### HP Certification I

#### HP0-M25: Assessing Web Application Security

**Practice Exam:** HP0-M25 Exams

**Exam Number/Code:** HP0-M25

**Exam Name:** Assessing Web Application Security

**Questions and Answers:** 120 Q&As

( [Certification I](#) )

"Assessing Web Application Security", also known as HP0-M25 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 120 Q&As to your HP0-M25 exam preparation. In the HP0-M25 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Exam : [HP0-M25](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-M25 (Assessing Web Application Security) examination of original title complete coverage. HP0-M25 exam questions help you pass the exam.

#### **Just4Study HP0-M25 Feature:**

\* High quality - High quality and valued for the HP0-M25 Exam: 100% Guarantee to Pass Your HP0-M25 exam and get your Certification I certification.

\* Authoritative - Authoritative braindumps with complete details about HP0-M25 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-M25 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-M25 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free HP0-M25 Demo Download**

Just4Study offers free demo for Certification I HP0-M25 exam (Assessing Web Application Security). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP Certification I HP0-M25** examination of original title complete coverage. HP0-M25 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: HP0-M25**

Exam Name: Assessing Web Application Security( Certification I )

Questions and Answers: 120 Q&A

[HP HP0-M25](#) Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you

also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

Just4Study professional provide Certification I HP0-M25 the newest Q&A, completely covers HP0-M25 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-M25 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

Exam : HP HP0-M25

Title : Assessing Web Application Security

1. Which regular expression best matches the string 345-12-9876?

- A. d
- B. d\*.\$
- C. d{3-2-4}
- D. d{3}-d{2}-d{4}

Answer: D

2. After completing a Crawl-Only scan and clicking on the Audit button, which scan policy will be used?

- A. the policy selected by the user on-screen
- B. the policy listed in the Default Scan Settings
- C. the policy specified in the Application Settings
- D. the policy specified in the Current Scan Settings

Answer: A

3. What is a logout signature?

- A. a snapshot of the session state found when the user has lost session state
- B. a regular expression used to identify those responses that indicate session state has been lost
- C. the toolbar feature in Web Macro Recorder which automatically determines the macros regular expression
- D. a user-supplied keyword that will be inserted into the WebInspect scan data to indicate each response where a logout occurred

Answer: B

4. By default, what are the three response codes that would halt a scan on the first request?

- A. 404, 407, 502
- B. 200, 302, 404
- C. 304, 302, 500
- D. 403, 404, 500

Answer: A

5. Which statement best describes SmartUpdate?

- A. SmartUpdate is the process that delivers WebInspect Messages to the bottom of the Home tab.
- B. SmartUpdate is the feature that sends False Positives (FP) to the HP Support team as quality feedback.
- C. SmartUpdate is a process that retrieves updates to the local vulnerability database and any WebInspect binary updates.
- D. SmartUpdate automatically omits security checks whose specified server/application type does not match the current targetsb server/application fingerprint.

Answer: C

6. Which statement best describes the Request Retry Count function?

- A. The Request Retry Count indicates how long to wait for a response.
- B. The Request Retry Count indicates how long to wait before re-requesting the same, non-responsive page.
- C. The Request Retry Count indicates how many times to attempt a request before marking it as a null response.
- D. The Request Retry Count indicates how much time WebInspect will spend on a request before marking the requested page as a null response.

Answer: C

7. What is the difference between a Login Macro and a Start Macro? Select two.

- A. The Start Macro will run any time state needs to be re-established.
- B. The Start Macro is used to populate the assessment with known URLs.
- C. The Login Macro runs any time a page response matches its logout signature.
- D. The Login Macro only runs once to gain session state at the beginning of the assessment.
- E. The Start Macro is the Login Macro being forced to run once at the beginning of the assessment.

Answer: BC

8. Which option best describes a Manual Crawl (Step Mode) scan?

- A. This scan spiders the website, discovering all links and pages therein.
- B. This scan forces the user to provide all of the site pages by hand via their browser while the audit performs attacks.
- C. This scan discovers links/pages while attacking the same pages, running with multiple threads. A recursion setting allows new items discovered in the attack phase to be spidered further.
- D. This scan fully discovers the site structure first, followed by a phase of attacks of the same pages. A recursion setting allows new items discovered in the attack phase to be spidered further.

Answer: B

9. What are the Network Authentication techniques supported by WebInspect? (Select three.)

- A. NTLM
- B. Kerberos
- C. htaccess
- D. Cybersafe
- E. HTTP Basic
- F. Retinal Scan

Answer: ABE

10. Which is a valid option for Log File Purge settings under Application Settings?

- A. Purge When Exit
- B. By Total Scan Size
- C. By Log File Number
- D. Purge on SmartUpdate

Answer: C

11. What are some uses of regular expressions in WebInspect? Select two.

- A. They are used for response filtering and may be customized.
- B. They are used for filtering the vulnerabilities in the Dashboard.
- C. They are used for detecting the logout signature in a Login Macro.
- D. They are used for defect reporting when WebInspect is linked to Quality Center.
- E. They are used to group vulnerabilities in the Vulnerabilities tab in the Summary pane.

Answer: AC

12. Which policy focuses on auditing the functionality of the Web Application only?

- A. Standard policy
- B. Application policy

- C. Web Service policy
- D. Web Application policy

Answer: B

13. Which tool is used to create and edit the Web Form Values file?

- A. HTML Editor
- B. HTTP Editor
- C. Web Form Editor
- D. WebInspect Form Wizard

Answer: C

14. Which statement best describes the role of the "Web Form Values" file?

- A. The WebForm Values file is part of the standard policy.
- B. The WebForm Values file is generated during a scan to capture test parameters used during the scan.
- C. The WebForm Values file contains parameter names and provides static values to be submitted when testing webforms.
- D. The WebForm Values file is used to establish and maintain "state" with the application by monitoring webform authentication methods.

Answer: C

15. Which macro option will play and then start the scan off at its last recorded session, and none of the earlier sessions will be crawled and audited?

- A. Start Macro
- B. Login Macro
- C. Logout Macro
- D. Use macro for entry

Answer: D
