Exam : [JN0-532](#)

"Juniper Networks Certified Internet Specialist, FWV (JNCIS-FWV)", also known as JN0-532 exam, is a Juniper Networks certification. With the complete collection of exam questions, Just4Study has assembled to take you through 151 Q&As to your JN0-532 exam preparation. In the JN0-532 exam resources, you will cover every field and category in Juniper Networks Certification helping to ready you for your successful Juniper Networks Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Juniper Networks JNCIS JN0-532 (Juniper Networks Certified Internet Specialist, FWV (JNCIS-FWV)) examination of original title complete coverage. JN0-532 exam questions help you pass the exam.

#### **Just4Study JN0-532 Feature:**

\* High quality - High quality and valued for the JN0-532 Exam: 100% Guarantee to Pass Your JN0-532 exam and get your JNCIS certification.

\* Authoritative - Authoritative braindumps with complete details about JN0-532 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed JNCIS resources, you will minimize your **Juniper Networks JNCIS** cost and be ready to pass your JN0-532 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free JNCIS demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the JN0-532 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free JN0-532 Demo Download**

Just4Study offers free demo for JNCIS JN0-532 exam (Juniper Networks Certified Internet Specialist, FWV (JNCIS-FWV)). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Juniper Networks JNCIS JN0-532** examination of original title complete coverage. JN0-532 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

**VUE/Prometric Code: JN0-532**

Exam Name: Juniper Networks Certified Internet Specialist, FWV (JNCIS-FWV)( JNCIS )

Questions and Answers: 151 Q&A

[Juniper Networks JN0-532](#) Test belongs to one of the JNCIS certified test, if needs to obtain the JNCIS certificate, you also need to participate in other related test, the details you may visit the [JNCIS](#) certified topic, in there, you will see all related JNCIS certified subject of examination.

Just4Study professional provide JNCIS JN0-532 the newest Q&A, completely covers JN0-532 test original topic. With our complete JNCIS resources, you will minimize your JNCIS cost and be ready to pass your JN0-532 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Juniper JN0-532

Title : FWV,Specialist(JNCIS-FWV)

1. Click the Exhibit button.

Review the exhibit. Track-ip has failed on the device, but the device did not fail over to the second unit in the cluster:

Why has failover not occurred?

- A. The physical interfaces have not failed.
- B. The track-ip interval is not sufficient to cause failover.
- C. The track-ip address weight is not sufficient to cause failover.
- D. The track-ip address threshold is not sufficient to cause failover.

Answer: C

2. Review the exhibit.

Which two of the following elements must be configured on the ScreenOS device in order to support PIM-SM?

(Choose two)

- A. A multicast control policy
- B. A bootstrap router process
- C. A unicast routing protocol
- D. A static RP

Answer: AC

3. Which CLI command identifies the multicast sources visible to your ScreenOS device?

- A. get route pim
- B. get igmp source all
- C. exec pim interface all query
- D. get vrouter trust-vr protocol pim

Answer: D

4. Click the Exhibit button.

In the exhibit, the firewall administrator at the Storefront is complaining that when the communication to the DataCenter1 fails, the preexisting transfers and applications are dropped when the traffic is switched to DataCenter2.

Which statement explains this behavior?

- A. SYN checking is enabled in the tunnel.
- B. The weight value for the DataCenter2 is too high.
- C. VPN monitor is misconfigured in the DataCenter2.
- D. Phase 1 and Phase 2 negotiations to DataCenter2 did not occur on time.

Answer: A

5. Which ScreenOS CLI command is necessary for configuring IGMP on interface ethernet0/1?

- A. set igmp interface ethernet0/1
- B. set multicast interface ethernet0/1
- C. set interface ethernet0/1 igmp router
- D. set igmp interface ethernet0/1 enable

Answer: C

6. Review the exhibit.

You've been asked to build a route-based hub and spoke network, with policy control for traffic travelling from spoke to spoke. Which two of the following configuration options will meet this requirement? (Choose two.)

- A. Place the spoke tunnel interfaces in the trust zone and create policies on the spokes.
- B. Place the spoke tunnel interfaces in the untrust zone and create policies on the spokes.
- C. Create a single tunnel interface in the trust zone at the hub and enable intra-zone blocking.
- D. Create separate tunnel interfaces at the hub and place them in different zones, then create policies at the hub.

Answer: BD

7. What must be enabled to protect Phase 2 key exchanges?

- A. Phase 1 PFS
- B. Phase 2 SHA
- C. Phase 2 3-DES
- D. Phase 2 DH key exchange

Answer: D

8. Which two item pairs are exchanged during Phase 2 negotiations? (Choose two.)

- A. proxy-id, SA proposal list
- B. IKE cookie, SA proposal list
- C. hash [ID + Key], DH key exchange
- D. SA proposal list, optional DH key exchange

Answer: AD

9. You have created a virtual router called VSYS-VR and made it shareable. You then create the VSYS using the WebUI, telling it to use an existing VR and selecting the VR called VSYS-VR.

What is the status of the virtual router after you create the VSYS?

- A. The router will be the default router but will no longer be shared.
- B. The router will be the default router and will still have a shareable status.
- C. The system will not let you use a shared virtual router when you create a new VSYS. The initial virtual router must be private.
- D. The system will not create a private vr for the VSYS but will assign the untrust-vr as the default router. The shared Virtual router will not be the default router.

Answer: B

10. Click the Exhibit button.

In the exhibit, what is the source IP address of the multicast traffic?

- A. 236.1.1.1
- B. 10.10.10.1
- C. 20.20.20.10
- D. 20.20.20.200

Answer: B

11. Which command is used to verify that IGMP is running correctly?

- A. get route igmp
- B. get igmp query
- C. set igmp query interface e0/1

D. exec igmp interface e0/1 query

Answer: D

12. Which three statements are true regarding IKE Phase 1? (Choose three.)

- A. Placing the SA proposal list in message 1 is an option.
- B. The digital certificate is used to decrypt the session key.
- C. The DH key exchange is used to validate the session key.
- D. The DH key exchange and digital certificates are both optional.
- E. The proxy-id is used to determine which SA is referenced for the VPN.

Answer: ABC

13. You have entered the command

```
set ffilter src-ip 1.1.7.250 dst-ip 10.1.10.5 ip-prot 6
```

What will be the resulting output in the debug for which this was created?

- A. If the packet has a src-ip of 1.1.7.250 or a dst-ip of 10.1.10.5 or has TCP as its protocol then it will be captured
- B. If the packet has a src-ip of 1.1.7.250 or a dst-ip of 10.1.10.5 or has UDP as its protocol then it will be captured
- C. If the packet has a src-ip of 1.1.7.250 and a dst-ip of 10.1.10.5 and has TCP as its protocol then it will be captured
- D. If the packet has a src-ip of 1.1.7.250 and a dst-ip of 10.1.10.5 and has UDP as its protocol then it will be captured

Answer: C

14. Click the Exhibit button.

In the exhibit, which two can be determined about the VPN? (Choose two.)

- A. NAT-traversal is enabled.
- B. The rekey interval is 8 hours.
- C. This device initiated the Phase 1 negotiations.
- D. The certificate used in this exchange is set to never expire.

Answer: BC

15. During main mode negotiations a failure has occurred while using IKE certificates.

Which message pair would you review to troubleshoot this failure?

- A. messages 1 & 2
- B. messages 2 & 3
- C. messages 3 & 4
- D. messages 5 & 6

Answer: D

16. Click the Exhibit button.

In the exhibit, what is the address of the multicast receiver?

- A. 234.9.8.42
- B. 192.168.10.2
- C. 192.168.20.10
- D. 192.168.20.200

Answer: D

17. You have configured the following on your device.

```
set address trust MyPC 10.1.1.5/32
```

```
set address untrust CorpNet 10.10.0.0/16
```

```
set policy from trust to untrust MyPC CorpNet any permit
```

```
set int tunnel.1 zone untrust
```

```
set int tunnel.1 ip unnumbered int bgroup1
```

```
set ike gateway GW address 1.1.1.1 outgoing-interface e0/1 preshare Secret sec-level standard
```

```
set vpn VPN gateway GW sec-level standard
```

The tunnel interface is down, so the VPN cannot function properly. What is the problem?

- A. The policy needs to have the action tunnel.
- B. The VPN needs to be bound to the tunnel interface.
- C. The tunnel interface needs to be placed in the trust zone.
- D. The tunnel interface needs to be associated with the interface in the untrust zone.

Answer: B

18. Which three OSPF parameters are interface parameters? (Choose three.)

- A. cost
- B. priority
- C. neighbor list
- D. summarization
- E. advertise default route

Answer: ABC

19. To which three ScreenOS components can a policy-based routing policy be bound? (Choose three.)

- A. zone
- B. policy
- C. interface
- D. virtual router
- E. virtual system

Answer: ACD

20. What must be configured differently for a route-based VPN and a policy-based VPN?

- A. proxy-id
- B. proposals
- C. remote gateway type
- D. binding the tunnel interface

Answer: D
