

## e20-080 braindumps

### EMC Technology Foundations

**e20-080: emc technology foundations-nas**

**Practice Exam:** e20-080 Exams

**Exam Number/Code:** e20-080

**Exam Name:** emc technology foundations-nas

**Questions and Answers:** 120 Q&As

( [Technology Foundations](#) )

Exam : [e20-080](#)

"emc technology foundations-nas", also known as e20-080 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 120 Q&As to your e20-080 exam preparation. In the e20-080 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC Technology Foundations e20-080 (emc technology foundations-nas) examination of original title complete coverage. e20-080 exam questions help you pass the exam.

#### **Just4Study e20-080 Feature:**

\* High quality - High quality and valued for the e20-080 Exam: 100% Guarantee to Pass Your e20-080 exam and get your Technology Foundations certification.

\* Authoritative - Authoritative braindumps with complete details about e20-080 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Technology Foundations resources, you will minimize your **EMC Technology Foundations** cost and be ready to pass your e20-080 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free Technology Foundations demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the e20-080 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free e20-080 Demo Download**

Just4Study offers free demo for Technology Foundations e20-080 exam (emc technology foundations-nas). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC Technology Foundations e20-080** examination of original title complete coverage.e20-080 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: e20-080**

Exam Name: emc technology foundations-nas( Technology Foundations )

Questions and Answers: 120 Q&A

[EMC e20-080](#) Test belongs to one of the Technology Foundations certified test, if needs to obtain the Technology

Foundations certificate, you also need to participate in other related test, the details you may visit the [Technology Foundations](#) certified topic, in there, you will see all related Technology Foundations certified subject of examination. Just4Study professional provide Technology Foundations e20-080 the newest Q&A, completely covers e20-080 test original topic. With our complete Technology Foundations resources, you will minimize your Technology Foundations cost and be ready to pass your e20-080 tests on Your First Try, 100% Money Back Guarantee included!

### **Just4Study Help You Pass Any IT Exam**

*Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.*

Exam : EMC E20-080

Title : EMC Technology Foundations-NAS

1. What does NAS provide?

- A. a centralized storage solution to distributed clients
- B. a distributed storage solution for centralized clients
- C. a general purpose appliance for application distribution
- D. a general purpose appliance for distributed data management

Answer: A

2. What is the fundamental purpose of Zoning?

- A. To expose array ports and host HBAs to each other
- B. To expose LUNs on a storage array to different HBAs
- C. To isolate ISL traffic from host-to-storage traffic
- D. To isolate switch ports into separate VSANs

Answer: A

3. What does the OSI Data Link layer provide?

- A. a reliable message stream to the user interface
- B. address and routing for data
- C. data encapsulation
- D. the media specification

Answer: C

4. What is an operation of the OSI Application layer?

- A. Presents data to the user interface
- B. Provides a reliable message stream to the user interface
- C. Provides a reliable messaging system to the user interface
- D. Provides the interface to the user

Answer: D

5. Which CLARiiON GUI based tool is used to present LUNs to hosts?

- A. Fabric Manager
- B. Navisphere CLI
- C. Navisphere Manager
- D. Web Tools

Answer: C

6. What is a fundamental component of an iSCSI implementation?

- A. Connectrix switch

- B. Host with Fibre Channel HBAs
- C. IP network infrastructure
- D. Storage array with Fibre Channel ports

Answer: C

7. What kind(s) of storage do the Integrated NAS models use?

- A. Both CLARiiON and Symmetrix storage
- B. CLARiiON storage only
- C. CLARiiON, Symmetrix and third-party storage
- D. Symmetrix storage only

Answer: B

8. What business need does NAS address?

- A. Application security
- B. Firewall configuration
- C. Heterogeneous client support
- D. Print spooling

Answer: C

9. Which statement about NDMP2D backup is correct?

- A. Both Metadata and Data passes over the network infrastructure
- B. Data passes over the network infrastructure
- C. Metadata passes over the network infrastructure
- D. No Metadata or Data passes over the network infrastructure

Answer: C

10. Which statement about Asynchronous transmissions is correct?

- A. A frame clock timing signal is required for correct transmission
- B. Multiple characters are transmitted at a time
- C. Single characters are transmitted at a time
- D. The sender and receiver must negotiate the transmission speed

Answer: C

11. When is a write to the CLARiiON considered complete with write cache enabled?

- A. After five sequential writes are received by the first SP
- B. After the write is cached in the receiving SPs memory
- C. After the write is committed to disk
- D. After the write is committed to the peer SPs cache memory

Answer: D

12. Which fabric security feature is governed by the common Fibre Channel standard?

- A. LUN Binding
- B. Port Binding
- C. Port Masking
- D. Zoning

Answer: D

13. For what is Control Station required?

- A. Data Mover failover
- B. Data Mover backup
- C. Network client connectivity
- D. Storage Processor connectivity

Answer: A

14. What is a correct statement when describing NAS clients?

- A. Access data irrespective of their physical locality
- B. Access data via block level I/O only
- C. Always support both NFS and CIFS protocols
- D. Use raw data formatted storage volumes

Answer: A

15. What is a type of network topology?

- A. Bus
- B. Core to edge
- C. Fabric
- D. Link

Answer: A

16. How many optical network ports are available on a NS500 DataMover?

- A. 1
- B. 2
- C. 4
- D. None

Answer: D

17. What do VLANs reduce?

- A. The amount of network traffic
- B. The number of network segments in the network infrastructure
- C. The router traffic overhead in the network infrastructure
- D. The security in a network infrastructure

Answer: C

18. Which statement about Celerra TimeFinder/FS Near Copy is correct?

- A. Is a CLARiiON only solution
- B. Is a Symmetrix only solution
- C. Provides a pointer based view of the file system
- D. Shares the same volume as the Production File System

Answer: B

19. What does a Domain ID uniquely identify?

- A. A fabric in a multi-fabric environment
- B. A Fibre Channel node on a name server
- C. A storage frame within a fabric
- D. A switch within a fabric

Answer: D

20. What does SSH use?

- A. a clear text message transmit
- B. a less secure communications connection than Telnet
- C. TCP port 22
- D. TCP port 23

Answer: C
