Network Appliance NACA

NS0-301: Network Appliance Certified Solution Architect-SAN

Practice Exam: NS0-301 Exams

Exam Number/Code: NS0-301

Exam Name: Network Appliance Certified Solution Architect-SAN

Questions and Answers: 75 Q&As

([NACA](#))

Exam : [NS0-301](#)

"Network Appliance Certified Solution Architect-SAN", also known as NS0-301 exam, is a Network Appliance certification. With the complete collection of exam questions, Just4Study has assembled to take you through 75 Q&As to your NS0-301 exam preparation. In the NS0-301 exam resources, you will cover every field and category in Network Appliance Certification helping to ready you for your successful Network Appliance Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Network Appliance NACA NS0-301 (Network Appliance Certified Solution Architect-SAN) examination of original title complete coverage. NS0-301 exam questions help you pass the exam.

Just4Study NS0-301 Feature:

* High quality - High quality and valued for the NS0-301 Exam: 100% Guarantee to Pass Your NS0-301 exam and get your NACA certification.

* Authoritative - Authoritative braindumps with complete details about NS0-301 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed NACA resources, you will minimize your **Network Appliance NACA** cost and be ready to pass your NS0-301 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free NACA demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the NS0-301 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free NS0-301 Demo Download

Just4Study offers free demo for NACA NS0-301 exam (Network Appliance Certified Solution Architect-SAN). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer. we promise the Q&A for **Network Appliance NACA NS0-301** examination of original title complete coverage. NS0-301 Questions & Answers help you pass the exam. Otherwise, we will give you a full refund.

VUE/Prometric Code: NS0-301

Exam Name: Network Appliance Certified Solution Architect-SAN(NACA)

Questions and Answers: 75 Q&A

[Network Appliance NS0-301](#) Test belongs to one of the NACA certified test, if needs to obtain the NACA certificate, you also need to participate in other related test, the details you may visit the [NACA](#) certified topic, in there, you will see all related NACA certified subject of examination.

Just4Study professional provide NACA NS0-301 the newest Q&A, completely covers NS0-301 test original topic. With our complete NACA resources, you will minimize your NACA cost and be ready to pass your NS0-301 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Network Appliance NS0-301

Title : Network Appliance Certified Solution Architect-SAN

1. Select the difference between an iSCSI LUN and a FC LUN.

- A. There is no difference.
- B. FC LUNs have different serial numbers than iSCSI LUNs.
- C. iSCSI LUNs snapshots take longer than FC LUNs snapshots.
- D. A FC LUN is bigger and consumes more space than an iSCSI LUN.

Answer: A

2. What type of zoning is based on the physical port you are connected to?

- A. hard
- B. port
- C. soft
- D. physical

Answer: A

3. What could a G_Port represent?

- A. A Fibre Channel hub's connection to the FC switch.
- B. A storage controller's connection to the FC switch.
- C. An inter-switch link connection between FC switches.
- D. An unused port on the FC switch.

Answer: D

4. What is the read/write pattern for copy-on-write (COW) based snapshots?

- A. Read-write-read
- B. Write-read-write
- C. Read-write-write
- D. Write-read

Answer: C

5. Snapshots will cause I/O performance degradation for LUNs on a NetApp storage controller. (True or False?)

- A. True
- B. False

Answer: B

6. What is the approximate capacity overhead of a cloned flexible volume at creation?

- A. 200%
- B. 100%

C.50%

D.0%

Answer: D

7. When running in standby cfmode, if the host can no longer access the LUNs from Controller A after an array controller failover to Controller B, what two things should you check? (Choose two.)

A.The cabling between the storage controller and the switch.

B.The zoning on the switch.

C.The LUN masking on the storage controller.

D.The persistent bindings.

Answer: AB

8. A LUN on the NetApp storage controller can be accessed by either FCP or iSCSI. (True or False?)

A. True

B. False

Answer: A

9. Which two are advantages of an IP SAN as it compares to FC SAN? (Choose two.)

A.It uses well-understood technologies such as SCSI and Ethernet.

B.It provides faster failover.

C.It has lower cost per switch port.

D.It provides lower propagation delay.

Answer: AC

10. If you see the following error on the storage controller's console or messages file. Select the most probable cause.

ISCSI: iswta,

Authentication failed

for initiator

A.portal group misconfiguration

B.iSCSI CHAP misconfiguration

C.iSNS misconfiguration

D.port sets misconfiguration

Answer: B

11. Which command will show you what FCP host HBAs are logged into the NetApp Storage Controller?

A.fcp show initiator

B.fcp show adapter

C.fcp stats

D.fcp show cfmode

Answer: A

12. Which three are benefits of both FC and iSCSI SAN? (Choose three.)

A.Enables storage consolidation.

B.Servers can be backed up to the same Tape Library or VTL.

C.Enables server consolidation.

D.Disk Arrays appear as autonomous file servers.

Answer: ABC

13. A NetApp storage controller can simultaneously serve data to hosts using NFS, CIFS, HTTP, FTP, FCP, and iSCSI. (True or False?)

A. True

B. False

Answer: A

14. Which characteristic differentiates an iSCSI HBA from a NIC card?

- A.larger frame size
- B.2 Gb/s rate
- C.link aggregation
- D.TCP offload

Answer: D

15. What is the read/write ratio used in a copy-on-write (COW) snapshot?

- A.1:1 (one read, one write)
- B.2:1 (two reads, one write)
- C.1:3 (one read, three writes)
- D.1:2 (one read, two writes)

Answer: D

16. Which three are performance tuning parameters available for Fibre Channel HBAs on a host? (Choose three.)

- A.HBA queue depth
- B.Fibre Channel speed
- C.frame size
- D.LUN device ID

Answer: ABC

17. The only way to implement iSCSI is by using an iSCSI HBA. (True or False?)

- A. True
- B. False

Answer: B

18. ACME corporation currently has a NetApp Fibre Channel block-based solution. With limited budget and resources, they want to create a new disaster recovery site that utilizes a NetApp solution. The optimal solution would include _____.

- A.SnapMover and Fibre Channel at the Disaster Recovery site for all hosts.
- B.SnapMirror and iSCSI at the Disaster Recovery site for all hosts.
- C.a combination of Fibre Channel and iSCSI.
- D.MetroCluster and NAS.

Answer: B

19. Select the appropriate IP protocol that uses Service Location Protocol (SLP) protocol for discovery and management.

- A.iFCP
- B.FCIP
- C.iSCSI
- D.AoE

Answer: C

20. Select two advantages an iSCSI SAN has over a Fibre Channel SAN. (Choose two.)

- A.An iSCSI SAN can take advantage of existing IP infrastructure components.
- B.An iSCSI SAN provides a more affordable solution for cost-sensitive environments.
- C.An iSCSI SAN has lower latency than a Fibre Channel SAN.
- D.An iSCSI SAN provides higher storage utilization than a Fibre Channel SAN.

Answer: AB
