Network Appliance NACP

NS0-151: Network Appliance SAN Exam 7G

Practice Exam: NS0-151 Exams

Exam Number/Code: NS0-151

Exam Name: Network Appliance SAN Exam 7G

Questions and Answers: 121 Q&As

([NACP](#))

"Network Appliance SAN Exam 7G", also known as NS0-151 exam, is a Network Appliance certification. With the complete collection of exam questions, Just4Study has assembled to take you through 121 Q&As to your NS0-151 exam preparation. In the NS0-151 exam resources, you will cover every field and category in Network Appliance Certification helping to ready you for your successful Network Appliance Certification.

Exam : [NS0-151](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Network Appliance NACP NS0-151 (Network Appliance SAN Exam 7G) examination of original title complete coverage. NS0-151 exam questions help you pass the exam.

Just4Study NS0-151 Feature:

* High quality - High quality and valued for the NS0-151 Exam: 100% Guarantee to Pass Your NS0-151 exam and get your NACP certification.

* Authoritative - Authoritative braindumps with complete details about NS0-151 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed NACP resources, you will minimize your **Network Appliance NACP** cost and be ready to pass your NS0-151 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free NACP demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the NS0-151 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free NS0-151 Demo Download

Just4Study offers free demo for NACP NS0-151 exam (Network Appliance SAN Exam 7G). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Network Appliance NACP NS0-151** examination of original title complete coverage. NS0-151 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: NS0-151

Exam Name: Network Appliance SAN Exam 7G(NACP)

Questions and Answers: 121 Q&A

[Network Appliance NS0-151](#) Test belongs to one of the NACP certified test, if needs to obtain the NACP certificate, you also need to participate in other related test, the details you may visit the [NACP](#) certified topic, in there, you will see all related NACP certified subject of examination.

Just4Study professional provide NACP NS0-151 the newest Q&A, completely covers NS0-151 test original topic. With our complete NACP resources, you will minimize your NACP cost and be ready to pass your NS0-151 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Network Appliance NS0-151

Title : Network Appliance SAN Exam 7G

1. In an iSCSI target configuration, there are two ISWT adapters. The purpose of adapter iswta is for local traffic. What is the purpose of the iSCSI target adapter iswtb?

- A. It is used for partner traffic in a clustered Windows host environment.
- B. It is used for partner traffic in a clustered storage appliance environment.
- C. It is used for iSCSI network traffic when iswta is exceeding thresholds.
- D. It is used for iSCSI network traffic when iswta has failed.

Answer: B

2. Which of the following is not a command that can be performed with the SnapDrive for Windows graphical user interface?

- A. Create Disk
- B. Create VLD
- C. Connect Disk
- D. Convert VLD to LUN

Answer: B

3. What are the minimum and maximum LUN sizes on a NetApp storage appliance using iSCSI and a Microsoft Windows 2000 Server?

- A. Minimum 11.5 MB, Maximum 2TB
- B. Minimum 21.5 MB, Maximum 2.5TB
- C. Minimum 31.5 MB, Maximum 2TB
- D. Minimum 41.5 MB, Maximum 2.5TB

Answer: C

4. For long-term use, a writeable snapshot of a LUN should be turned into a LUN clone.

- A. True
- B. False

Answer: A

5. What is the difference between hard and soft zoning?

- A. Soft zones are based on WWNs/WWPNs.
- B. Hard zones are based on WWNs/WWPNs.
- C. Soft zones are based on domain IDs and port IDs.
- D. None of the above is correct.

Answer: A

6. Given that there is no real flow control in FCP SAN, attention should be given to monitoring queue depths.

- A. True
- B. False

Answer: A

7. When using SnapRestore to restore a single LUN, the LUN must be _____.

- A. mounted on a host
- B. mapped to a Windows server
- C. exported and accessible
- D. taken offline or unmapped

Answer: D

8. What is the outcome of the following command ?

```
lun create -b /vol/vol2/.snapshot/testsnap/lun0 /vol/vol2/lun0.clone
```

- A. It creates a duplicate of the clone process of lun0.
- B. It creates a clone of the writeable snapshot of lun0.
- C. It creates a writeable snapshot of lun0.
- D. It creates a snapshot "testsnap" of vol2.

Answer: C

9. Which three of the following are true of the NetApp iSCSI target (ISWT)? (Choose 3)

- A. It is an iSCSI software interface.
- B. It is an iSCSI hardware interface.
- C. It implements iSCSI protocol.
- D. It supports iSCSI target operation over standard NICs.

Answer: ACD

10. Cloning a LUN from a snapshot will cause that snapshot to be _____.

- A. recreated
- B. corrupted
- C. locked
- D. destroyed

Answer: C

11. Please click the "Exhibit" button.

The target name "iqn.1992-08.com.netapp:sn33604817" appears on the Windows iSCSI Initiator Properties screen.

What command on the storage appliance will display the target name?

- A. iscsi show initiators
- B. iscsi show adapters
- C. iscsi nodename
- D. iscsi config

Answer: C

12. Please click the "Exhibit" button.

Based on the lun show -m output, what can you determine from the LUNs that are mapped to "via RPC"?

- A. The LUNs were mapped manually.
- B. The LUNs were mapped using rsh.
- C. The LUNs were mapped using SnapDrive.
- D. The LUNs were mapped using lun setup.

Answer: B

13. Space reservations are useful in SAN iSCSI and FCP LUN environments.

- A. True

B. False

Answer: A

14. In a Fibre Channel configuration, the host's HBA is referred to as the _____ and the storage appliance's HBA is referred to as the _____.

- A. primary, secondary
- B. initiator, target
- C. secondary, primary
- D. target, initiator

Answer: B

15. Which of the following is not used for creating LUNs on the storage appliance?

- A. lun create
- B. lun setup
- C. FilerView
- D. lun config

Answer: D

16. Which two of the following commands can be used to enable space reservations for a LUN?

- A. lun create
- B. lun set reservation
- C. fcp -r <lun_path>
- D. iscsi -r <lun_path>

Answer: AB

17. Applications, such as databases, running on NAS or iSCSI or FCP SAN must be _____.

- A. prepared for snapshots by flushing buffers to disk and momentarily suspending activity
- B. disconnected from their storage resources during the snapshot
- C. using dynamic multipathing during a backup
- D. mirrored with a host-based volume manager to be backed-up

Answer: A

18. The writeable snapshot that is created for a LUN clone depends on _____.

- A. mirroring
- B. the snapshot taken at the time the clone was created
- C. exclusive access to the volume
- D. the data in the original LUN not changing

Answer: B

19. Which of the following commands would you use to verify the iSCSI service is running?

- A. license add iSCSI
- B. iscsi service
- C. iscsi status
- D. iscsi protocol

Answer: C

20. After you clone a LUN, it is a best practice that you _____.

- A. delete the snapshot created by the writeable snapshot
- B. copy the clone to a new volume as soon as possible and delete the old clone
- C. create a snapshot of the original LUN in the event that the clone changes
- D. expand the LUN so that the host does not encounter ENOSPC errors

Answer: A
