HP0-J10: Implementing HP storageWords XP Disk Array Solutions

Practice Exam: HP0-J10 Exams

Exam Number/Code: HP0-J10

Exam Name: Implementing HP storageWords XP Disk Array Solutions

Questions and Answers: 75 Q&As

([Certification I](#))

Exam : [HP0-J10](#)

"Implementing HP storageWords XP Disk Array Solutions", also known as HP0-J10 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 75 Q&As to your HP0-J10 exam preparation. In the HP0-J10 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-J10 (Implementing HP storageWords XP Disk Array Solutions) examination of original title complete coverage. HP0-J10 exam questions help you pass the exam.

Just4Study HP0-J10 Feature:

* High quality - High quality and valued for the HP0-J10 Exam: 100% Guarantee to Pass Your HP0-J10 exam and get your Certification I certification.

* Authoritative - Authoritative braindumps with complete details about HP0-J10 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-J10 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-J10 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HP0-J10 Demo Download

Just4Study offers free demo for Certification I HP0-J10 exam (Implementing HP storageWords XP Disk Array Solutions). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP Certification I HP0-J10** examination of original title complete coverage. HP0-J10 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HP0-J10

Exam Name: Implementing HP storageWords XP Disk Array Solutions(Certification I)

Questions and Answers: 75 Q&A

HP HP0-J10 Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

Just4Study professional provide Certification I HP0-J10 the newest Q&A, completely covers HP0-J10 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-J10 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-J10

Title : Implementing HP StorageWorks XP Disk Array Solutions

1. Which statement is correct about Performance Advisor XP?

- A. It automatically tunes performance over a 24 hour period of time.
- B. It has the ability to set and relax host priorities by performance policies.
- C. It collects data on a real-time basis and displays current performance patterns.
- D. It allows for intelligent allocations of array resources for service-level oriented deployment.

Answer: C

2. Which features offered through HP StorageWorks Command View XP Advanced Edition are not available with Remote Web Console XP? (Select two.)

- A. reporting
- B. cache partitioning
- C. SNMP trap forwarding
- D. TSM and Replication Monitor
- E. automation of BC/CA HORCM file creation

Answer: AE

3. A customer has a heterogeneous environment consisting of AIX and Solaris servers. Which software products can be used to implement an extended application failover solution? (Select two.)

- A. Metro Cluster
- B. ServiceGuard
- C. Cluster Extension XP
- D. Continuous Access XP
- E. LUN Security XP Extension

Answer: CD

4. Which statements are true about the HP StorageWorks Command View XP Advanced Edition CLI? (Select two.)

- A. CLI cannot be used for license management.
- B. Input can be single line entries or scripted batch files.
- C. CLI is a separately licensed product with the XP24000.
- D. When installed, the CLI is executed from the SVP in the array.
- E. CLI is used if a text-based interface is preferred over the GUI or when it is more efficient to run scripts or batch files to manage XP disk arrays.

Answer: BE

5. What is the back-end architecture of the XP24000?

- A. Ultra SCSI

- B. Serial ATA
- C. FC-AL 4Gb
- D. FC-SW 2Gb

Answer: C

6. When must a customer use HP StorageWorks Command View XP Advanced Edition over Remote Web Console XP?

- A. simple LUN management
- B. CLI based array management
- C. Business Copy XP management
- D. centralized management of multiple XP arrays

Answer: D

7. Where does the HP StorageWorks Command View XP Advanced Edition management server store configuration and statistics information?

- A. out on the individual host agents
- B. in shared memory of the XP array
- C. on the SVPs of each array subsystem
- D. in a local database on the management server

Answer: D

8. A customer wants to use the copy pair operations feature of HP StorageWorks Command View XP Advanced Edition. What is required? (Select two.)

- A. a host agent
- B. RAID Manager XP
- C. an external database
- D. at least 32GB of cache

Answer: AB

9. Which statements are true when using the 16-port CHA pair, rather than the 8-port CHA pair? (Select two.)

- A. There is improved high availability functionality.
- B. There is improved front-end array performance.
- C. A maximum of two are supported per XP24000.
- D. Fibre Channel connectivity (port count) increases.
- E. The number of heterogeneous host types increases.
- F. Front-end array performance is typically not increased.

Answer: DF

10. Which additional features are added by HP StorageWorks Command View XP Advanced Edition over Remote Web Console XP? (Select three.)

- A. array administration
- B. SNMP trap forwarding
- C. single sign-on user authentication
- D. logical grouping of storage capacity
- E. assignment of cache LUNs to hosts
- F. displaying host specific device information

Answer: CDF

11. A customer wants to manage their storage environment using HP Storage Essentials. Which XP device software tool is required to allow HP Storage Essentials to manage an XP24000 array?

- A. External Storage XP
- B. Remote Web Console XP
- C. LUN Configuration and Security Manager XP

D. A separate software license is not required, as the capability is included in HP Storage Essentials

Answer: D

12. Which software allows XP disk array resources to be allocated to hosts by setting performance limits?

- A. AutoLUN XP
- B. Command View XP
- C. Resource Manager XP
- D. Performance Control XP
- E. Performance Advisor XP

Answer: D

13. Which statements are true about the XP24000 cache? (Select three.)

- A. It supports duplexed reads.
- B. It supports duplexed writes.
- C. It is divided across two power domains.
- D. It is used for DKA control and command.
- E. It is a temporary storage area for data from the host prior to being written to disk.

Answer: BCE

14. Which statements are true about AutoLun XP? (Select two.)

- A. It provides on-line LUN expansion.
- B. It provides automatic or manual backend load leveling.
- C. It provides seamless failover in the event of cluster failures.
- D. It provides automatic path failover in the event of an HBA or CHA port failure.
- E. It provides for migration of data from RAID5 to RAID1 without host interruption.

Answer: BE

15. Which XP array component transfers data between disk drives and cache memory?

- A. Disk Adapter (DKA)
- B. Shared Memory PCB
- C. Channel Adapter (CHA)
- D. Service Processor (SVP)

Answer: A
