Exam : HP HP0-M12

Title : HP WinRunner 9.2 Software

1. A test script contains both Context Sensitive and Analog recording. The script keeps failing on the window where the Analog recording is played back. Which function can you include in your script to ensure that windows and objects are in the same locations as when the test was recorded?

- A. win_move function
- B. GUI_load function
- C. invoke_app function
- D. set_window function

Answer: A

2. Click the Exhibit button.

You want to synchronize on the Status Bar with the text "Insert Done... ". Which TSL statement would meet this requirement?

- A. wait(10);
- B. obj_check_gui("Insert Done...", "list1.ckl", "gui1", 16);
- C. obj_wait_info("Insert Done...", "label", "Insert Done...", 10);
- D. obj_check_info("Insert Done...", "label", "Insert Done...", 10);

Answer: C

3. Click the Exhibit button.

Which method should you use to synchronize the application after logging in?

- A. wait for a bitmap to refresh
- B. wait for a window to appear
- C. wait for an object state change
- D. wait for a process screen to complete

Answer: B

4. During recording, WinRunner "listens" to the actions a user performs on the application (and to the response from the server) and creates a log of these steps. Which language does WinRunner use to create these steps in a script?

- A. C Language
- B. VBScript Language
- C. Test Script Language
- D. Virtual User Language

Answer: C

5. What is referred to as a WinRunner script that is used to initialize the working environment, including UI_load() and GUI_close_all() statements before test scripts are run?

- A. Loader script

- B. Startup script
- C. Function Library
- D. Function Generator

Answer: B

6. What is the default recording mode that WinRunner uses?

- A. Analog
- B. Low-level
- C. Standard / Default
- D. Context Sensitive

Answer: D

7. Which synchronization statement is automatically generated during recording?

- A. `win_activate("Flight Reservation");`
- B. `set_window ("Flight Reservation 10");`
- C. `obj_wait_bitmap("Flights", "Img2", 6, 7, 8, 101, 114);`
- D. `obj_wait_info("Insert Done...", "label", "Insert Done...", 10);`

Answer: B

8. You are testing a banking application. At 8 AM an employee logs in successfully and it takes about 5 seconds for the main menu window to appear. At 9 AM it takes approximately 15 seconds for the main menu window to appear after login. If you were to incorporate this time difference in a script, which WinRunner feature would you use so that the script runs successfully despite the difference in time for the main menu window to appear?

- A. Verify
- B. Data drive
- C. Synchronize
- D. Parameterize

Answer: C

9. What does the function `move_locator_track()` represent?

- A. a mouse over
- B. a mouse click
- C. a keyboard entry
- D. a function key press

Answer: A

10. The process for building a functional WinRunner script goes through four steps. What are these steps? (Select four.)

- A. plan the test
- B. synchronize
- C. record steps
- D. parameterize
- E. add verification
- F. analyze results
- G. execute the test

Answer: BCEG

11. How do you specify a 15-second timeout in the global timeout settings?

- A. 15
- B. 150
- C. 1500
- D. 15000

Answer: D

12. In a test, you have to record both in Context Sensitive and Analog modes. Which method should you use to switch recording from Analog back to Context Sensitive without capturing the mouse movements in the test script?

- A. Toolbar
- B. Softkey
- C. Menu command
- D. Right click (popup menu)

Answer: B

13. Upon invoking WinRunner, which feature lists the types of applications you can test?

- A. Add-In Manager
- B. RapidTest Wizard
- C. DataTable Wizard
- D. Recovery Scenario

Answer: A

14. In which file does WinRunner store user actions on the application under test captured during recording?

- A. lock
- B. script
- C. chklist
- D. debug

Answer: B

15. The test lead wants a copy of the WinRunner script you created. To provide him with a workable copy, which file or files do you need to supply? Assume that the name of the test is Test1A under which the following files and folders are included: lock, script, chklist, db, debug, exp, res1.

- A. Script.zip
- B. Test1A.zip
- C. Script, db, exp, res1 in a zip file
- D. Lock, script, chklist, and db in a zip file

Answer: B
