HP0-D01: Planning and Designing HP Enterprise Solutions

Practice Exam: HP0-D01 Exams

Exam Number/Code: HP0-D01

Exam Name: Planning and Designing HP Enterprise Solutions

Questions and Answers: 100 Q&As

([HP APS](#))

"Planning and Designing HP Enterprise Solutions", also known as HP0-D01 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 100 Q&As to your HP0-D01 exam preparation. In the HP0-D01 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Exam : [HP0-D01](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP HP APS HP0-D01 (Planning and Designing HP Enterprise Solutions) examination of original title complete coverage. HP0-D01 exam questions help you pass the exam.

Just4Study HP0-D01 Feature:

- * High quality - High quality and valued for the HP0-D01 Exam: 100% Guarantee to Pass Your HP0-D01 exam and get your HP APS certification.
- * Authoritative - Authoritative braindumps with complete details about HP0-D01 exam.
- * Cheaper - Our Just4Study products are cheaper than any other website. With our completed HP APS resources, you will minimize your **HP HP APS** cost and be ready to pass your HP0-D01 exam on Your First Try, 100% Money Back Guarantee included!
- * Free - Try free HP APS demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-D01 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HP0-D01 Demo Download

Just4Study offers free demo for HP APS HP0-D01 exam (Planning and Designing HP Enterprise Solutions). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP HP APS HP0-D01** examination of original title complete coverage. HP0-D01 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HP0-D01

Exam Name: Planning and Designing HP Enterprise Solutions(HP APS)

Questions and Answers: 100 Q&A

[HP HP0-D01](#) Test belongs to one of the HP APS certified test, if needs to obtain the HP APS certificate, you also need to participate in other related test, the details you may visit the [HP APS](#) certified topic, in there, you will see all related HP APS certified subject of examination.

Just4Study professional provide HP APS HP0-D01 the newest Q&A, completely covers HP0-D01 test original topic. With our complete HP APS resources, you will minimize your HP APS cost and be ready to pass your HP0-D01 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Exam : HP HP0-D01

Title : Planning and Designing HP Enterprise Solutions

1. A customer is using an HP 9000 rp7420 Server and would like to increase system performance. Which option is most cost effective?

- A. in-box upgrade
- B. scale-in upgrade
- C. scale-up upgrade
- D. box swap upgrade

Answer: A

2. You must verify that the existing data center power and cooling can support 15 units of fully populated, c7000 enclosures. Which resource provides information about heat-generated air flow and power requirements for the enclosures?

- A. ActiveAnswers
- B. BladeSystem Sizer
- C. StorageWorks Sizer
- D. SalesBUILDER for Windows

Answer: B

3. You must verify the supported connectivity between a server platform and an HP StorageWorks EVA storage array. You must also determine if additional software or tools are needed to implement the solution.

Which resource provides this information?

- A. HP Enterprise Configurator
- B. HP SalesBUILDER for Windows
- C. HP SAN Design Reference Guide
- D. HP StorageWorks Administrator Guide

Answer: C

4. What is the maximum number of hard partitions (nPars) supported for an HP Integrity rx7640 Server configuration?

- A. 2
- B. 4
- C. 8
- D. 16

Answer: A

5. A customer is planning to migrate their SQL database to a new server. Which information will help you select the right server? (Select two.)

- A. number of available I/O slots

- B. projected growth in terms of new users
- C. current system user list and installed software patches
- D. plans to migrate this system to another operating system

Answer: BD

6. Which tool contains detailed technical information about retired HP products?

- A. HP PartSurfer
- B. HP Product Bulletin
- C. HP Product Information Tool
- D. HP Performance Quick Reference Tool

Answer: B

7. When conducting a site survey, which factors are critical to the deployment of several hundred c-Class enclosures? (Select two.)

- A. electrical workload
- B. shipments to the facility
- C. helpdesk response time
- D. amount of heat generated
- E. fire hazard protection in the facility

Answer: AD

8. Which information is relevant in determining if a customer needs a high-availability solution?

- A. criticality of applications
- B. type of networking speed
- C. type of Fibre Channel speed
- D. response time on application support

Answer: A

9. A customer is interested in implementing the proactive performance capturing and optimization reporting functionality within the HP Insight Control Environment (ICE) suite. Which operating systems are supported? (Select two.)

- A. Linux
- B. HP-UX
- C. Solaris
- D. Windows
- E. OpenVMS

Answer: AD

10. When conducting a site survey, which factors are critical to the deployment of 35 units of rx8640 server complexes? (Select three.)

- A. electrical workload
- B. helpdesk response time
- C. amount of heat generated
- D. equipment loading in the facility
- E. fire hazard protection in the facility

Answer: ACD

11. Which information is crucial when preparing a site for new HP servers and storage?

- A. BTU factor, power consumption, airflow
- B. BTU factor, airflow, operating system properties
- C. BTU factor, Restriction of Hazardous Substances (RoHS) compliance
- D. airflow, Restriction of Hazardous Substances (RoHS) compliance, operating system properties

Answer: A

12. During a site survey, you must identify the scalability of an existing rx6600 server. What is the maximum number of processor modules supported for the HP Integrity rx6600 Server?

- A. 2
- B. 4
- C. 6
- D. 8

Answer: B

13. Which information do you need from the customer to use the HP StorageWorks Sizing Tool to size a data protection solution?

- A. total storage capacity, number of servers, and file system type
- B. total storage usage, data read:write ratio, and file cache hit rate
- C. server workload ratio, transactions per second (tps), and file system type
- D. total backup time, percentage of data change, and storage network (SAN) performance

Answer: D

14. A customer recently purchased and implemented an 8-node cluster consisting of HP Integrity rx8640 Servers running on an HP OpenVMS cluster. They are using medical applications on those systems.

Which solution should the customer consider to enhance the management of the current infrastructure?

- A. Insight Power Management
- B. Rapid Deployment Solution
- C. HP Systems Insight Manager
- D. Vulnerability and Patch Management

Answer: C

15. Which information is relevant in determining if a customer needs a business continuity solution?

- A. criticality of applications
- B. type of networking speed
- C. type of Fibre Channel speed
- D. response time on application support

Answer: A

16. What is the maximum number of hard partitions (nPars) supported for an HP Integrity rx8640 Server configuration?

- A. 2
- B. 4
- C. 8
- D. 16

Answer: B

17. A customer recently purchased and implemented an 8-node cluster consisting of HP Integrity rx8640 Servers running HP-UX 11i v3 and HP Serviceguard. They are using an Oracle 10g and SAP solution on those systems.

Which solution should the customer consider to enhance the current infrastructure?

- A. Virtual Server Environment
- B. Insight Power Management
- C. Rapid Deployment Solution
- D. Vulnerability and Patch Management

Answer: A

18. You are evaluating whether a customer's infrastructure can benefit from consolidating on an HP BladeSystem c-Class with Insight Control Environment management.

Which customer requirements would indicate this? (Select three.)

- A. high-volume deployment

- B. power and cooling limitations
- C. single server point management
- D. support for dynamic RAID memory protection
- E. quick redeployment through rip-and-replace technology

Answer: ABE

19. Which resource can be used to plan and configure HP servers and HP storage in a data center?

- A. StorageWorks Sizer
- B. SalesBUILDER for Windows
- C. Performance Quick Reference Tool
- D. HP 9000 and HP Integrity Ordering Guide

Answer: B

20. A customer is planning to migrate their SQL database to a new server. Which information will help you select the right server? (Select two.)

- A. current system power utilization
- B. projected growth in terms of new users
- C. current user workload and transactions per second
- D. current system user list and installed software patches

Answer: BC
