**Questions and Answers:** 112 Q&As

( [EMC Certification](#) )

Exam : [e20-380](#)

"storage management implementation", also known as e20-380 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 112 Q&As to your e20-380 exam preparation. In the e20-380 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC EMC Certification e20-380 (storage management implementation) examination of original title complete coverage. e20-380 exam questions help you pass the exam.

#### **Just4Study e20-380 Feature:**

\* High quality - High quality and valued for the e20-380 Exam: 100% Guarantee to Pass Your e20-380 exam and get your EMC Certification certification.

\* Authoritative - Authoritative braindumps with complete details about e20-380 exam.

\* Cheaper - Our Just4Study products are cheaper than any other website. With our completed EMC Certification resources, you will minimize your **EMC EMC Certification** cost and be ready to pass your e20-380 exam on Your First Try, 100% Money Back Guarantee included!

\* Free - Try free EMC Certification demo before you decide to buy it in <http://www.Just4Study.com>.

#### **Just4Study Guarantee:**

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the e20-380 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

#### **Free e20-380 Demo Download**

Just4Study offers free demo for EMC Certification e20-380 exam (storage management implementation). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC EMC Certification e20-380** examination of original title complete coverage.e20-380 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

**VUE/Prometric Code: e20-380**

Exam Name: storage management implementation( EMC Certification )

Questions and Answers: 112 Q&A

[EMC e20-380](#) Test belongs to one of the EMC Certification certified test, if needs to obtain the EMC Certification certificate, you also need to participate in other related test, the details you may visit the [EMC Certification](#) certified topic, in there, you will see all related EMC Certification certified subject of examination.

Just4Study professional provide EMC Certification e20-380 the newest Q&A, completely covers e20-380 test original topic. With our complete EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your e20-380 tests on Your First Try, 100% Money Back Guarantee included!

Exam : EMC E20-380

Title : Storage Management Implementation Exam

1. Which situation, if found on a host, interrupts the installation of the ControlCenter Web Console Server?

- A. Host uses DNS to resolve host names
- B. ControlCenter Server is installed on this host
- C. Host has network connectivity to ControlCenter Repository
- D. Microsoft Distributed Transaction Coordinator Service is running

Answer: D

2. How would you obtain a UNIX installation package for a Solaris Master Agent?

- A. Respond yes when prompted by the Solaris Master Agent installer to create the installation package
- B. Right-click on the intended Solaris host in the ControlCenter Console and choose "Create installation package from the menu
- C. Go to the Install menu of the ECC Administration task of the ControlCenter Console, and choose "Installation package polaris from the menu
- D. Copy the file solarisMA520.gz from the folder where it was automatically installed on the ControlCenter server

Answer: A

3. You have just installed ControlCenter 5.2. Which two [2] Authorization rules would you expect to see in the Console?

- A. SAN Administrators Rule
- B. ECC Administrators Rule
- C. Performance Manager Rule
- D. Configuration Manager Rule
- E. Symmetrix Data Protection Manager Rule

Answer: BE

4. Where is the FibreZoneBridge Software installed?

- A. The Desktop to manage Cisco Switches
- B. The Connectrix service processor to manage McData Switches
- C. The Connectrix service processor to manage Brocade Switches
- D. The Connectrix service processor to manage Inrange (CNT) Switches

Answer: B

5. Which fields are required for the assisted discovery of a CLARiiON CX600 Array using the Storage Agent for CLARiiON in ControlCenter 5.2?

- A. Provider Host Name, Port and Namespace
- B. Host name of the node connected to the Storage Processor

- C. Network name of Storage Processor A and the Navisphere username and password
- D. Network name of both Storage Processors and the Navisphere username and password

Answer: D

6. Which two [2] statements describe ControlCenter 5.2 load balancing?

- A. ControlCenter 5.2 Agent load balancing is inactive by default
- B. The ControlCenter 5.2 Store component uses load balancing
- C. The ControlCenter 5.2 Host agent uses partial load balancing
- D. In ControlCenter 5.2, full load balancing is faster than partial load balancing
- E. In ControlCenter 5.2, partial load balancing is faster than full load balancing

Answer: BE

7. Which command would you use to install the Master Agent with UNIX Package Tools for Solaris?

- A. smit
- B. init all
- C. pkgadd
- D. swinstall

Answer: C

- A. SNIA library
- B. SYMAPI server
- C. Solutions Enabler
- D. Java Runtime Environment V1.4.2 or higher

Answer: A

9. Click the Exhibit button.

Where is the EMC StorageScope FLR / VisualSRM 1.6.1 Server supported in this ControlCenter environment?

- A. Host A
- B. Host B
- C. Host C
- D. Host D

Answer: C

10. You are using the Push Utility to install a number of Master Agents. What must you enable on the remote hosts?

- A. FTP and Telnet servers that accept logins from the user account
- B. Active Directory access that accepts logins from the user account
- C. FTP and Telnet servers that accept logins from the root or administrator accounts
- D. Active Directory access that accepts logins from the root or administrator accounts

Answer: C

11. Which two [2] types of log files does the EMC ControlCenter Log Utility expert mode allow you to view, analyze, and distribute?

- A. SYMAPI logs
- B. McAfeeVirus Log
- C. Windows Event Log
- D. Internet Explorer Log
- E. Workload Analyzer Archiver log files

Answer: AE

12. Which two [2] statements are true about ControlCenter Web Console?

- A. It is possible to edit licenses through Web Console.
- B. The Web Console is qualified to run on a Linux host.

- C. SNIA V1.0 or higher is required for the Web Console.
- D. ControlCenter Web Console can be launched from Netscape.
- E. The Web Console talks through Web Console Server on port 8080.

Answer: BD

13. What are the required fields for the discovery of an HDS 9900 Series array using the Storage Agent for HDS in ControlCenter 5.2?

- A. HiCommand Server IP, Port, User ID and Password
- B. CommandView Server IP, Port, User ID and Password
- C. HiCommand User ID, Password and the HiCommand CLI Path
- D. CommandView User ID, Password and the CommandView CLI Path

Answer: A

14. Why is StorageScope API used?

- A. Provides centralized, logical access for ControlCenter log files
- B. All licenses will be enabled for Console launches on other hosts
- C. Integrates ControlCenter into management framework applications
- D. Advanced users will be able to create additional reporting functionality

Answer: D

15. Which two [2] Managed Objects can be discovered "Automatically" (that is, starting the Agent initiates discovery) in ControlCenter 2?

- A. AIX Host
- B. CLARiiON
- C. Symmetrix
- D. Brocade Switch
- E. Oracle Database

Answer: AC

16. You have been tasked with installing the EMC ControlCenter 5.2 WebConsole Server on a dedicated server. What is the minimum supported hardware that you will require?

- A. Dual 1.0 GHz CPU 1 GB RAM 8GB DiskSpace
- B. Single 2.4 GHz CPU 3 GB RAM 8GB DiskSpace
- C. Single 3.0 GHz CPU 2 GB RAM 8GB DiskSpace
- D. Dual 2.4 GHz CPU 2 GB 4GB RAM 8GB DiskSpace

Answer: A

17. Which fields are required for the assisted discovery of a Celerra using the Storage Agent for NAS in ControlCenter 5.2?

- A. IP Address, Port, Username and Password of the Celerra Data Mover
- B. IP Address, Port, Username and Password of the Host running the NAS
- C. IP Address, Port, Username and Password of the Celerra Control Station
- D. IP Address, Port, Username and Password of the Celerra Service Processor

Answer: C

18. Which two [2] services must be stopped before upgrading the infrastructure components to ControlCenter 5.2?

- A. OracleServicerambdb
- B. EMC ControlCenter Store Service
- C. EMC ControlCenter Server Service
- D. OracleECCREP\_HOME TNSListener
- E. EMC ControlCenter Master Agent Service

Answer: BC

19. Which three [3] licenses must be activated to enable Storage Provisioning Services on Symmetrix Arrays?

- A. SDM License
- B. SAN Manager
- C. StorageScope
- D. Symmetrix Manager
- E. Storage Agent for Symmetrix
- F. Automated Resource Manager

Answer: BDF

20. Which three [3] items can be installed from the Agent Administration Wizard?

- A. Master Agent
- B. StorageScope
- C. Solutions Enabler
- D. Common Mapping Agent
- E. Fibre Channel Connectivity Agent

Answer: CDE
