EMC Technology Foundations

e20-070: emc technology foundations-san

Practice Exam: e20-070 Exams

Exam Number/Code: e20-070

Exam Name: emc technology foundations-san

Questions and Answers: 144 Q&As

([Technology Foundations](#))

Exam : [e20-070](#)

"emc technology foundations-san", also known as e20-070 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 144 Q&As to your e20-070 exam preparation. In the e20-070 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC Technology Foundations e20-070 (emc technology foundations-san) examination of original title complete coverage. e20-070 exam questions help you pass the exam.

Just4Study e20-070 Feature:

* High quality - High quality and valued for the e20-070 Exam: 100% Guarantee to Pass Your e20-070 exam and get your Technology Foundations certification.

* Authoritative - Authoritative braindumps with complete details about e20-070 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Technology Foundations resources, you will minimize your **EMC Technology Foundations** cost and be ready to pass your e20-070 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Technology Foundations demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the e20-070 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free e20-070 Demo Download

Just4Study offers free demo for Technology Foundations e20-070 exam (emc technology foundations-san). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC Technology Foundations e20-070** examination of original title complete coverage.e20-070 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: e20-070

Exam Name: emc technology foundations-san(Technology Foundations)

Questions and Answers: 144 Q&A

[EMC e20-070](#) Test belongs to one of the Technology Foundations certified test, if needs to obtain the Technology

Foundations certificate, you also need to participate in other related test, the details you may visit the [Technology Foundations](#) certified topic, in there, you will see all related Technology Foundations certified subject of examination. Just4Study professional provide Technology Foundations e20-070 the newest Q&A, completely covers e20-070 test original topic. With our complete Technology Foundations resources, you will minimize your Technology Foundations cost and be ready to pass your e20-070 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E20-070

Title : EMC Technology Foundations-SAN

1. Which GUI interface is used to build Symmetrix configurations or BIN files?

- A. Fabric manager
- B. Navisphere
- C. SymmSeek
- D. SymmWin

Answer: D

2. Which CLARiiON component is used for staging and prefetching data?

- A. nv ram
- B. PSM
- C. Read cache
- D. Write cache

Answer: C

3. What is a PowerPath storage class?

- A. A grouping of applications using the same channels
- B. A license that is required to manage a storage array
- C. A storage array that PowerPath supports
- D. A tiered license for the host class that PowerPath supports

Answer: C

4. What is a feature of PowerPath?

- A. Automated path failover with no path recovery
- B. Manual path failover
- C. Proactive path testing
- D. Static load balancing

Answer: C

5. Which RAID type uses a single drive to maintain parity?

- A. RAID 1
- B. RAID 1/0
- C. RAID 3
- D. RAID 5

Answer: C

6. Which information does VisualSRM collect about hosts?

- A. CPU and memory utilization

- B. Filesystem names and utilization
- C. Switch and array port to filesystem mapping
- D. Volume group names and utilization

Answer: B

7. A fabric contains a single host HBA requiring connectivity to storage ports on several storage arrays. Which parameter can impose a limit on this design?

- A. Fan-in ratio for each storage array port
- B. Fan-in ratio for the HBA
- C. Fan-out ratio for each storage array port
- D. Fan-out ratio for the HBA

Answer: B

8. What is a functionality of the PowerPath filter driver?

- A. Notifies the application after each I/O is delivered
- B. Redirects I/O to the next available path based on the load balancing policy
- C. Redirects I/O to the shortest path to the logical volume
- D. Uses a random path in the volume path set to service the I/O request

Answer: B

9. How is cache memory allocated in a CLARiiON CX series array?

- A. Pages
- B. Partition
- C. Segments
- D. Tracks

Answer: A

10. What components are used to daisy chain DMX-3 storage bays?

- A. Disk directors
- B. Disk adapters
- C. Link Control Cards
- D. Midplane

Answer: C

11. When can PowerPath configuration, management and tuning be performed?

- A. During maintenance windows
- B. Offline
- C. Online
- D. When the system is not used for production

Answer: C

12. What software options exist for managing a M-Series fabric?

- A. Connectrix Manager and ControlCenter
- B. Connectrix Manager and WebTools
- C. Device Manager and ControlCenter
- D. EWS and WebTools

Answer: A

13. Which additional information is provided by the VisualSAN SNIA Agent which is not provided by the Navisphere Agent?

- A. Automatic Host and HBA association
- B. Detailed HBA property information
- C. Path visualization from Host to Storage Unit

D. Storage provisioning (host to array)

Answer: B

14. What are two valid types of zoning in a SAN?

A. Flexible Zoning and Invariant Zoning

B. Hard Zoning and Soft Zoning

C. SNIA Zoning and Vendor-Unique Zoning

D. Serial and Parallel zoning

Answer: B

15. From PowerPath's point of view, what array type is an INVISTA instance?

A. Active-active

B. Active-passive

C. Passive-active

D. Passive-passive

Answer: A

16. What is the default element size for a five disk RAID 5 group?

A. 64 bytes

B. 4KB

C. 64KB

D. 128KB

Answer: C

17. Which fabric security feature is governed by the common Fibre Channel standard?

A. LUN Binding

B. Port Binding

C. Port Masking

D. Zoning

Answer: D

18. What is PowerPath?

A. Array based software that intelligently manages I/O to the array

B. Array based software that supports active-active and active-passive arrays

C. Host based software that notifies the application when a path failure occurs

D. Host based software that provides path failover and load balancing.

Answer: D

19. When is a write to the CLARiiON considered complete with write cache enabled?

A. After five sequential writes are received by the first SP

B. After the write is cached in the receiving SPs memory

C. After the write is committed to disk

D. After the write is committed to the peer SPs cache memory

Answer: D

20. Which IT issue does VisualSRM help resolve?

A. Manual and error-prone storage provisioning adds complexity

B. Multiple products required to coordinate backup tasks on many hosts adds complexity

C. Need to identify dormant files that are no longer accessed for better storage utilization

D. Visualization of entire storage path from filesystem to array drive is required

Answer: C
