

## HP0-052 braindumps

### HP Certification I Certification III

**HP0-052: Planning&Design of HP 9000/HP Integrity Server Solutions**

**Practice Exam:** HP0-052 Exams

**Exam Number/Code:** HP0-052

**Exam Name:** Planning&Design of HP 9000/HP Integrity Server Solutions

**Questions and Answers:** 140 Q&As

( [Certification I Certification III](#) )

"Planning&Design of HP 9000/HP Integrity Server Solutions", also known as HP0-052 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 140 Q&As to your HP0-052 exam preparation. In the HP0-052 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Exam : [HP0-052](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-052 (Planning&Design of HP 9000/HP Integrity Server Solutions) examination of original title complete coverage. HP0-052 exam questions help you pass the exam.

#### **Just4Study HP0-052 Feature:**

\* High quality - High quality and valued for the HP0-052 Exam: 100% Guarantee to Pass Your HP0-052 exam and get your Certification I certification.

\* Authoritative - Authoritative braindumps with complete details about HP0-052 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-052 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-052 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free HP0-052 Demo Download**

Just4Study offers free demo for Certification I HP0-052 exam (Planning&Design of HP 9000/HP Integrity Server Solutions). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **HP Certification I Certification III HP0-052** examination of original title complete coverage.HP0-052 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: HP0-052**

Exam Name: Planning&Design of HP 9000/HP Integrity Server Solutions( Certification I Certification III )

Questions and Answers: 140 Q&A

**HP HP0-052** Test belongs to one of the Certification I Certification III certified test, if needs to obtain the Certification I Certification III certificate, you also need to participate in other related test, the details you may visit the [Certification I Certification III](#) certified topic, in there, you will see all related Certification I Certification III certified subject of examination.

Just4Study professional provide Certification I Certification III HP0-052 the newest Q&A, completely covers HP0-052 test original topic. With our complete Certification I Certification III resources, you will minimize your Certification I Certification III cost and be ready to pass your HP0-052 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

**Just4Study.com** offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-052

Title : Planning & Design of HP 9000/HP Integrity Server Solutions

1. Which can be identified as HP investment protection strategies? Select TWO.

- A. long-term support for AlphaServers
- B. long-term support for NonStop servers
- C. introduction to HP OpenView Operations
- D. upgrade to HP Systems Insight Manager (HP SIM)
- E. upgrade from a PA-RISC server to an AlphaServer
- F. upgrade from a PA-RISC server to an Itanium 2 system

Answer: BF

2. The number of users and IT resources required are two areas that must be identified when analyzing an application for appropriate sizing. In addition to these, what other areas must be identified? Select TWO.

- A. Total Cost of Ownership (TCO)
- B. third-party licensing strategies
- C. percentage of mobile workforce
- D. Service Level Agreements (SLA)

Answer: BD

3. Where must service area clearance be available for maintenance on an entry-level Integrity server?

- A. front
- B. rear
- C. front and rear
- D. none required

Answer: C

4. Your customer has an average processor utilization that is less than 30% for all their HP Integrity servers running multiple HP-UX and Linux instances. Processor performance only becomes an issue at week end, month end, and quarter end. Which HP software solutions best address the problem without changing any hardware? Select TWO.

- A. temporary instant capacity (TiCAP)
- B. HP Open View Performance Agent
- C. global Workload Manager (gWLM)
- D. HP GlancePlus/UX and MeasureWare

Answer: AC

5. A customer is worried about investing in HP Integrity servers because the IBM representative said that the Itanium

2 processor will go out of production due to low independent software vendor (ISV) support. Which responses are correct for this concern? Select TWO.

- A. More than 7000 ISVs are developing software for the Itanium 2 processor and the number is growing.
- B. HP Integrity Virtual Machine will enable the customer to run any x86 application without performance loss.
- C. The roadmap for HP Integrity servers indicates that future processor developments will be included in the customer's business plans.
- D. Even though there are only 3,000 ISVs developing software to run on Itanium 2 processors, they cover every needed type of application.

Answer: AC

6. The HP Itanium platform is one example of how an HP solution can be of value to the customer. What are some of the benefits of the Itanium multi-operating system environment? Select THREE.

- A. efficiency
- B. future proofing
- C. hardware durability
- D. ability to support six operating systems
- E. reduced Total Cost of Ownership (TCO)

Answer: ABE

7. Your task is to prepare a document that focuses on the competitive positioning of HP Integrity servers against other vendors. Which competitive concept should be included in your document?

- A. HP delivers proprietary technology and complete solutions for Linux.
- B. HP delivers industry-standard platforms and limited solutions for Linux.
- C. HP delivers industry-standard platforms and complete solutions for Linux.
- D. HP delivers proprietary technology to lower total cost of ownership (TCO).

Answer: C

8. Which HP resources provide information on new products? Select TWO.

- A. Top Config
- B. Smart Portal
- C. Product Bulletin
- D. SalesBuilder for Windows

Answer: BC

9. What is the recommended resource to find part information by product name or model number?

- A. Product Bulletin
- B. PartSurfer
- C. QuickSpecs
- D. HP website

Answer: B

10. When working with your customer's CEO to design an HP Integrity solution, which are key topics for discussion that would address his specific needs? Select THREE.

- A. the benefit of the solution
- B. environmental restrictions
- C. resource sizing
- D. the impact on time-to-market
- E. the cost of downtime
- F. high availability requirements

Answer: ADE

11. Why do customers who run Linux prefer industry-standard servers over proprietary hardware platforms? Select TWO.

- A. lower acquisition cost
- B. rip and replace support
- C. variety of clustering options
- D. flexibility of software options

Answer: AD

12. The Developer and Solution Partner Program (DSPP) is a resource for system integrators, ISVs, and developers that provides access to partner resources. What type of information can you get from the DSPP? Select THREE.

- A. migration and porting
- B. customer equipment listing
- C. reseller locator
- D. technical documentation
- E. detail-level design (DLD)

Answer: ACD

13. Click the Exhibit button.

The exhibit shows both the QuickSpecs and Configuration Guide for the rx4640 server. Using these documents as a reference, determine the standard and maximum cooling requirements for this rx4640 server.

- A. 3600 BTU and 5500 BTU
- B. 3600 BTU and 6000 BTU
- C. 4200 BTU and 5500 BTU
- D. 4200 BTU and 6000 BTU

Answer: A

14. Which design feature does an HP 9000 have as an advantage over similar IBM Power4 systems to offer investment protection?

- A. hot-plug CPUs
- B. virtual partitions
- C. in-box upgrades to future CPU platforms
- D. in-band and out-of-band migration management

Answer: C

15. What is an advantage of Itanium-based processors over proprietary PA-RISC-based processors?

- A. provides high reliability and availability
- B. provides mission-critical application support
- C. supports different operating systems and applications
- D. provides more than 4GB available memory per application

Answer: C

16. Which Enterprise Configurator (eCo) outputs will help you provide a solution for your customer? Select THREE.

- A. rack diagram
- B. bill of materials
- C. purchase order
- D. rack layout table
- E. alternate diagram layout

Answer: ABD

17. Which resources will help you to compare HP Integrity servers to the competition's servers? Select TWO.

- A. Product Bulletin
- B. Proposal Web
- C. IDEAS International
- D. Competitive Server Battle Room
- E. Performance Quick Reference Tool (PQRT)

Answer: CE

18. A customer with under-utilized x86 servers running Linux would like some hardware for a new high-value application running on HP-UX. What should you propose to the customer to address these needs?

- A. Replace existing hardware with HP 9000 servers.
- B. Consolidate onto Integrity servers using migration services.
- C. Use upgrade services from HP to determine the correct approach.
- D. Consolidate existing applications onto fewer servers and reuse the remaining servers for the new application.

Answer: B

19. What advantage does HP have in resource partitioning over its competitors?

- A. HP partitioning enables management of resources across multiple hardware platforms.
- B. There is no difference because HP and IBM use the same product for workload management.
- C. HP partitioning supports Workload Manager, which provides Service Level Objective-based resource partitioning.
- D. HP partitioning supports Process Resource Manager, which provides Service Level Objective-based resource partitioning.

Answer: C

20. A medium-sized business recently experienced a catastrophic failure. The company's independent hardware and software vendors could not fix the problem in a timely manner because each believed the failure was the other vendor's responsibility. What opportunity does HP have in this situation?

- A. HP Services supports third-party solutions.
- B. HP high availability solutions fit every budget.
- C. HP hardware is designed with extended mean time between failures (MTBF).
- D. HP hardware and software support services ensure a single point of contact for problem resolution.

Answer: D
