EMC Legato Cert

e22-106: emc legato cert.aam 5 x administrator

Practice Exam: e22-106 Exams

Exam Number/Code: e22-106

Exam Name: emc legato cert.aam 5 x administrator

Questions and Answers: 116 Q&As

([Legato Cert](#))

"emc legato cert.aam 5 x administrator", also known as e22-106 exam, is a EMC certification. With the complete collection of exam questions, Just4Study has assembled to take you through 116 Q&As to your e22-106 exam preparation. In the e22-106 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

Exam : [e22-106](#)

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for EMC Legato Cert e22-106 (emc legato cert.aam 5 x administrator) examination of original title complete coverage. e22-106 exam questions help you pass the exam.

Just4Study e22-106 Feature:

* High quality - High quality and valued for the e22-106 Exam: 100% Guarantee to Pass Your e22-106 exam and get your Legato Cert certification.

* Authoritative - Authoritative braindumps with complete details about e22-106 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Legato Cert resources, you will minimize your **EMC Legato Cert** cost and be ready to pass your e22-106 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Legato Cert demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the e22-106 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free e22-106 Demo Download

Just4Study offers free demo for Legato Cert e22-106 exam (emc legato cert.aam 5 x administrator). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **EMC Legato Cert e22-106** examination of original title complete coverage.e22-106 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: e22-106

Exam Name: emc legato cert.aam 5 x administrator(Legato Cert)

Questions and Answers: 116 Q&A

EMC e22-106 Test belongs to one of the Legato Cert certified test, if needs to obtain the Legato Cert certificate, you also need to participate in other related test, the details you may visit the [Legato Cert](#) certified topic, in there, you will see all related Legato Cert certified subject of examination.

Just4Study professional provide Legato Cert e22-106 the newest Q&A, completely covers e22-106 test original topic. With our complete Legato Cert resources, you will minimize your Legato Cert cost and be ready to pass your e22-106 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

Just4Study.com offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : EMC E22-106

Title : Emc Legato Cert AAM 5 x Administrator

1. Which is a valid IP address for private non-routed network use?

- A.37.16.256.4
- B.117.24.103.40
- C.127.0.0.1
- D.192.168.7.69

Answer: D

2. Node alias names must _____. (Choose two.)

- A.be unique
- B.be listed in DNS
- C.be fewer than 16 characters
- D.disable NetBIOS over TCP/IP
- E.be assigned to a Resource Group

Answer: AC

3. Which two tasks can occur on a secondary agent? (Choose two.)

- A.execute rules
- B.restart the backbone
- C.host a Resource Group
- D.monitor the AAM domain
- E.maintain a copy of the database

Answer: CD

4. What does the mirroring for Windows 2000 Data Source require?

- A.a dynamic disk
- B.a private network
- C.a shared disk array
- D.a hardware RAID controller

Answer: B

5. Which three options can only be defined in a Resource Group? (Choose three.)

- A.delays
- B.scripts
- C.event messages
- D.environment variables
- E.Network Interface Cards (NICs)

Answer: ABC

6. Which two statements are true about the AAM isolation detection feature? (Choose two.)

- A.All agents are responsible for isolation detection.
- B.Only primary agents are responsible for isolation detection.
- C.If, within half of the minimum detection time, no heartbeats are received, a ping is sent to each isolation address.
- D.If, within half of the minimum detection time, no heartbeats are received, a ping is sent across the verification line.

Answer: AC

7. An administrator creates five Resource Groups in AAM. What is the number of ftPerl processes running by default?

- A.1
- B.2
- C.3
- D.5

Answer: C

8. Which three resource objects can be contained within a Resource Group? (Choose three.)

- A.rule
- B.process
- C.IP address
- D.Utility process
- E.Network Interface Card (NIC)

Answer: BCD

9. What are three elements of a Resource Group? (Choose three.)

- A.rules
- B.delays
- C.sensors
- D.node proxies
- E.Utility Processes
- F.event messages

Answer: BEF

10. Which three options should you consider when performing a failover in a WAN environment? (Choose three.)

- A.isolation detection
- B.transfer of host name
- C.location of DNS servers
- D.transfer of IP addresses
- E.secondary agents on both sides of the network

Answer: ACD

11. Which two networking statements are correct? (Choose two.)

- A.Routing is the same on all operating systems.
- B.Routing is the same on UNIX operating systems.
- C.Not all switches will route multicast traffic by default.
- D.To observe the routing table on a UNIX or Windows server, you should use the netstat -nr command.

Answer: CD

12. A three-node domain is configured with each of the nodes connected to two networks. A network cable attached to node A's Network Interface Card (NIC) is accidentally detached. Later that evening, the maintenance crew unplugs power to the hub on node A's remaining working network.

Which statement is true?

- A.The node is considered isolated.

- B.Nodes B and C will report node A as shut down.
- C.The resources running on node A are taken offline.
- D.When the network connection is re-established, node A will determine that its Resource Group objects have changed to a failed state.

Answer: A

13. Which two are clustering topologies? (Choose two.)

- A.ring
- B.star
- C.one to one
- D.one to none
- E.many to one

Answer: CE

14. Which statement describes the functionality of an AAM Sensor?

- A.A Sensor returns the value of the data point to a trigger.
- B.A Sensor fires an associated rule when the value of the data point changes.
- C.A Sensor fires an associated trigger when the value of the data point changes.
- D.A Sensor senses changes in the value of a data point and submits those changes to its associated rule.

Answer: A

15. Which statement is true when creating a new service resource?

- A.The default response test is used to query the service status.
- B.AAM discovers all services on all nodes when selecting the service to run.
- C.AAM prevents the target node list from containing nodes on which the service is not installed.
- D.The account information set must match the account for the service configuration in the service Control Manager applet.

Answer: B

16. Which statement describes an AAM Utility Process?

- A.A Utility Process runs using the account of the user that started it.
- B.A Utility Process can transition to the failed state if its existence monitor is incorrectly written.
- C.A Utility Process is an unmanaged process that can be started from the Management Console, from a Resource Group, or from a rule.
- D.When contained within a Resource Group, a Utility Process will typically run while the group is brought online, and be stopped when the resource group is taken offline.

Answer: C

17. When considering the use of a dedicated Mirroring Network, which two statements are true? (Choose two.)

- A.You must set the duplex mode for the adapter to AutoSelect.
- B.The NetBEUI protocol must be enabled for the mirroring network.
- C.You must ensure that TCP/IP is the only network protocol on that link and all other protocols are disabled.
- D.The Network Interface Card (NIC) used for mirroring must appear before the NICs used for the public network.
- E.You must assign a static IP address for the dedicated link that is on a separate subnet from any domain network or public network.

Answer: CE

18. Which statement is true about AAM secondary nodes?

- A.Secondary nodes provide backbone fault tolerance.
- B.Secondary nodes can be the last running node in an AAM domain.
- C.Secondary nodes can be the preferred node to run a Resource Group.
- D.Secondary Rule Interpreters can run rules for any node on the domain.

Answer: C

19. Which statement about AAM's Network Interface Card (NIC)-to-NIC feature is true?
- A.If one NIC fails, another will be configured to take its place.
 - B.Communications can be routed from one NIC to another NIC.
 - C.If one NIC is overloaded, another NIC will be configured to assist with traffic.
 - D.Two NICs are paired together as a single logical NIC with twice the capacity and function.

Answer: A

20. When is it appropriate to configure node-specific isolation detection IP addresses instead of domain-specific isolation detection IP addresses?

- A.when isolation detection IP addresses are common to all nodes
- B.when a configuration has only one isolation detection IP address
- C.when isolation detection IP addresses are not common to all nodes
- D.when a configuration has five or more isolation detection IP addresses

Answer: C
