Copy the saved map to <BASEDIR>smartslocalconsoles folder on the Global Manager

Answer: D

12. An organization is looking for a way to effectively scale in an intricate heterogeneous IT environment. Which part of the Smarts A3 architecture will minimize the manual effort to accomplish this goal?

- A.Automation
- B.Abstraction
- C.Analytics
- D.Analysis

Answer: B

13. An organization is looking to capture essential information of its environment. It also wants to understand the physical and logical components, their relationships, behaviors, and interactions. Which part of the Smarts A3 architecture supports this effort?

- A.Abstraction
- B.Aggregation
- C.Automation
- D.Availability

Answer: A

14. Which components are unique to the EMC Smarts solutions, and are part of every EMC Smarts Root Cause Analysis (RCA) application?

- A.Global Console, SAM, Domain Manager
- B.InCharge Common Information Model, Repository, Codebook
- C.Service Assurance Manager, Domain Manager, Broker
- D.Service Assurance Manager, Domain Manager, Notification Adapter

Answer: B

15. SAM is installed on the smarts01 server. During installation of SAM, the broker location was set to localhost:426. To finish the installation for the deployment, the IP suite needs to be installed on smarts02. During installation of the IP suite, what broker should be specified?

- A.localhost:426
- B.smarts01:426
- C.smarts02:
- D.smarts02:426

Answer: B

16. Which feature is a valid option of the IP Management Suite installation?

- A.EMC Smarts Adapter for HP OpenView NNM
- B.Global Console
- C.IP Availability Manager Extension for IPv6
- D.IP Availability Manager Extension for NAS

Answer: A

17. Why would Smarts discover a new network device as a node?

- A.The device does not support MIB-2.
- B.The device has not been certified.
- C.There is a loop on the SNMP agent on the device.
- D.There is no SNMP agent on the device.

Answer: B

18. Click the Exhibit button.

Which Smarts product is responsible for associating infrastructure components to the services and customers supported?

- A.Global Console
- B.Business Impact Manager
- C.Service Assurance Manager
- D.IP Availability and Performance Managers

Answer: B

19. The EMEA NOC, America NOC, and Asia NOC each has visibility to regional NOCs. Each regional NOC implements one or more Smarts applications and uses its own Smarts Service Assurance Manager to provide an end-to-end view of the region.

What needs to be configured to architect EMC Smarts solutions to view all regions?

- A.Hierarchical SAM configuration
- B.Smarts Aggregation Adapter
- C.Smarts Topology Split Manager
- D.Standard SAM configuration

Answer: A

20. The customer wants to install the IP Availability Management Suite on a SUSE Linux server. Which IP Management Suite document can be used to determine if this operating system is supported?

- A.Deployment Guide
- B.Installation Guide
- C.System Administration Guide
- D.User's Guide

Answer: B
