

Exam : [Symantec ST0-075](#)

Title : **Symantec Data Loss
Prevention 9.0 (STS)**

Version : **Demo**

1. What is a three-tier Symantec Data Loss Prevention 9.0 deployment?

- A. two Enforce Servers deployed on the same host as the database
- B. three different detection servers deployed on separate hosts
- C. Enforce Server and a detection server deployed on the same host as the database
- D. Enforce Server, detection servers, and the database deployed on separate hosts

Answer: D

2. A policy manager wants to apply policies only to certain employees with a specific classification level. Which TrueMatch detection method can help accomplish this?

- A. Directory Group Matching (DGM)
- B. Exact Data Matching (EDM)
- C. Described Content Matching (DCM)
- D. Indexed Document Matching (IDM)

Answer: A

3. Which component of Microsoft Outlook Personal Folder (.pst) files does Network Discover apply filters to?

- A. individual emails in the .pst file
- B. the entire .pst file
- C. attachments in the .pst file
- D. folders in the .pst file

Answer: B

4. Which three are valid Scanned Content filter types for the Discover File System target? (Select three.)

- A. Exclude filter
- B. File Size filter
- C. Read ACL filter
- D. File Owner filter
- E. File Date filter

Answer: ABE

5. Which three statements apply to communication between the Enforce Server and detection servers?

(Select three.)

- A. By default, the Enforce Server and the detection servers communicate over port 8100.
- B. Port 3389 must be open between the Enforce Server and the detection servers.
- C. The same port number must be used for all detection servers.
- D. The servers can be configured to use any port higher than 1024.
- E. IPSec must be configured on the Enforce Server and the detection servers.

Answer: ACD

6. What must a system administrator do for Network Monitor filter configuration changes to take effect?

- A. recycle VontuManager and VontuMonitorController services on Enforce
- B. recycle PacketCapture process on the Network Monitor
- C. recycle VontuNotifier service to propagate changes to Network Monitor
- D. recycle Network Monitor server from the Server Detail page

Answer: D

7. Why do companies deploy data loss prevention solutions? (Select two.)

- A. to protect their perimeters from external threats
- B. to help protect their brands and reputations
- C. to prevent employee access to undesirable websites
- D. to encrypt sensitive data to ensure secure transmission
- E. to reduce the likelihood of data breaches and related costs

Answer: BE

8. What are three benefits that data loss prevention solutions provide that other security technologies or tools do not? (Select three.)

- A. give visibility into where sensitive data is stored
- B. give insight into capacity planning for sensitive data
- C. identify who has access to sensitive data

D. indicate where sensitive data is being sent

E. measure encryption strength for sensitive data

Answer: ACD
