

## HP0-090 braindumps

### HP Certification I

#### HP0-090: HP-UX Virtual Server Environment

**Practice Exam:** HP0-090 Exams

**Exam Number/Code:** HP0-090

**Exam Name:** HP-UX Virtual Server Environment

**Questions and Answers:** 143 Q&As

( [Certification I](#) )

Exam : [HP0-090](#)

"HP-UX Virtual Server Environment", also known as HP0-090 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 143 Q&As to your HP0-090 exam preparation. In the HP0-090 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-090 (HP-UX Virtual Server Environment) examination of original title complete coverage. HP0-090 exam questions help you pass the exam.

#### **Just4Study HP0-090 Feature:**

\* High quality - High quality and valued for the HP0-090 Exam: 100% Guarantee to Pass Your HP0-090 exam and get your Certification I certification.

\* Authoritative - Authoritative braindumps with complete details about HP0-090 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-090 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-090 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free HP0-090 Demo Download**

Just4Study offers free demo for Certification I HP0-090 exam (HP-UX Virtual Server Environment). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP Certification I HP0-090** examination of original title complete coverage. HP0-090 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

#### **VUE/Prometric Code: HP0-090**

Exam Name: HP-UX Virtual Server Environment( Certification I )

Questions and Answers: 143 Q&A

[HP HP0-090](#) Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you

also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

Just4Study professional provide Certification I HP0-090 the newest Q&A, completely covers HP0-090 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-090 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

*Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.*

Exam : HP HP0-090

Title : HP-UX Virtual Server Environment

1. Which virtualization feature is unique to HP Integrity Servers with VSE versus IBM pSeries servers?

- A. resource partitioning within a single OS image
- B. sub-processor partitions executing separate OS images
- C. single processor partitions executing separate OS images
- D. electrically isolated partitions executing separate OS images

Answer: D

2. Where can Secure Resource Partitions (that use HP Process Resource Manager) run? (Select two.)

- A. Virtual Partitions
- B. Linux on Integrity
- C. HP Integrity Virtual Machines Host
- D. HP Integrity Virtual Machines Guest

Answer: AD

3. Which virtualization feature is unique to HP Integrity Servers with VSE versus SUN Solaris servers?

- A. resource partitioning within a single OS image
- B. secure resource access within a single OS image
- C. sub-processor partitions executing separate OS images
- D. electrically isolated partitions executing separate OS images

Answer: C

4. Your company has an installed base of servers with an average utilization of 10% and an average peak utilization of 40%.

What is the best solution to implement to improve server utilization and reduce costs?

- A. high availability - increasing the number of redundant servers
- B. patching - updating every operating system instance to the latest revision
- C. server upgrades - replacing old servers with newer, more powerful servers
- D. consolidation - stacking multiple applications and/or operating systems on fewer servers

Answer: D

5. Click the Exhibit button.

You want to manage Bullseye and Hannah vPars with HP Global Workload Manager (gWLM). You want to ensure that, if possible, utilization does not exceed 85% for either workload; even if it means activating Temporary Instant Capacity. In addition, you also want to maximize the flexibility of the solution.

How should you set up the gWLM policies?

- A. CPU Utilization policy with a min of 1 CPU, max of 5 CPUs, target utilization of 85%
- B. Own Borrow policy with a min of 1 CPU, max of 8 CPUs, target utilization of 85%

- C. CPU Utilization policy with a min of 1 CPU, max of 7 CPUs, target utilization of 85%
- D. Percent Utilization policy with a min of 1 CPU, max of 5 CPUs, target utilization of 85%

Answer: C

6. What are the utility pricing components of the HP Virtual Server Environment? (Select four.)

- A. Pay-per-use
- B. Trial Capacity
- C. Instant Capacity
- D. On/Off Capacity
- E. Standby Capacity
- F. Grid Compute Utility
- G. Pay-per-transaction
- H. Global Instant Capacity
- I. Temporary Instant Capacity
- J. Capacity Upgrade On Demand

Answer: ACHI

7. There are multiple methods for configuring WBEM authentication credentials for managed systems in HP Systems Insight Manager.

Select any two of these methods from the options below. (Select two.)

- A. mxinitconfig command
- B. vseinitconfig command
- C. mxagentconfig command
- D. mxnodesecurity command
- E. First Time Wizard user interface
- F. Options -> Protocol Settings -> Discovery user interface
- G. Options -> Protocol Settings -> Global Protocol Settings user interface
- H. Options -> Protocol Settings -> System Protocol Settings user interface

Answer: DG

8. What are the partitioning components of the HP Virtual Server Environment? (Select four.)

- A. vPars
- B. nPars
- C. containers
- D. dynamic LPars
- E. Dynamic System Domains
- F. HP System Insight Manager
- G. HP Integrity Virtual Machines
- H. HP Secure Resource Partitions

Answer: ABGH

9. Your company has a lot of under-utilized HP Integrity servers. However, whenever a new project starts, it takes weeks to months to provision (plan, get approval, order, install, and configure) a new server.

How can the HP Virtual Server Environment (HP VSE) solutions help shorten the time to deploy a new operating system instance?

- A. They allow you to order servers with unpurchased capacity.
- B. They allow you to outsource some of your peak computing requirements to HP.
- C. They help plan new servers so that the server is large enough to handle the workload.
- D. They allow you to identify free capacity on your existing servers and provision new operating systems in that capacity.

Answer: D

10. Your company purchases servers for a single application and normally sizes them for the anticipated maximum

load expected in three years. However, many times the actual application never grows beyond the initial size.

Which HP Virtual Server Environment component reduces costs while ensuring that the capacity is available if the application grows in size?

- A. HP Partitioning solutions
- B. HP Utility Pricing solutions
- C. HP High Availability solutions
- D. HP Virtual Server Environment Suite

Answer: B

11. What are key benefits of server virtualization?

- A. improved reliability and high availability, lower total cost of ownership
- B. higher server utilization, increased time to production for new systems
- C. higher server utilization, lower total cost of ownership, better application performance
- D. system administration is simplified due to less complexity, better application performance

Answer: C

12. What are the intelligent control products in the HP Virtual Server Environment? (Select four.)

- A. HP VirtualCenter
- B. HP Virtualization Engine
- C. HP Server Migration Pack
- D. HP Integrity Essentials iLO
- E. HP Systems Insight Manager
- F. HP Integrity Essentials VMotion
- G. HP Virtual Machine Management Pack
- H. HP Integrity Essentials Capacity Advisor
- I. HP Integrity Essentials Virtualization Manager
- J. HP Integrity Essentials Global Workload Manager

Answer: EHIJ

13. What is the HP definition of virtualization?

- A. the process of abstracting applications and operating systems from physical resources
- B. an approach to IT that pools and shares resources so utilization is optimized and supply automatically meets demand
- C. an approach that allows you to run multiple operating systems at the same time on the same server without rebooting or repartitioning your disk
- D. the process of presenting a logical grouping or subset of computing resources so that they can be accessed in ways that are different than the physical configuration

Answer: B

14. A customer has several large mission critical workloads, each having different OS tuneables and application patch levels.

They want to implement a midrange Integrity server solution and use partitioning to provide the highest levels of isolation.

Which VSE approach is best?

- A. nPartitions
- B. Virtual Partitions
- C. Integrity Virtual Machines
- D. Process Resource Manager

Answer: A

15. In which server infrastructure can you deploy the HP Virtual Server Environment?

- A. HP ProLiant servers
- B. HP NonStop servers

- C. Unix servers from all vendors
- D. HP Integrity and HP 9000 servers

Answer: D

16. A university implements an Integrity server solution with VSE. Three departments have combined their money to purchase this server and have configured three vPars; one for each department. There are no Instant Capacity processors in the system.

Which approach ensures each department receives their fair share of the server, yet also allows other departments use of unused CPU cycles?

- A. gWLM with processor sets
- B. gWLM with Own Borrow policies
- C. PRM with the fair share scheduler
- D. WLM with Temporary Instant Capacity processors

Answer: B

17. Which high availability components are part of the HP Virtual Server Environment? (Select four.)

- A. HP Sysplex
- B. HP Hyperplex
- C. HP Metrocluster
- D. HP Serviceguard
- E. HP Continentalclusters
- F. HP Veritas Cluster Server
- G. HP Serviceguard Storage Management Suite

Answer: CDEG

18. Click the Exhibit button.

A customer has consolidated six L2000 servers to Virtual Partitions in an rx8620 as shown in the diagram. The Virtual Partitions are managed by Global Workload Manager (gWLM).

Which commands can be used to determine how many processors are allocated to the Mater vPar? (Select two.)

- A. vparstatus on the Mater vPar
- B. gwlmsstatus on the Mater vPar
- C. gwlms monitor on the Mater vPar
- D. vparstatus on the gWLM central management server
- E. gwlms monitor --workload=Mater on the gWLM central management server

Answer: AE

19. Which command line interface (CLI) command may be used to start (power on) a virtual machine? (Select two.)

- A. hpvmstart
- B. hpvmstatus
- C. hpvmcreate
- D. hpvmmodify
- E. hpvmconsole

Answer: AE

20. Click the Task Button.

Using drag and drop, match each virtualization solution with the correct description.
