EMC EMC Certification

e20-537: networked storage-ns exam for storage administators

Practice Exam: e20-537 Exams

Exam Number/Code: e20-537

Exam Name: networked storage-ns exam for storage administators

Questions and Answers: 92 Q&As

([EMC Certification](#))

"networked storage-ns exam for storage administators", also known as e20-537 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 92 Q&As to your e20-537 exam preparation. In the e20-537 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

Exam : [e20-537](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC EMC Certification e20-537 (networked storage-ns exam for storage administators) examination of original title complete coverage. e20-537 exam questions help you pass the exam.

Just4Study e20-537 Feature:

* High quality - High quality and valued for the e20-537 Exam: 100% Guarantee to Pass Your e20-537 exam and get your EMC Certification certification.

* Authoritative - Authoritative braindumps with complete details about e20-537 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed EMC Certification resources, you will minimize your **EMC EMC Certification** cost and be ready to pass your e20-537 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free EMC Certification demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the e20-537 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free e20-537 Demo Download

Just4Study offers free demo for EMC Certification e20-537 exam (networked storage-ns exam for storage administators). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC EMC Certification e20-537** examination of original title complete coverage.e20-537 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: e20-537

Exam Name: networked storage-ns exam for storage administators(EMC Certification)

Questions and Answers: 92 Q&A

[EMC e20-537](#) Test belongs to one of the EMC Certification certified test, if needs to obtain the EMC Certification certificate, you also need to participate in other related test, the details you may visit the [EMC Certification](#) certified topic, in there, you will see all related EMC Certification certified subject of examination.

Just4Study professional provide EMC Certification e20-537 the newest Q&A, completely covers e20-537 test original topic. With our complete EMC Certification resources, you will minimize your EMC Certification cost and be ready to pass your e20-537 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E20-537

Title : Networked storage-ns exam for storage adminstrators

1. What is a recommended use for SnapSure?

- A. as a Disaster Recovery solution
- B. for production files system mirroring
- C. as a source for incremental backups
- D. for full production file system restores when the PFS is corrupted

Answer: C

2. What is the external RJ45 ported network device name of an NS system Data Mover?

- A. eth
- B. ace
- C. ana
- D. cge

Answer: D

3. Which two [2] methods stop all ICMP traffic to a network?

- A. Deny ICMP at a router
- B. Block ICMP at a switch

- A. a file system must reside on a non-root slice volume that is not in use
- B. a file system must reside on a non-root meta volume that is in use
- C. the slice volume must be at least 2 MB to accommodate a file system
- D. the meta volume must be at least 2 MB to accommodate a file system

Answer: D

6. Which storage template is available in a NS Integrated system that uses ATA physical drives?

- A. CX_Standard_Raid_5
- B. CX_All_4Plus1_Raid_5
- C. ATA_CX_Standard_Raid_1
- D. ATA_RAID3_HS_4+1_8+1

Answer: D

7. Which protocols are available when configuring DNS on a Data Mover?

- A. TCP and IP
- B. UDP and IP
- C. TCP and UDP
- D. UDP and ICMP

Answer: C

8. What is the fully functional state of a Virtual Data Mover?

- A. loaded
- B. mounted
- C. PermUnloaded
- D. TempUnloaded

Answer: A

9. Click the Exhibit button.

What will happen if one of the trunking network paths fails (indicated by the X)?

- A. I/O will pass on both paths
- B. The Data Mover will failover
- C. All I/O will pass on active path only
- D. I/O will wait until the failed path becomes available

Answer: C

10. Which command is used to create a new user on the Data Mover for FTP?

- A. nas_user
- B. nas_newuser
- C. server_user
- D. server_ftpuser

Answer: C

11. When the getreason command is used, which status identifies that a Data Mover needs to be replaced?

- A. contacted
- B. connected
- C. dos booted
- D. powered off

Answer: D

12. What is one characteristic of internal usermapper?

- A. runs on Control Station
- B. no separate installation required
- C. coexist with External usermapper is recommended
- D. requires post DART code installation on the Control Station from the Celerra Application disk

Answer: B

13. What is one replication choice available with Celerra Replicator?

- A. remote
- B. checkpoint
- C. synchronous

D. semi-synchronous

Answer: A

14. Which solution does Celerra Replicator provide?

A. asynchronous file system replication over an iSCSI link

B. synchronous file system replication over an iSCSI link

C. asynchronous file system replication over an IP link

D. synchronous file system replication over an IP link

Answer: C

15. What is used for centralized user and group management in a UNIX environment?

A. NIS

B. UFS

C. UDP

D. NTLM

Answer: A

16. What is stored in a Virtual Data Mover's root file system?

A. NTP

B. Local Groups

C. Usermapper configuration

D. FTP root directory

Answer: B

17. Celerra quotas are turned off. How does that affect the existing user and group quota information?

A. it will be lost

B. it is maintained

C. it will still be active

D. it becomes unavailable

Answer: B

18. What is the default authentication method used in Windows Active Directory, Native Mode?

A. LM

B. NIS

C. NTLM

D. Kerberos

Answer: D

19. What is the default type of a Celerra file system?

A. ufs

B. udfs

C. mgfs

D. rawfs

Answer: B

20. Which procedure configures Windows users' home directories on a Celerra CIFS server?

A. Configure the homedir file with the path for each domain user

Enable the home directory option on the Data Mover

Export the appropriate path as the share name HOME

Edit the profile of each users account.

B. Configure the homedir file with the path for each domain user

Enable the home directory option on the Data Mover

Create a directory in the correct location for each user

Edit the profile of each existing user's account.

C. Configure the homedir file with the path for each domain

Export the path as the share name HOME

Enable the home directory option on the Data Mover

Edit the profile of each user account using the %user% variable

D. Configure the homedir file with the path for each domain

Enable the home directory option on the Data Mover

Create a directory in the correct location for each user

Edit the profile of each user account using the %user% variable

Answer: B
