HP Certification I

HP0-771: Designing & Implementing HP Enterprise Backup Solutions

Practice Exam: HP0-771 Exams

Exam Number/Code: HP0-771

Exam Name: Designing & Implementing HP Enterprise Backup Solutions

Questions and Answers: 60 Q&As

([Certification I](#))

"Designing & Implementing HP Enterprise Backup Solutions", also known as HP0-771 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 60 Q&As to your HP0-771 exam preparation. In the HP0-771 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Exam : [HP0-771](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-771 (Designing & Implementing HP Enterprise Backup Solutions) examination of original title complete coverage. HP0-771 exam questions help you pass the exam.

Just4Study HP0-771 Feature:

* High quality - High quality and valued for the HP0-771 Exam: 100% Guarantee to Pass Your HP0-771 exam and get your Certification I certification.

* Authoritative - Authoritative braindumps with complete details about HP0-771 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-771 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-771 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HP0-771 Demo Download

Just4Study offers free demo for Certification I HP0-771 exam (Designing & Implementing HP Enterprise Backup Solutions). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP Certification I HP0-771** examination of original title complete coverage. HP0-771 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HP0-771

Exam Name: Designing & Implementing HP Enterprise Backup Solutions(Certification I)

Questions and Answers: 60 Q&A

HP HP0-771 Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

Just4Study professional provide Certification I HP0-771 the newest Q&A, completely covers HP0-771 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-771 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-771

Title : Designing & Implementing HP Enterprise Backup Solutions

1. A customer finds that backup jobs are unsuccessful. The backup software is able to detect the library and its tape drives. The customer stops all backup jobs and decides to update the firmware for the MSL6060 library using Library and Tape Tools but, Library and Tape Tools is unable to start the firmware upgrade. Which should be performed?

- A. Download the latest patches for the backup software.
- B. Install Library and Tape Tools on a workstation instead.
- C. Verify that the Fibre Channel Interface Controller detects the library.
- D. Stop the backup application services or daemons on the backup server.

Answer: D

2. Which tool requires a serial cable for a firmware upgrade on the MSL6000 library?

- A. MSLUtil
- B. LibDiag
- C. Library and Tape Tools
- D. Remote Management Interface

Answer: A

3. Which two components of the MSL6060 Library are hot-swappable? (Choose two.)

- A. fans
- B. tape drives
- C. power supplies
- D. robotics control module

Answer: BC

4. What is the maximum supported number of Ultrium 460 drives on a NSR M2402, configured with a single SCSI module, in order to achieve constant feed rate?

- A. one
- B. two
- C. four
- D. eight

Answer: C

5. As a result of disabling the left load port in an ESL E-Series library, which statement is true?

- A. The left load port no longer provides any function.
- B. The right load port no longer provides any function.
- C. The left load port can then be used as standard slots.
- D. The left load port can then be used for unloading and loading tapes.

Answer: C

6. To what protocol does the NSR translate the Fibre Channel protocol?

- A. iSCSI protocol
- B. FATA protocol
- C. SCSI protocol
- D. SATA protocol

Answer: C

7. A customer is using a MSL6060 library with four tape drives. The library is directly attached to a server via SCSI HBAs. The library currently has no cards in the cPCI slots.

The customer wishes to share the tape library in a SAN environment. Which two hardware changes to the library will be needed, assuming that all other components in the SAN already exist? (Choose two.)

- A. The customer should connect a Fibre cable from the existing Library Controller board into a Fibre Channel switch.
- B. The customer should remove the existing Library Controller board and replace it with a Fibre Channel Library Controller board.
- C. The customer should add a Network Storage Router M2402 to the SAN and connect the tape drives to the router.
- D. The customer should add two e1200-160 Interface Controllers to the cPCI slots and connect the tape drives to the Interface Controllers.
- E. The customer should add one e2400-160 Interface Controller into a cPCI slot and connect the tape drives to the Interface Controller.

Answer: CD

8. What is the purpose of HP OpenView Storage Media Operations?

- A. It automates the media lifecycle process
- B. It tracks media movement
- C. It tracks data movement
- D. It tracks tape drive movement

Answer: AB

9. A customer wishes to upgrade the firmware on the MSL6060 library. Which tool requires a server that has SAN or SCSI access to the library?

- A. MSLUtil
- B. LibDiag
- C. Library and Tape Tools
- D. Remote Management Interface

Answer: C

10. The administrator is unable to verify who has an open session with Command View ESL. The administrator needs to access the library to update the firmware. Which two actions should the administrator take in order to upgrade the firmware? (Choose two).

- A. Power cycle the library.
- B. Run the CLI via a serial cable.
- C. Run the CLI via telnet.
- D. Power cycle the backup server.

Answer: BC

11. What two levels of library access does the advanced mode of Secure Manager allow? (Choose two.)

- A. drive
- B. zone
- C. library
- D. backup

Answer: AC

12. Which of the following steps should the administrator perform after installing Command View ESL? (Choose two).

- A. Configure host access to the library.
- B. Configure SCSI IDs for each tape drive.
- C. Configure encryption settings for the library.
- D. Configure identification properties for each library.
- E. Configure compression settings for each tape drive.

Answer: AD

13. While the MSL6030 library is online, what is the purpose of the mail slot?

- A. formatting new tapes
- B. holding a cleaning tape
- C. loading and unloading tapes
- D. transferring tapes between stacked libraries

Answer: C

14. What is a key reason Fibre Channel can help cut costs in secondary storage?

- A. the speed of Fibre Channel tape devices compared to SCSI tape devices
- B. the lower prices of Fibre Channel components relative to SCSI components
- C. Fibre Channel's ability to allow multiple servers to directly access a shared tape library
- D. Fibre Channel's ability to allow tape devices of different interfaces to share a single Fibre Channel switch

Answer: C

15. What are three reasons to use the Enterprise Backup Solution? (Choose three.)

- A. dynamic access to archived data
- B. centralization of data management
- C. rapid growth of data in a data center environment
- D. share a tape library only in Linux, Novell, HP-UX, and Tru64 UNIX
- E. integration of supported data protection software and industry-standard hardware

Answer: BCE
