HP0-725: Enterprise Integration and Management of HP ProLiant Servers

Practice Exam: HP0-725 Exams

Exam Number/Code: HP0-725

Exam Name: Enterprise Integration and Management of HP ProLiant Servers

Questions and Answers: 107 Q&As

([HP ASE](#))

Exam : [HP0-725](#)

"Enterprise Integration and Management of HP ProLiant Servers", also known as HP0-725 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 107 Q&As to your HP0-725 exam preparation. In the HP0-725 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP HP ASE HP0-725 (Enterprise Integration and Management of HP ProLiant Servers) examination of original title complete coverage. HP0-725 exam questions help you pass the exam.

Just4Study HP0-725 Feature:

* High quality - High quality and valued for the HP0-725 Exam: 100% Guarantee to Pass Your HP0-725 exam and get your HP ASE certification.

* Authoritative - Authoritative braindumps with complete details about HP0-725 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed HP ASE resources, you will minimize your **HP HP ASE** cost and be ready to pass your HP0-725 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free HP ASE demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-725 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HP0-725 Demo Download

Just4Study offers free demo for HP ASE HP0-725 exam (Enterprise Integration and Management of HP ProLiant Servers). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP HP ASE HP0-725** examination of original title complete coverage. HP0-725 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HP0-725

Exam Name: Enterprise Integration and Management of HP ProLiant Servers(HP ASE)

Questions and Answers: 107 Q&A

[HP HP0-725](#) Test belongs to one of the HP ASE certified test, if needs to obtain the HP ASE certificate, you also need to participate in other related test, the details you may visit the [HP ASE](#) certified topic, in there, you will see all related HP ASE certified subject of examination.

Just4Study professional provide HP ASE HP0-725 the newest Q&A, completely covers HP0-725 test original topic. With our complete HP ASE resources, you will minimize your HP ASE cost and be ready to pass your HP0-725 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-725

Title : Enterprise Integration and Management of HP ProLiant Servers

1. When helping a customer plan a large HP ProLiant solution utilizing ML and DL servers, what sizing and planning tool is available from HP?

- A. Rapid Deployment Pack
- B. Custom Builder
- C. HP Systems Insight Manager
- D. SecurePath Manager

Answer: B

2. How is high availability attained in a cluster configuration?

- A. by managing and tolerating failures of separate components
- B. by allowing a failed card to be replaced without having to quiesce applications
- C. by enabling the server to continue to receive power even if one power supply should fail
- D. by preventing single-bit memory errors from propagating into double-bit memory failures

Answer: A

3. A systems administrator connects to a Windows server using Remote Insight Lights Out Edition II (RILOE II). The mouse response of the graphical remote console is extremely slow. What could be done to the server to improve performance? Select TWO.

- A. Change the server display settings to the highest quality.
- B. Enable mouse acceleration.
- C. Uncheck the "Enable pointer shadow" option.
- D. Set the display resolution to 640 x 480.
- E. Select None for the mouse pointer scheme.

Answer: CE

4. Which business value tool is available to determine Return On Investment (ROI) for a customer who has more than 100 HP ProLiant servers?

- A. Microsoft Business Evaluation Tool
- B. HP Survey Utility
- C. HP TCO Snapshot Tool
- D. HP Strategic Operations Tool (SOT)

Answer: C

5. User Datagram Protocol (UDP) packets communicate using what layer of the OSI model?

- A. network
- B. internet

- C. transport
- D. application

Answer: C

6. Which business value tool is recommended by HP for determining Return On Investment (ROI) and Total Cost of Ownership (TCO)?

- A. Microsoft-TCO Evaluation Tool
- B. ActiveAnswers Sizer
- C. Gartner-TCO Analyst tool
- D. Strategic Operations Model (SOM)

Answer: C

7. What is required to successfully implement an HP Rapid Deployment Pack (RDP) solution without using a boot disk? Select TWO.

- A. DNS
- B. DHCP
- C. IPSec
- D. TCP/IP
- E. IPX/SPX

Answer: BD

8. During installation of the Version Control Agent (VCA), what will occur if a previous version is detected?

- A. HP ProLiant Setup halts the installation and requests that the agent be updated.
- B. HP ProLiant Setup continues by initiating an upgrade.
- C. HP ProLiant Setup continues with a reinstall of the same version of the agent.
- D. HP ProLiant Setup sees the existing agent and continues to the next step.

Answer: B

9. What is the maximum transmission distance between two Fibre Channel nodes using multimode (50/125) cable at 1Gb speed?

- A. 200m
- B. 500m
- C. 10km
- D. 70km

Answer: B

10. A customer needs to know what modules are currently installed on an HP ProLiant server running Linux. Which command will report this information?

- A. Modprobe
- B. Ismod
- C. Insmod
- D. Rmmod

Answer: B

11. An application is launched without Resource Partitioning Manager, but a resource partition containing the application has been activated. How will Resource Partitioning Manager respond?

- A. track reporting data for the partition, but not assign resources
- B. monitor the application and dynamically assign resources
- C. immediately shut down the application and reclaim the resources
- D. allow the application to run with limited resources

Answer: B

12. A systems engineer plans to deploy a group of HP ProLiant DL380 G3 servers using HP Rapid Deployment Pack

(RDP). The engineer plans to use the default scripted install task for Windows Server 2003. However, the engineer wants to use a custom hardware configuration and custom array configuration. What would be the easiest method to do this?

- A. Modify the mldl-h.ini hardware configuration file. Add the custom hardware and array options to the file.
- B. Modify the mldl-a.ini hardware configuration file. Add the custom hardware and array options to the file.
- C. Capture the hardware configuration and array configuration of an existing server.
- D. Capture an image of an existing server.

Answer: C

13. Which component does Version Control Repository Manager (VCRM) work with to perform version control and update of HP system software?

- A. Network Agent
- B. Version Control Agents
- C. Foundation Agents
- D. Storage Agent

Answer: B

14. A customer can obtain the Version Control Agent (VCA) from the HP website and from what other location?

- A. SmartStart CD
- B. Rapid Deployment Pack CD
- C. QuickFind 2000
- D. SmartStart Scripting Toolkit CD

Answer: A

15. Which Intel processor supports memory above 4GB for application use?

- A. Pentium Pro
- B. Pentium II
- C. Pentium II Xeon
- D. Pentium III

Answer: C

16. A customer running a large database application on an HP ProLiant server reports slow transaction execution during heavy update activity. The database transaction log resides on a set of four drives configured as RAID 5, and the associated disk queue length is 24. How can I/O performance be improved and disk redundancy maintained without adding hardware?

- A. Migrate the RAID 5 volume to RAID ADG.
- B. Enable write-through caching on the array controller.
- C. Migrate the RAID 5 volume to RAID 1+0.
- D. Enable read-ahead caching for the array controller.

Answer: C

17. When proposing a new HP ProLiant server for an enterprise-class customer, which bus type gives the best performance for high-bandwidth devices such as Gigabit Ethernet controllers?

- A. PCI-X
- B. PCI
- C. EISA
- D. SCSI

Answer: A

18. A company has a policy that all passwords must be changed every 45 days. This includes Web Agent passwords for HP Management Agents and SNMP community strings. The customer has 400 HP ProLiant servers. How can the customer change SNMP community strings and Web Agent passwords using HP Systems Insight Manager?

- A. Use the Windows 2000 File replication service to replicate the cpqhmmd.acl cpqhmmd.acl to the C:\Compaqwbem

directory on each server.

B. Create a polling task in Insight Manager to have the managed devices poll the Insight Manager server for the new password and SNMP

community string information.

C. Create a group configuration task to retrieve the passwords and community strings from a preconfigured server.

Distribute the passwords and

community strings to all the managed devices.

D. Create a password request form at each managed device. Send the request to HP Systems Insight Manager. Have Insight Manager create a

control task to distribute the passwords to each requesting device.

Answer: C

19. What is the correct method for initiating a firmware upgrade on an HP ProLiant BL class interconnect switch?

A. Telnet session

B. FTP session

C. Secure shell (SSH)

D. Console session

Answer: D

20. Which media technology provides the longest possible storage life?

A. Digital Audio Tape (DAT)

B. Magneto-Optical

C. Digital Linear Tape (DLT)

D. Ultrium

Answer: B
