HH0-220: HDS Certified Implmenter-Modular

Practice Exam: HH0-220 Exams

Exam Number/Code: HH0-220

Exam Name: HDS Certified Implmenter-Modular

Questions and Answers: 76 Q&As

([Hitachi Data Systems](#))

Exam : [HH0-220](#)

"HDS Certified Implmenter-Modular", also known as HH0-220 exam, is a Hitachi certification. With the complete collection of exam questions, Just4Study has assembled to take you through 76 Q&As to your HH0-220 exam preparation. In the HH0-220 exam resources, you will cover every field and category in Hitachi Certification helping to ready you for your successful Hitachi Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Hitachi Hitachi Data Systems HH0-220 (HDS Certified Implmenter-Modular) examination of original title complete coverage. HH0-220 exam questions help you pass the exam.

Just4Study HH0-220 Feature:

* High quality - High quality and valued for the HH0-220 Exam: 100% Guarantee to Pass Your HH0-220 exam and get your Hitachi Data Systems certification.

* Authoritative - Authoritative braindumps with complete details about HH0-220 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Hitachi Data Systems resources, you will minimize your **Hitachi Hitachi Data Systems** cost and be ready to pass your HH0-220 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Hitachi Data Systems demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HH0-220 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HH0-220 Demo Download

Just4Study offers free demo for Hitachi Data Systems HH0-220 exam (HDS Certified Implmenter-Modular). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Hitachi Hitachi Data Systems HH0-220** examination of original title complete coverage. HH0-220 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HH0-220

Exam Name: HDS Certified Implmenter-Modular(Hitachi Data Systems)

Questions and Answers: 76 Q&A

[Hitachi HH0-220](#) Test belongs to one of the Hitachi Data Systems certified test, if needs to obtain the Hitachi Data Systems certificate, you also need to participate in other related test, the details you may visit the [Hitachi Data Systems](#) certified topic, in there, you will see all related Hitachi Data Systems certified subject of examination. Just4Study professional provide Hitachi Data Systems HH0-220 the newest Q&A, completely covers HH0-220 test original topic. With our complete Hitachi Data Systems resources, you will minimize your Hitachi Data Systems cost and be ready to pass your HH0-220 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Hitachi HH0-220

Title : HDS Certified Implmenter-Modular

1. There exist Two Command Devices exist on an Hitachi TagmaStore AMS500. ShadowImage has been running for some time. For maintenance reasons, the AMS500 must be restarted. After restarting, only one Command Device is still available.

How will the horcm instances behave in this situation?

- A.HORCM will be able to start with a warning message to the startup log.
- B.HORCM will not start unless the second Command Device is available again.
- C.HORCM will connect to Storage Navigator Modular and define a second Command Device.
- D.HORCM will start but go into a wait status until the second Command Device is back again.

Answer: A

2. You are adding an additional RKAJAT rack to an Hitachi TagmaStore AMS storage system containing RKAJ and RKAJAT racks.

Which tool is used to prepare the addition of the new RKAJAT?

- A.CCI
- B.ACE Tool
- C.WebTools
- D.HiCommand Device Manager

Answer: B

3. Which topology setting should be used when connecting an Hitachi TagmaStore AMS storage system to a SAN switch?

- A.Loop
- B.Fabric
- C.Point-to-Point
- D.Fabric Point-to-Point

Answer: C

4. A customer wants to install an HBA Emulex LP10000 in a Windows 2003 server connected to an Hitachi TagmaStore AMS500.

Where would you check the validity of the implementation?

- A.Emulex Web site
- B.AMS maintenance manual
- C.HiFire on HDS intranet/extranet
- D.Storage Navigator Modular User's Guide

Answer: C

5. HiCommand Device Manager can be used to link Universal Volume Manager to manage the Hitachi TagmaStore Universal Storage Platform (USP).

Which three steps must first be performed? (Choose three.)

- A. Specify an external volume in the external subsystem.
- B. Stop the Common Component and the Device Manager Server.
- C. Verify whether DAMP (for Web) runs on the Common Component.
- D. Use Device Manager to map and manage the internal and external subsystems.
- E. Specify an external subsystem port to be connected to the external port, which will be managed as a specific host for external volumes in the external subsystem.

Answer: ADE

6. Which two licenses allocate cache in an Hitachi TagmaStore AMS storage system when they are installed even if they are not enabled? (Choose two.)

- A. TrueCopy
- B. Shadow Image
- C. Copy-on-Write SnapShot
- D. Cache Residency Manager

Answer: CD

7. You want to manage an Hitachi TagmaStore AMS500 with Storage Navigator Modular (SNM), but you want to be sure that no one else has access to make changes at the same time.

What are two ways to do this? (Choose two.)

- A. Install SNM for Web on only one host and give access to this host for storage administrators.
- B. Install SNM Graphical User Interface on several hosts and install the Password Protection key.
- C. Install SNM Graphical User Interface on several hosts but connect to the AMS500 in maintenance mode.
- D. Install SNM Graphical User Interface on several hosts, and on the SNM restrict changes to the first logon user.

Answer: AB

8. To which LAN should the Hitachi TagmaStore AMS200 controllers be attached?

- A. the user's intranet
- B. the AMS200 internal LAN
- C. the secure management LAN
- D. the Storage Navigator Modular

Answer: C

9. You have installed the Hitachi Copy-on-Write Snapshot software on an Hitachi TagmaStore AMS storage system running TrueCopy.

Which two steps need to be performed after you have enabled the Copy-on-Write SnapShot key? (Choose two.)

- A. Delete the TrueCopy paths.
- B. Suspend the TrueCopy pairs.
- C. Disable the TrueCopy license.
- D. Reboot the AMS storage system.

Answer: BD

10. What is the purpose of the System Assurance Registration Documentation (SARD) process?

- A. To ensure accurate and complete record of pre-installation data.
- B. To guarantee that Hitachi Data Systems equipment is insured during transportation.
- C. To inform a channel partner that equipment is available for shipment.
- D. To validate configuration changes for customers with a premium service contract.

Answer: A

11. An Authorized Service Provider (ASP) partner has downloaded the System Assurance Registration Documentation (SARD) from the Hitachi Data Systems PartnerXchange Web site to prepare for the installation of an

Hitachi TagmaStore AMS200.

Which document is relevant for the partner to use as part of the SARD process?

- A.the SARD Excel worksheet
- B.the Warranty Accreditation form
- C.the Service Acceptance Agreement form
- D.the AMS200 System Assurance Document

Answer: A

12. Hitachi Data Systems Sales and Services representatives are involved in preparing for the delivery of storage systems at a customer site.

Which three areas will these representatives be asked to look at when following the System Assurance Registration Documentation (SARD) process? (Choose three.)

- A.equipment delivery date
- B.customer contact details
- C.equipment configuration details
- D.equipment and feature availability
- E.site access details for equipment delivery

Answer: BCE

13. What are two ways to ensure a secure Fabric? (Choose two.)

- A.SNMP
- B.zoning
- C.LUN Security
- D.Brocade Fabric Manager

Answer: BC

14. You connect the user LAN ports to an Ethernet switch while installing an Hitachi TagmaStore AMS500 and are unable to communicate although the link LED is illuminated. You are not sure if the user LAN IP addresses are correct.

How can you reset the IP addresses to known values?

- A.Connect using a null modem cable to the RS232 port and change the user LAN IP addresses.
- B.Press the reset button on the controller three times to reset the IP addresses to factory settings.
- C.Connect using a crossover cable to the maintenance LAN port on controller 0 and connect to 10.0.0.17 or 192.168.0.17.
- D.Connect using a crossover cable to the maintenance LAN port on controller 0 and connect to 10.0.0.16 or 192.168.0.16.

Answer: D

15. An Hitachi storage system is connected to a SUN Solaris server. There is a parameter called "throttle" or "queue depth" to be set in the operating system.

If you want to optimize performance for the host I/O's, which value is used?

- A.operating system default value
- B.throttle or queue depth must be set to 1
- C.value is calculated from HDS user's guide rules
- D.the value is set according to the results of the initial SCSI inquiry

Answer: C
