HP Certification I

HP0-Y13: ProCurve Network Management

Practice Exam: HP0-Y13 Exams

Exam Number/Code: HP0-Y13

Exam Name: ProCurve Network Management

Questions and Answers: 128 Q&As

([Certification I](#))

Exam : [HP0-Y13](#)

"ProCurve Network Management", also known as HP0-Y13 exam, is a HP certification. With the complete collection of exam questions, Just4Study has assembled to take you through 128 Q&As to your HP0-Y13 exam preparation. In the HP0-Y13 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for HP Certification I HP0-Y13 (ProCurve Network Management) examination of original title complete coverage. HP0-Y13 exam questions help you pass the exam.

Just4Study HP0-Y13 Feature:

* High quality - High quality and valued for the HP0-Y13 Exam: 100% Guarantee to Pass Your HP0-Y13 exam and get your Certification I certification.

* Authoritative - Authoritative braindumps with complete details about HP0-Y13 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Certification I resources, you will minimize your **HP Certification I** cost and be ready to pass your HP0-Y13 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Certification I demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the HP0-Y13 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free HP0-Y13 Demo Download

Just4Study offers free demo for Certification I HP0-Y13 exam (ProCurve Network Management). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **HP Certification I HP0-Y13** examination of original title complete coverage. HP0-Y13 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: HP0-Y13

Exam Name: ProCurve Network Management(Certification I)

Questions and Answers: 128 Q&A

[HP HP0-Y13](#) Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you

also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

Just4Study professional provide Certification I HP0-Y13 the newest Q&A, completely covers HP0-Y13 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-Y13 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : HP HP0-Y13

Title : ProCurve Network Management

1. Which attributes can be referenced in an IDM Access Rule to determine the Access Profile that will apply? (Select two.)

- A.username
- B.IP address
- C.WLAN SSID
- D.operating system
- E.endpoint integrity status

Answer: CE

2. Which product integrated with PCM+ can dynamically assign an ACL to a switch port?

- A.Mobility Manager
- B.Identity Driven Manager
- C.Network Node Manager
- D.Network Access Controller

Answer: B

3. Which features are only available in PCM+? (Select three.)

- A.Events browser
- B.custom device groups
- C.configuration templates
- D.sFlow traffic monitoring
- E.Configurable Integration Platform

Answer: CDE

4. What is required to use the automatic product registration feature in PCM?

- A.The devices to be registered must support SSH.
- B.The devices must be based on the ProVision ASIC hardware.
- C.The username and password of a My ProCurve account must be provided.
- D.The devices must be specified using an IP address range or domain name prefix.

Answer: C

5. Which features are only available in PCM+? (Select two.)

- A.node-to-node path trace tool
- B.VLAN network topology views
- C.device discovery using LLDP/MED
- D.switch-to-switch consistency checking
- E.device access through web and CLI interfaces

Answer: AD

6. Which capability does PCM+ support for managing ProCurve device software updates?

- A. The PCM+ management server can periodically download a software versions list to determine if updates are available.
- B. ProCurve switches that support the PCM+ Policy Manager can be scheduled to check the ProCurve download FTP site directly.
- C. Software image files can be downloaded directly to a USB drive on switches that support them and scheduled for installation at a later time.
- D. Checking for software updates to PCM+ and its plug-ins includes retrieving any available software updates for currently discovered devices.

Answer: A

7. Which statement is true about licensing options for PCM+ and its supported plug-ins?

- A. PCM+ licensing is based on the number of devices managed.
- B. Identity Driven Manager licensing is based on the number of devices managed.
- C. Mobility Manager licensing is based on the number of wireless clients managed.
- D. Network Immunity Manager licensing is based on the number of installed instances.

Answer: A

8. Which statements are true about events processing in PCM? (Select two.)

- A. Events from managed devices appear as SNMP traps.
- B. Events can originate from PCM application components.
- C. PCM+ is required to manage and archive events from managed devices.
- D. A trap policy must be configured for events to be accepted from devices in a custom group.
- E. By default, when a device is discovered it is registered as a trap sender in the PCM access.txt file.

Answer: AB

9. How can PCM discovery be customized to meet network operation preferences? (Select two.)

- A. Each phase can be configured to run at a different interval.
- B. A device can be permanently excluded from future discovery processing.
- C. It can be automatically restarted when a threshold number of devices become unreachable.
- D. A sleep timer can be applied when a high traffic volume level is detected on selected VLANs.
- E. Devices exhibiting periodic network disconnects can be monitored using a customized ping schedule.

Answer: AB

10. Which statement is true about the PCM client architecture?

- A. The client can be installed on Windows, Linux, and Macintosh computers.
- B. The client can be installed on several types of computers without requiring a license.
- C. The client performs network data collection and stores the data on the management server.
- D. The client installation is initiated using a browser and connecting to port 443 of the management server.

Answer: B

11. Which statement is true about licensing options for PCM+ and its supported plug-ins?

- A. Identity Driven Manager licensing is based on the number of users managed.
- B. Mobility Manager licensing is based on the number of wireless clients managed.
- C. ProCurve Manager Plus licensing is based on the number of installed instances.
- D. Network Immunity Manager licensing is based on the number of NAC 800s managed.

Answer: A

12. Where is the information stored that is displayed in the Events browser?

- A. Alarms Log
- B. Events Table

C.Device Syslog
D.Alerts Database

Answer: B

13. Which statements are true about the PCM architecture? (Select two.)

- A.PCM uses its own Java instance.
- B.The PCM client is a web-based interface that supports SSL.
- C.The PCM datastore is implemented as a set of indexed flat files.
- D.The PCM management server is comprised of three Windows services.
- E.The PCM client collects network management information and stores it on the PCM management server.

Answer: AD

14. Which modifications can you make to PCM using the CIP? (Select three.)

- A.modify the color scheme used for PCM windows
- B.add a right-click menu to the Devices List window
- C.add a tab to the Network Management Home page
- D.display third-party SNMP traps in the Events browser
- E.add an authentication method for PCM management users

Answer: BCD

15. Which statement is true about PCM or PCM+?

- A.PCM+ is supported on Linux in addition to Windows.
- B.PCM is included at no cost with all ProCurve manageable devices.
- C.PCM is implemented as a Microsoft Management Console snap-in on Windows.
- D.PCM+ is intended as a complete replacement for the switch CLI and web management interfaces.

Answer: B

16. Which products are supported as plug-ins for PCM+? (Select two.)

- A.Events Manager
- B.Identity Driven Manager
- C.Network Immunity Manager
- D.Device Configuration Manager
- E.Vulnerability Database Manager

Answer: BC

17. Which secure network management features are available in PCM+? (Select three.)

- A.SSH switch access
- B.SNMPv3 switch access
- C.IPSec VPN tunnel to PCM+
- D.SSL web interface to PCM+
- E.RADIUS authentication of PCM+ administrators

Answer: ABE

18. Which product integrated with PCM+ uses Network Behavior Anomaly Detection to detect attacks?

- A.Mobility Manager
- B.Identity Driven Manager
- C.Network Access Controller
- D.Network Immunity Manager
- E.HP OpenView Network Manager

Answer: D

19. Which type of information does the Configuration Manager allow you to export for a previously discovered device?

- A.system performance statistics

- B.authentication status of 802.1X ports
- C.software version and boot ROM version
- D.percentage of ports connected during a time period

Answer: C

20. Which products are supported as plug-ins to PCM+? (Select two.)

- A.Policy Manager
- B.Mobility Manager
- C.Traffic Analysis Manager
- D.Secure Access Manager
- E.Network Immunity Manager

Answer: BE
